Rethinking State Theory:

Rethinking State Theory Mark J Smith, Mark J. Smith, 2013-10-11 In the last two decades objects of analysis such as the state have increasingly been seen as uncertain and contested theoretical concepts Mark J Smith presents a counter argument that highlights how existing theoretical approaches can provide useful tools for understanding contemporary political developments

State Theory Bob Jessop, 2013-04-30 This volume develops a novel approach to state theory It offers a comprehensive review of the existing literature on the state and sets a new agenda for state research Four central themes define the scope of the book an account of the bases of the operational autonomy of the state the need to develop state theory as part of a more general social theory the possibilities of explaining capitalist societalization without assuming that the economy is the ultimate determinant of societal dynamics and a defence of the method of articulation in theory construction In developing these issues Bob Jessop both builds on and goes well beyond the view presented in his earlier books *The Capitalist State* 1982 and *Nicos Poulantzas* 1985 The result is a highly original statement which will become a center point of discussion The volume confirms the author's standing as one of the most important post War Marxist state theorists

Rethinking State Theory Mark J. Smith, 2000 Examines the connection between theories of the State and approaches to knowledge construction It focuses on neo pluralist neo liberalist and neo Marxist thought analysing the work of Hayek and others

State Theory and Andean Politics Christopher Krupa, David Nugent, 2015-04-14 In the last few decades Andean states have seen major restructuring of the organization leadership and reach of their governments With these political tremors come major aftershocks regarding both definitions and expectations What is a state Who or what makes it up and where does it reside In what capacity can the state be expected to right wrongs raise people up protect them from harm maintain order or provide public services What are its powers and responsibilities *State Theory and Andean Politics* attempts to answer these questions and more through an examination of the ongoing process of state creation in Andean nations Focusing on the everyday extra official and frequently invisible or partially concealed permutations of rule in the lives of Andean people the essays explore the material and cultural processes by which states come to appear as real and tangible parts of everyday life In particular they focus on the critical role of emotion imagination and fantasy in generating belief in the state among the governed and the governing alike This approach pushes beyond the limits of the state as conventionally understood to consider how non state acts of governance intersect with official institutions of government while never being entirely determined by them or bound to their authorizing agendas *State Theory and Andean Politics* asserts that the state is not simply an institutional bureaucratic apparatus but one of many forces vying for a claim to legitimate political dominion Featuring an impressive array of Andeanist scholars as well as eminent state theorists Akhil Gupta and Gyanendra Pandey *State Theory and Andean Politics* makes a bold and novel claim about the nature of states and state making that deepens understanding not only of the Andes and Global South but of the world at large Contributors Kim Clark Nicole Fabricant

Lesley Gill Akhil Gupta Christopher Krupa David Nugent Gyanendra Pandey Mercedes Prieto Maria Clemencia Ram rez Irene Silverblatt Karen Spalding Winifred Tate Rule and Rupture Christian Lund, Michael Eilenberg, 2017-07-11 *Rule and Rupture* State Formation Through the Production of Property and Citizenship examines the ways in which political authority is defined and created by the rights of community membership and access to resources Combines the latest theory on property rights and citizenship with extensive fieldwork to provide a more complex nuanced assessment of political states commonly viewed as weak fragile and failed Contains ten case studies taken from post colonial settings around the world including Cambodia Nepal Indonesia Afghanistan Rwanda Somalia Democratic Republic of Congo Colombia and Bolivia Characterizes the results of societal ruptures into three types of outcomes for political power reconstituted and consolidated challenged and fragmented Brings together exciting insights from a global group of scholars in the fields of political science development studies and geography *Cooperation Networks and Economic Development* Andrés Cárdenas O'Farrill, 2021-02-11 For most Western audiences Cuba is a touristic paradise stuck in time and virtually detached from world technology networks by the US embargo anything but a hub of industrial innovation and high value added biotechnology However a closer look reveals more subtle but equally powerful stories that challenge the homogenizing assumptions of conventional economics and open up scope for more sophisticated reflections on Cuban economy and industry From this kind of enquiry emerges the case of the internationally respected Cuban biotech industry as the most successful case of science and technology policy in the country's economic history The book takes an interdisciplinary approach exploring issues such as interdependency purpose and history as natural constituencies of the innovation process It also examines the dynamic and crucial role played by the state in the formation of innovative business enterprises This book will be of interest to academic researchers in the fields of innovation and economic development Power and Resistance, 7th ed. Jessica Antony, Wayne Antony, 2022-06-30T00:00:00Z *Power and Resistance* debunks the dominant neoliberal hyper individualist approach to society's problems that sees poverty as a result of laziness environmental crises as a result of market demands for products that pollute and Indigenous Peoples struggles as a result of not assimilating We argue that it is social inequality and oppression that are the underlying causes of social problems In a society like ours powerful groups make choices that benefit them and force those choices onto others creating life problems for others and society as a whole The powerful also have influence over what is and is not called a social problem Solving social problems requires changing the structures of inequality and oppression For example industrial corporate agriculture has created huge profits for a few gigantic food corporations but left much of the world hungry But farmers and their allies are pushing back through agroecology an agriculture based on local small scale ecologically sustainable farming that brings eaters and growers closer to one another The seventh edition of *Power and Resistance* includes new chapters on anti Black racism in schools Indigenous people and mental health food security and sovereignty and work in the gig economy *Handbook of Political Anthropology* Harald

Wydra, Bjørn Thomassen, 2018-11-30 This Handbook engages the reader in the major debates approaches methodologies and explanatory frames within political anthropology Examining the shifting borders of a moving field of enquiry it illustrates disciplinary paradigm shifts the role of humans in political structures ethnographies of the political and global processes Reflecting the variety of directions that surround political anthropology today this volume will be essential reading to understanding the interactions of humans within political frames in a globalising world Ethics and Politics in

Contemporary Theory Between Critical Theory and Post-Marxism Mark Devenney, 2004-02-24 In addressing the political and theoretical debates between critical and post Marxist theorists this book discusses the politics of communication and rationality subjectivity sovereignty ethics and deliberative democracy considering questions such as Does the theory of communicative action justify deliberative democracy Is a theory of hegemony compatible with an account which relies upon an ideal of communicative success Is autonomy a good which should be fostered Can the ideal of democracy extend beyond the nation state Does post Marxism have anything interesting to say about ethics Analysing the work of Ernesto Laclau and Jürgen Habermas as representatives of different choices made in regard to theory politics and morality Ethics and Politics in Contemporary Theory develops a critical response to the contrasting conclusions of these approaches *Civil Society and*

Democratic Theory Gideon Baker, 2003-08-27 This book introduces radically alternative models of civil society that have been developed outside the liberal democratic frame of reference models which suggest that civil society does offer new and non statist democratic possibilities Drawing on a wide range of civil society theory practice from Eastern Europe and Latin America including the Zapatistas in Mexico and from visions of global civil society too this book is uniquely positioned to consider the questions posed by these alternative voices for democratic theory and practice Are there alternatives to the liberal democratic vision of civil society Is a democracy located in civil society rather than the state either possible or desirable How and why has the concept of civil society come to be used so widely today Can global civil society further the struggle for democracy initiated by national civil societies **The Political Theory of Global Citizenship** April

Carter, 2013-07-04 This book provides a comprehensive overview of the meaning of cosmopolitanism and world citizenship in the history of Western political thought and in the evolution of international politics since 1500 Providing an invaluable overview of earlier political thought recent theoretical literature and current debates this book also discusses recent developments in international politics and transnational protest It will be of great interest to those specialising in political theory International Relations and peace conflict studies It will also interest those already acting as global citizens

Logics of Critical Explanation in Social and Political Theory Jason Glynos, David Howarth, 2007-09-12 This book proposes a novel approach to practising social and political analysis based on the role of logics The authors articulate a distinctive perspective on social science explanation that avoids the problems of scientism and subjectivism by steering a careful course between lawlike explanations and thick descriptions Drawing upon hermeneutics poststructuralism

psychoanalysis and post analytical philosophy this new approach offers a particular set of logics social political and fantasmatic with which to construct critical explanations of practices and regimes While the first part of the book critically engages with lawlike interpretivist and causal approaches to critical explanation the second part elaborates an alternative grammar of concepts informed by an ontological stance rooted in poststructuralist theory In developing this approach a number of empirical cases are included to illustrate its basic concepts and logics ranging from the apartheid regime in South Africa to recent changes in higher education The book will be a valuable tool for scholars and researchers in a variety of related fields of study in the social sciences especially the disciplines of political science and political theory international relations social theory cultural studies anthropology and philosophy Remaking Indigeneity in the Amazon Esteban Rozo,2023-09-28 Drawing on archival and ethnographic work this book analyzes how indigeneity Christianity and state making became intertwined in the Colombian Amazon throughout the 20th century At the end of the 19th century the state gave Catholic missionaries tutelage over Indigenous groups and their territories but in the case of the Colombian Amazon this tutelage was challenged by evangelical missionaries that arrived in the region in the 1940s with different ideas of civilization and social change Indigenous conversion to evangelical Christianity caused frictions with other actors while Indigenous groups perceived conversion as way of leverage with settlers This book shows how evangelical Christianity shaped new forms of indigeneity that did not coincide entirely with the ideas of civilization or development that Catholic missionaries and the state promoted in the region Since the 1960s the state adapted development policies and programs to Indigenous realities and practices while Indigenous societies appropriated evangelical Christianity in order to navigate the changes brought on by colonization modernity and state formation This study demonstrates that not all projects of civilization were the same in Amazonia nor was missionization of Indigenous groups always subordinate to the state or resource extraction **Beyond Patriotic Phobias** Joshua Savala,2022-06-21 The War of the Pacific 1879 1883 looms large in the history of Peru and Chile Upending the prevailing historiographical focus on the history of conflict **Beyond Patriotic Phobias** explores points of connection shared between Peruvians and Chileans despite war Through careful archival work historian Joshua Savala highlights the overlooked cooperative relationships of workers across borders including maritime port workers doctors and the police These groups in both countries were intimately tied together through different forms of labor they worked the ships and ports studied and treated disease transmission in the face of a cholera outbreak and conducted surveillance over port and maritime activities because of perceived threats like transnational crime and labor organizing By following the movement of people diseases and ideas Savala reconstructs the circulation that created a South American Pacific world The resulting story is one in which communities classes and states formed transnationally through varied if uneven forms of cooperation **Social Theory, The State And Modern Society** Marinetto, Michael,2007-09-01 In recent years there has been a proliferation of approaches which have redefined our understanding of political power and the state

These contemporary state theories have philosophical and theoretical antecedents that can be traced to post classical social and political thought their influences can be traced to feminism structuralism and poststructuralism cultural theory network analysis and globalisation theory The classical theories of Marx Weber and Durkheim are altogether less important in contemporary state theory In *Social Theory the State and Modern Society* Mike Marinetto considers the philosophical and theoretical heritage of modern state theory and then critiques the theories that have evolved from this legacy Topics covered include The poststructural state Governance and the decentred state The gendered state The cultural turn in state theory The state in a global context The past present and future of state theory *Social Theory the State and Modern Society* is key reading for students of Sociology Politics and Public Policy It is also of interest to researchers and academics with an interest in state theory

Culture, Political Economy and Civilisation in a Multipolar World Order Ray Silvius, 2016-10-04 This book seeks to understand how Russia's multifaceted rejection of American unipolarity and de territorialised neo liberal capitalism has contributed to the gestation of the present multipolar moment in the global political economy Analysing Western world order precepts via the actions of a powerful albeit precarious national political economy and state structure situated on the periphery of Western world order Silvius explores the manner in which culture and ideas are mobilised for the purposes of national regional and international political and economic projects in a post global age The book Explains and analyses the tensions of post Soviet Russia's integration into and simultaneous partial rejection of the capitalist global political economy Provides an overview of the social political and historical origins of Russian samobytnost uniqueness after the fall of the Soviet Union and demonstrates their significance to contemporary understandings of world order Explores how structures of cultural difference and practices of cultural differentiation interact with the normative legacies of American hegemonic aspirations in contemporary world order structures Evaluates how cultural and civilisational representations are mobilised for state projects and their corresponding regional and international dimensions within the global political economy This book will be of great interest to students and scholars of Russian Foreign Policy IPE and comparative political economy

Staging the Promises Deana Jovanović, 2025-01-15 *Staging the Promises* reveals how inhabitants of Bor a Serbian copper processing and mining town that lived through prosperous Yugoslav times and a post socialist decline were the audience theatrically performed promises of aspirational futures Deana Jovanovi chronicles the efforts of the copper processing company and the town's authorities to theatrically perform promises of better economic urban environmental infrastructural and post industrial futures Her book asks What impact did the staging of promises have on the residents What temporal material and political effects did these performances generate How did they shape the citizens futures and their present Jovanovi offers many ethnographic examples of ambivalence in people's orientation to their futures while residents balanced hope with despair disillusionment and dismay *Staging the Promises* highlights how the performances shaped the present and how in a Gramscian twist they sustained hope alongside power dynamics that residents often criticized *Staging the Promises*

assesses the performative ways through which contemporary capitalist futures are remade For Jovanovi Bor represents a site that reflects a current global trend staging the promises of enhanced futures today play a significant role in contemporary populist politics Through them she argues distant futures become gradually withdrawn from people s horizons **The Globalization of Security** B. Mabee,2009-05-21 The Globalization of Security is an important rethinking of the connections between globalization and security focusing on a conceptual examination of the role of the state combined with key case studies The book provides a novel historical sociological approach advancing both the understanding of security and the theory of state power Political Evil in a Global Age Patrick Hayden,2009-01-13 Hannah Arendt is widely regarded as one of the twentieth century s most powerful political theorists The purpose of this book is to make an innovative contribution to the newly emerging literature connecting Arendt to international political theory and debates surrounding globalization In recent years the work of Arendt has gathered increasing interest from scholars in the field of international political theory because of its potential relevance for understanding international affairs Focusing on the central theme of evil in Arendt s work this book weaves together elements of Arendt s theory in order to engage with four major problems connected with contemporary globalization genocide and crimes against humanity global poverty and radical economic inequality global refugees displaced persons and the stateless and the destructive domination of the public realm by predatory neoliberal economic globalization Hayden shows that a key constellation of her concepts the right to have rights superfluosness thoughtlessness plurality freedom and power can help us to understand and address some of the central problems involving political evil in our global age In doing so this book takes Arendtian scholarship and international political theory into provocative new directions Political Evil in a Global Age will be of interest to students researchers and scholars of politics philosophy sociology and cultural studies **Power and Resistance** Wayne Antony,2020-05-06T00:00:00Z How do we make sense of the social problems that continue to plague Canadian society Our understanding of issues such as poverty racism violence homophobia crime and pollution stems from our view of how society is structured From the dominant neoliberal perspective social problems arise from individuals making poor choices From a critical perspective however these social troubles are caused by structural social inequalities Disparities in economic social and political power that is relations of power based on class race gender and sexual orientation are the central structural element of capitalist patriarchal colonialist societies The contributors to *Power and Resistance* use this critical perspective to explore Canadian social issues such as poverty colonialism homophobia violence against women climate change and so on This sixth edition adds chapters on the corporatization of higher education the lethal impacts of colonialism democracy the social determinants of health drug policy and sexual violence on campus
