**The Playwright's Manifesto** Paul Sirett, 2022-09-08 Shortlisted for the STR Theatre Book Prize 2023. A manifesto for the future of playwriting, this book challenges you to be a part of that future in the belief that it is fundamentally important to write plays. Plays help us understand ourselves, others, and the world around us. Reading this book, you will be challenged to learn your craft, explode what you know, prioritise what is important to you, and write in the way that only you can write. Most books on playwriting explain how to create a believable character in a story driven by plot. This book, however, goes even further in its exploration of the playwright's most valuable tool: theatricality. By learning from the past and the present, the playwrights of tomorrow can create new, vivid theatrical drama for the future. This manifesto also examines the process of writing, the art of collaboration, and the impact of writing on a playwright's mental health. It identifies the highs and lows, as well as the trials and tribulations of life as a playwright in today's world. Theatre is a living artform. It is time for playwrights to acknowledge that fact and to celebrate the unique, primal thrill that a live theatre experience offers us. The future of playwriting is in your hands. Do you accept the challenge?

Masterpieces of 20th-Century American Drama Susan C. W. Abbotson, 2005-09-30. American playwrights have made enormous contributions to world drama during the last century, and their works are widely read and performed. This reference conveniently introduces 10 of the most important modern American plays read by students. An introductory essay concisely overviews modern American drama, and each of the chapters that follow examines a particular play. Among the plays discussed are Thornton Wilder's *Our Town*, Arthur Miller's *Death of a Salesman*, Lorraine Hansberry's *A Raisin in the Sun*, and August Wilson's *The Piano Lesson*. Each chapter includes a biography, a plot summary, an analysis of the play's themes, characters, and dramatic art, and a review of its historical background and reception. Chapters list works for further reading, and the volume closes with a selected general bibliography.

**American Literature from 1945 Through Today** Britannica Educational Publishing, 2010-04-01. Perhaps the most defining characteristic of American literature composed after World War II is the rejection of conventional form and structure with its increasingly uninhibited and experimental style. Embracing works from previously marginalized groups like African Americans and women and ushering in new genres, contemporary American literature has progressively begun to mirror the American population in diversity and versatility. In this volume, readers are invited to think critically about the social issues and ideas that are as much a part of modern American life as they are of modern American literature.
