Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production      *Women in Families* Monica McGoldrick, Carol M. **Gender, Family and Economy** Rae Lesser Blumberg,1990-11-01 The triple overlap refers to the link between gender stratification the household and economic variables In this volume leading sociologists examine this overlap as a totality providing theoretical concepts and new research on how the triple overlap works both inside the family and within the broader context of society Their competing conceptions of the interrelationship of gender family and economy are bolstered by empirical papers which raise questions of culture class and race within the contexts of both the developed and developing worlds Six of the articles in this volume were previously published as a Special Issue of Journal of Family Issues *Women, Islam and Everyday Life* Nina Nurmila,2009-06-10 This book examines Islam and women s everyday life focusing in particular on the highly controversial issue of polygamy It discusses the competing Islamic interpretations of polygamy and based on detailed fieldwork conducted in Indonesia women s actual experiences and perceptions of the practice and the impact of public policy Queer Family Values Valerie Lehr,1999 American culture is at war over family values And with the issue of gay and lesbian marriage often at the center of this discourse notable thinkers like Andrew Sullivan William Eskridge Urvashi Vaid and Torie Osborn have engaged in the battle But why Valerie Lehr asks debate over the right of gays to take part in a socially defined institution designed to perpetuate inequalities among people Strong Mothers, Weak Wives Miriam M. Johnson,1988 For years I have been impressed by the originality and insight of Johnson s articles on gender sexuality and male dominance This book continues and expands the excellent quality of the earlier work It provides an original argument about the central structural locus of gender inequality and makes a major advance in its insightful and insistent focus on the role of the father in gender differentiation and sexual dominance It will surely be recognized as a major work of feminist theory Nancy Chodorow author of *The Reproduction of Mothering* This thoughtful and provocative book greatly deepens the debate over the effects of mothers and fathers on their children Arlie Hochschild author of *The Second Shift* Inside the Two Job Marriage *Family Diversity* Pauline Irit Erera,2001-09-11 This nonjudgmental inclusive and far reaching text focuses on the diverse patterns of family structure prevalent in our society today Family Diversity presents empirical research on the internal dynamics social environments support factors prevalence of discrimination and common stereotypes that account for the issues surrounding current family relations By examining the history and nature of foster and adoptive single parent lesbian gay step and grandparent family units Pauline Irit Erera is able to challenge both the idealized family prototype and the hegemony of the traditional structure **Critical Concepts in Queer Studies and Education** Nelson M. Rodriguez,Wayne J. Martino,Jennifer C. Ingrey,Edward Brockenbrough,2016-08-30 This book advances a broad constellation

of critical concepts situated within the field of queer studies and education Collectively the concepts take up a cross section of scholarship that speaks to various political epistemological theoretical methodological and pedagogical concerns Given the ongoing global centrality of sociocultural and political developments related to the topic of LGBTQ in the twenty first century the concepts in this volume and the issues raised by each contributor will have wide international appeal among researchers scholars educators students and activists working at the intersection of queer studies and education

**The Family of Woman** Maureen Sullivan, 2004-09-06 Drawing upon interviews with gay families Sullivan contends that gay families have more equitable social relations and move forward in equalizing gender roles

*The Psychosocial Interior of the Family* Gerald Handel, Gail G. Whitchurch, 1994 This long awaited fourth edition has the same goal as the preceding editions to understand families in terms of the kinds of interaction through which family life is constructed The changes in the family as an institution have influenced these processes just as they have influenced the ways we understand and write about them But even in these postmodern circumstances an underlying premise of the volume is that two partners establish a family because they have selected each other as distinctively meaningful to one another They will affirm modify elaborate or retreat from various aspects of the relationship through interaction over time and in changing circumstances This volume contains the best available interdisciplinary work on the social psychology of the family More than half of the selections are new to this edition which incorporates a variety of theoretical and research perspectives that provide the reader with a range of authoritative and up to date sources on the family and interpersonal relations The newer forms of family organization that have emerged in the more recent literature specifically single parent families stepfamilies and families of gay and lesbian domestic partners are included Authors have been drawn from a variety of disciplines including sociology communication family studies human development psychology anthropology and social work

**Making a Difference** Rachel T. Hare-Mustin, Jeanne Marecek, 1990-01-01 Drawing on postmodernist scepticism about what we know and how we know it and on recent developments in the philosophy of science and feminist theory this book offers a new perspective on the meaning of gender one that is not determined by the traditional focus on male female differences
