Rethinking Security in East Asia J. J. Suh, Peter J. Katzenstein, Allen Carlson, 2004 Is East Asia heading towards war This text makes a case for a new theoretical approach called analytical eclecticism by the authors to the study of Asian security *Changing Security Dynamics in East Asia* Elena Atanassova-Cornelis, Frans-Paul van der Putten, 2016-04-30 This original and detailed collection explores how regional actors deal with uncertainties that are inherent to the current geopolitical situation in East Asia The contributors collectively demonstrate that strategic uncertainty has become a major factor in the shaping of the security order in East Asia *Security Politics in the Asia-Pacific* William T. Tow, 2009-10-15 In this book leading experts present research on the evolution of key issues in Asian security **ASEAN and the Institutionalization of East Asia** Ralf Emmers, 2011-09-28 This book examines the evolving multilateral security arrangements in East Asia with a focus on the role of the Association of Southeast Asian Nations ASEAN It explores the function and relevance of ASEAN in East Asia s emerging institutional security landscape These issues have direct implications for the future of the ASEAN Security Community the relevance of the ASEAN cooperative model to wider regional arrangements and finally for the further institutionalization of great power relations within these multilateral structures The book highlights ASEAN s successes and shortcomings It also considers ASEAN led institutions in the wider region and goes on to analyse alternative approaches to regionalism including the China Japan South Korea Trilateral Summit Overall it assesses how the various initiatives are likely to develop concluding that ASEAN despite its shortcomings is likely to continue to play a key role *Routledge Handbook of Asian Regionalism* Mark Beeson, Richard Stubbs, 2012-03-15 The Routledge Handbook of Asian Regionalism is a definitive introduction to and analysis of the development of regionalism in Asia including coverage of East Asia Southeast Asia and South Asia The contributors engage in a comprehensive exploration of what is arguably the most dynamic and important region in the world Significantly this volume addresses the multiple manifestations of regionalism in Asia and is consequently organised thematically under the headings of conceptualizing the region economic issues political issues strategic issues regional organizations As such the Handbook presents some of the key elements of the competing interpretations of this important and highly contested topic giving the reader a chance to evaluate not just where Asian regionalism is going but also how the scholarship on Asian regionalism is analysing these trends and events This book will be an indispensable resource for students and scholars of Asian politics international relations and regionalism *Asian Geopolitics and the US-China Rivalry* Felix Heiduk, 2021-07-22 This book analyses the ways in which foreign policy actors in Asia have responded to the emerging great power conflict between the US and the People s Republic of China focusing on medium and small states across the Indo Pacific The book offers a much needed counterpoint to existing analyses on the Indo Pacific and China s BRI and presents a new perspective by examining how great power politics are locally reinterpreted conditioned or at times even contested It
