**Matthew, Disability, and Stress** Jillian D. Nelson, 2022-10-25 In *Matthew Disability and Stress Examining Impaired Characters in the Context of Empire* Jillian D Engelhardt examines four Matthean healing narratives focusing on the impaired characters in the scenes Her reading is informed by both empire studies and social stress theory a method that explores how the stress inherent in social location can affect psychosomatic health By examining the Roman imperial context in which common folk lived and worked she argues that attention to social and somatic circumstances which may have accompanied or caused the described disabilities impairments destabilizes readings of these stories that suggest the encounter with Jesus was straightforwardly good and the healing was permanent Instead Engelhardt proposes various new contexts for and offers more nuanced characterizations of the disabled impaired people in each discussed scene resulting in ambiguous interpretations that de center Jesus and challenge able bodied assumptions about embodiment disability and healing
