in the practice of such customs The author observes that many Americans also excel in manipulation of language yet find a simultaneous moral absolutism opposed to lying in any form She also considers other traditions including Japanese and Jewish that struggle to control the boundaries of lying balancing human needs with moral values in contrasting ways Deception and lying the book concludes are distinctively cultural yet universal inseparable from what it is to be a human being equipped with language in all its subtlety *Thinking Nursing* Mason, Tom, Mason-Whitehead, Elizabeth, 2003-12-01

Mitchell, 1998 A pathology of sexual repression and Catholicism in Spain Revenge of the Windigo James Burgess Waldram, 2004-01-01 What is known about Aboriginal mental health and mental illness and on what basis is this knowing assumed This question while appearing simple leads to a tangled web of theory method and data rife with conceptual problems shaky assumptions and inappropriate generalizations It is also the central question of James Waldram's *Revenge of the Windigo* This erudite and highly articulate work is about the knowledge of Aboriginal mental health who generates it how it is generated and communicated and what has been and continues to be its implications for Aboriginal peoples To better understand how this knowledge emerged James Waldram undertakes an exhaustive examination of three disciplines

anthropology psychology and psychiatry and reveals how together they have constructed a gravely distorted portrait of the Aboriginal Waldram continues this acute examination under two general themes The first focuses on how culture as a concept has been theorized and operationalized in the study of Aboriginal mental health The second seeks to elucidate the contribution that Aboriginal peoples have inadvertently made to theoretical and methodological developments in the three fields under discussion primarily as subjects for research and sources of data It is Waldram s assertion that despite the enormous amount of research undertaken on Aboriginal peoples researchers have mostly failed to comprehend the meaning of contemporary Aboriginality for mental health and illness preferring instead the reflection of their own scientific lens as the only means to properly observe measure assess and treat Using interdisciplinary methods the author critically assesses the enormous amount of information that has been generated on Aboriginal mental health deconstructs it and through this exercise provides guidance for a new vein of research

The Play of Mirrors Sylvia Caiuby Novaes,2010-06-28 Focusing on the Bororo people of west central Brazil this book addresses the construction of self identity through interethnic interaction By presenting the images the Bororo have of themselves as well as the images of others who have interacted with them Brazilian anthropologist Sylvia Caiuby Novaes argues convincingly that Bororo self images are constructed with the aid of a peculiar looking glass it is in the images of others that they see themselves Incorporating contributions from psychology psychoanalysis linguistics and semiotics Play of Mirrors focuses on symbols images discourse and meanings rather than solely on the problem of acculturation It thus reflects the thinking of a new generation of Brazilian anthropologists who have shifted their focus from native communities as isolated entities to an examination of their embeddedness within broader national and international arenas
