**Photography and Visual Culture** Moritz Neumüller, 2018-09-21 *The Routledge Companion to Photography and Visual*

Culture is a seminal reference source for the ever changing field of photography. Comprising an impressive range of essays and interviews by experts and scholars from across the globe, this book examines the medium's history, its central issues and emerging trends, and its much-discussed future. The collected essays and interviews explore the current debates surrounding the photograph as object, art, document, propaganda, truth-selling tool, and universal language; the perception of photography archives as burdens rather than treasures; the continual technological development reshaping the field; photography as a tool of representation and control; and more. One of the most comprehensive volumes of its kind, this companion is essential reading for photographers and historians alike.

**Fashion and Fiction** Lauren S. Cardon, 2016-04-05 During the twentieth century, the rise of the concept of Americanization, shedding ethnic origins and signs of otherness to embrace a constructed American identity, was accompanied by a rhetoric of personal transformation that would ultimately characterize the American Dream. The theme of self-transformation has remained a central cultural narrative in American literary, political, and sociological texts, ranging from Jamestown narratives to immigrant memoirs, from slave narratives to *Gone with the Wind*, and from the rags to riches stories of Horatio Alger to the writings of Barack Obama. Such rhetoric feeds American myths of progress, upward mobility, and personal reinvention. In *Fashion and Fiction*, Lauren S. Cardon draws a correlation between the American fashion industry and early twentieth-century literature. As American fashion diverged from a class-conscious industry governed by Parisian designers to become more commercial and democratic, she argues, fashion designers and journalists began appropriating the same themes of self-transformation to market new fashion trends. Cardon illustrates how canonical twentieth-century American writers, including Edith Wharton, Theodore Dreiser, F. Scott Fitzgerald, Ernest Hemingway, and Nella Larsen, symbolically used clothing to develop their characters and their narrative of upward mobility. As the industry evolved, Cardon shows, the characters in these texts increasingly enjoyed opportunities for individual expression and identity construction, allowing for temporary performances that offered not escapism but a testing of alternate identities in a quest for self-discovery.

**Fiction and Social Research** Anna Banks, Stephen P. Banks, 1998-09-11 *Fiction and Social Research* brings together writers from a variety of disciplines to explore and illustrate the possibilities of new narrative forms in social research. At the intersections of fiction, ethnography, and cultural studies, these essays demonstrate narratives that simultaneously enrich fieldwork and enliven research reporting. By arranging this volume into four areas of concern, this volume demonstrates how fiction can express issues of representation, subjectivity, critique, and postmodern discourse. This

volume is unique in its accessibility and will prove a valuable tool to the veteran scholar and beginning ethnographer alike
