Abstract: Having been at the centre of a century long debate which cast doubt on the nature of Augustine's conversion, one might assume that Augustine's early works (386-96) have now been rescued and given their rightful place. This book suggests that these are now threatened by an equally destructive trend in Augustine scholarship, which, over the last fifty years, has become an almost unquestioned norm of interpretation. This is the idea, fatefully and poignantly depicted by Peter Brown in the chapter of his seminal biography entitled *The Lost Future*, that the early optimistic and philosophical Augustine was dramatically transformed into the mature, pessimistic theologian of the Fall, original sin, and grace by his reading of Paul in the mid-390s. This interpretation of the first decade of Augustine's life has since become such an *idée fixe* in scholarly as well as popular accounts, leaving two very different Augustines: one, the young convert, tired to pursue Wisdom by an optimistic confidence in the rational disciplines of the liberal arts, human free will, and a glorious ideal of perfection; the other, the older and wiser bishop of Hippo, convinced of human fallenness and of the need for grace to will or to do any good work. This book argues that in order to do justice to Augustine's conversion, to his early theology and understanding of the Christian life, and to the early works themselves, such caricatures must be resisted. It seeks to demonstrate that there is a fundamental continuity in Augustine's thought, which does not undergo any dramatic change when he re-reads Paul in the 390s; that there is only one Augustine, for whom human weakness and divine grace were the central axes of his Christian faith and life from the very beginning.

Part One

1. The Context

This chapter considers the biographical, historical, and theological context of Augustine's early works (386-96). It outlines the way in which these works have been read in scholarly debates over the last hundred years, demonstrating that they have generally been marginalised as the rather obsolete philosophical investigations of a new, somewhat naïve, over-optimistic convert, still entrenched in the classical tradition of belief in human free will and perfectibility. These have generally been contrasted with the later, mature works of Augustine — the pessimistic theologian of the Fall, original sin, and human dependence upon divine grace. It considers Peter Brown's analysis of the revolutionary transformation of the early into the later Augustine following his reading of Paul in the 390s, and sets out the argument of the book: that there is no discontinuity or revolutionary transformation of the early into the later Augustine, but rather a fundamental continuity between the two.

2. The Revolution of 386

This chapter argues that Augustine's conversion in 386 is not a radically different conversion from the one he recounts in *Confessiones* 8: that if one is to speak of a 'revolution' in his thought, it is not to be found in his reading of Paul in the 390s, but in his reading of the 'books of the Platonists' in 386, and his discovery in them of a doctrine of God's transcendence which freed him from the materialistic philosophies that had hitherto made it impossible for him to embrace the Christian faith to which he had always sought to be reconciled.

Rethinking Augustines Early Theology An Argument For Continuity:

Rethinking Augustine's Early Theology Carol Harrison, 2006-01-19 Carol Harrison challenges the almost universally accepted interpretation of the development of Augustine's theology. In this book she proposes a new thesis arguing for a fundamental continuity in Augustine's belief and practice from the moment of his conversion and so enhances a major scholarly debate.

Augustine's Early Thought on the Redemptive Function of Divine Judgement Bart van Egmond, 2018-12-06 Augustine's Early Thought on the Redemptive Function of Divine Judgement considers the relationship between Augustine's account of God's judgment and his theology of grace in his early works. How does God use his law and the penal consequences of its transgression in the service of his grace both personally and through his agents on earth? Augustine reflected on this question from different perspectives. As a teacher and bishop he thought about the nature of discipline and punishment in the education of his pupils, brothers and congregants. As a polemicist against the Manichaeans and as a biblical expositor he had to grapple with issues regarding God's relationship to evil in the world, the violence God displays in the Old Testament and in the death of his own Son. Furthermore, Augustine meditated on the way God's judgment and grace related in his own life both before and after his conversion. Bart van Egmond follows the development of Augustine's early thought on judgment and grace from the Cassiciacum writings to the Confessions. The argument is contextualized both against the background of the earlier Christian tradition of reflection on the providential function of divine chastisement and the tradition of psychagogy that Augustine inherited from a variety of rhetorical and philosophical sources. This study expertly contributes to the ongoing scholarly discussion on the development of Augustine's doctrine of grace and to the conversation on the theological roots of his justification of coercion against the Donatists.

Augustine's Theology of Preaching Peter T. Sanlon, 2014-07-01 Scholarship has painted many pictures of Augustine: the philosophical theologian, the refuter of heresy, or contributor to doctrines like Original Sin, but the picture of Augustine as preacher says Sanlon has been seriously neglected. When academics marginalize the *Sermones ad Populum*, the real Augustine is not presented accurately. In this study, Sanlon does more than rehabilitate a neglected view of Augustine. How do the theological convictions that Augustine brought to his preaching challenge, sustain, or shape our work today? By presenting Augustine's thought on preaching to contemporary readers, Sanlon contributes a major new piece to the ongoing reconsideration of preaching in the modern day, a consideration that is relevant to all branches of the twenty-first-century church.

A Companion to Augustine Mark Vessey, 2015-05-26 *A Companion to Augustine* presents a fresh collection of scholarship by leading academics with a new approach to contextualizing Augustine and his works within the multi-disciplinary field of Late Antiquity, showing Augustine as both a product of the cultural forces of his times and a cultural force in his own right. Discusses the life and works of Augustine within their full historical context rather than privileging the theological context. Presents Augustine's life, works, and leading ideas in the cultural context of the late Roman world, providing a vibrant and engaging sense of Augustine.

in action in his own time and place Opens up a new phase of study on Augustine sensitive to the many and varied perspectives of scholarship on late Roman culture State of the art essays by leading academics in this field *Augustine on the Will* Han-luen Kantzer Komline,2020 While Augustine s understanding of will is constantly invoked in secondary literature it rarely receives analysis in its own right In this book Han luen Kantzer Komline provides such an analysis demonstrating that Augustine s view is theologically differentiated comprising four distinct types of human will which correspond to four different theological scenarios *Augustine and the Mystery of the Church* James K. Lee,2017-09-01 Over the course of the past two centuries Augustine s ecclesiology has been subject to interpretations that overdraw the distinction between the visible and invisible dimensions of the church sometimes reducing the church to a purely spiritual invisible reality over against the visible church celebrating the sacraments the empirical community is incidental at best and can be discarded By contrast this book argues that the church is a mystery that is visible and invisible Far from discarding the visible Augustine places greater emphasis on the empirical church as his thought develops This study traces Augustine s ecclesiology from early writings to later works in order to demonstrate this thesis His early thought is heavily influenced by Platonism and tends to focus on the ascent of the individual soul After his study of Scripture in the 390s Augustine gives priority to participation in the visible sacramental community In his mature thought the church is one mystery *mysterium sacramentum* revealed by Scripture with visible and invisible aspects This book explores Augustine s exegesis of biblical images of the church such as body of Christ bride of Christ city of God and sacrifice in order to show how the visible community is intrinsic to the mystery of the church **Reason, Authority, and the Healing of Desire in the Writings of Augustine** Mark J. Boone,2020-01-14 In *Reason Authority and the Healing of Desire in the Writings of Augustine* Mark Boone explains Augustine s theology of desire in a cross section of his writings He shows that Augustine s writings consistently teach a Platonically informed yet distinctively Christian theology of desire *The Universal Way of Salvation in the Thought of Augustine* Thomas P. Harmon,2024-06-27 This work examines Augustine s critique of his Roman predecessors to reveal key aspects of Christ s mediation of the universal way of salvation Porphyry of Tyre had noticed that Christianity can make a claim that pagan religion and pagan philosophy cannot that all types of human being can be saved through the one salvific action of Christ mediated sacramentally through the one Catholic Church Augustine s response to Porphyry is grounded firmly on Christology especially on what Augustine sees to be the unique act of Christ as mediator based in turn on Christ s unique position as true God and true man which in turn is capable of healing the whole man and by healing the whole man also healing each of the parts of the soul Christ himself as concretely universal is capable of saving each and any type of human being no matter which part of the soul rules within him Augustine counters which is not a claim his pagan interlocutors can replicate In addition to careful considerations of ancient authors like Plato Cicero Varro and Porphyry this book also ranges through Plutarch Shakespeare and contemporary political thinkers like Pierre Manent and Leo Strauss

intrinsic goodness of the creation In this book Ge proposes that a distinctively Christian theology of participation anchored in creatio ex nihilo developed by Augustine and brought to the fore by Aquinas provides a more promising solution which not only secures the unity of things in God but also the goodness of creaturely plurality Since participation in its origin is a solution to the problem of the One and the Many Ge employs Gunton's framework of the one and the many in his discussion of Augustine and Aquinas's theologies of participation By reshaping their concepts of participation in the light of the doctrine of creation Ge argues these thinkers have profoundly transformed the metaphysics of participation making it finally more suitable for describing the unique relationship between God's unity and creaturely plurality This Christian metaphysics of participation is not only an advance on Radical Orthodoxy and Boersma but also superior to competing theories of reality such as pluralism and reductionist physicalism The book will also bring out implications for modern science religion dialogues the core of which concerns how God relates to the world

Pilgrimage as Moral and Aesthetic Formation in Augustine's Thought Sarah Stewart-Kroeker, 2017-08-04 Augustine's dominant image for the human life is peregrinatio which signifies at once a journey to the homeland a pilgrimage and the condition of exile from the homeland For Augustine all human beings are in the earthly life exiles from their true homeland heaven Some but not all become pilgrims seeking a way back to the heavenly homeland a return mediated by the incarnate Christ Becoming a pilgrim begins with attraction to beauty The return journey therefore involves formation both moral and aesthetic in loving rightly This image has occasioned a lot of angst in ethical thought in the last century Augustine's vision of Christian life as a pilgrimage his critics allege casts a pall of groaning and longing over this life in favor of happiness in the next Augustine's eschatological orientation robs the world of beauty and ethics of urgency In Pilgrimage as Moral and Aesthetic Formation in Augustine's Thought Sarah Stewart Kroeker responds to Augustine's critics by elaborating the Christological continuity between the earthly journey and the eschatological home Through this cohesive account of pilgrimage as a journey toward the right ordering of the desire for beauty and love for God and neighbour Stewart Kroeker reveals the integrity of Augustine's vision of moral and aesthetic vision From the human desire for beauty to the embodied practice of Christian sacraments Stewart Kroeker develops an account of the relationship between beauty and morality as the linchpin of an Augustinian moral theology
