Working-Class History Dipesh Chakrabarty, 2018-06-05 Dipesh Chakrabarty combines a history of the jute mill workers of Calcutta with a fresh look at labor history in Marxist scholarship Opposing a reductionist view of culture and consciousness he examines the milieu of the jute mill workers and the way it influenced their capacity for class solidarity and revolutionary action from 1890 to 1940 Around and within this empirical core is built his critique of emancipatory narratives and their relationship to such Marxian categories as capital proletariat or class consciousness The book contributes to currently developing theories that connect Marxist historiography post structuralist thinking and the traditions of hermeneutic analysis Although Chakrabarty deploys Marxian arguments to explain the political practices of the workers he describes he replaces universalizing Marxist explanations with a sensitive documentary method that stays close to the experience of workers and their European bosses He finds in their relationship many elements of the landlord tenant relationship from the rural past the jute mill workers of the period were preindividualist in consciousness and thus incapable of participating consistently in modern forms of politics and political organization **Rethinking Working-Class History** Dipesh Chakrabarty, **The**

Postcolonial Theory and the Specter of Capital Vivek Chibber, 2013-03-12 Postcolonial theory has become enormously influential as a framework for understanding the Global South It is also a school of thought popular because of its rejection of the supposedly universalizing categories of the Enlightenment In this devastating critique mounted on behalf of the radical Enlightenment tradition Vivek Chibber offers the most comprehensive response yet to postcolonial theory Focusing on the hugely popular Subaltern Studies project Chibber shows that its foundational arguments are based on a series of analytical and historical misapprehensions He demonstrates that it is possible to affirm a universalizing theory without succumbing to Eurocentrism or reductionism Postcolonial Theory and the Specter of Capital promises to be a historical milestone in contemporary social theory

The Middling Sorts Burton J. Bledstein, Robert D. Johnston, 2013-10-31 According to their national myth all Americans are middle class but rarely has such a widely used term

been so poorly defined These fascinating essays provide much needed context to the subject of class in America Labour, Nature and Capitalism Silpa Satheesh, 2025-04-03 Labour Nature and Capitalism traces how the alliance between labour and capital manifests in the form of conflicts between organised trade unions and a local environmental movement in the context of the much acclaimed Kerala model of development It explores the history of the area s local industrialisation the presence of varied economic interests and exposes the barriers to forming solidarity networks among the working classes Situated in the backdrop of the Eloor Edayar industrial belt this book delves deeper into the ways in which capitalism infiltrates and manipulates the social movement landscape in Kerala It shows how the hegemonic coalition between the state industries and institutionalised trade unions enable capitalist rationality to mediate and control social movements in postcolonial settings Using an ethnographic approach the book seeks to embark on a journey to understand the tensions between two progressive social movements a trade union collective and a local environmental movement foregrounding the experiences of members of the respective groups The analysis presented here shows how the contestations conflicts between the movements stem from interpretive as well as ideological differences surrounding economic development and environmental justice Praise for Labour Nature and Capitalism Labour Nature and Capitalism is a carefully researched as well as theoretically astute book on a subject of vital importance to India and the world Based on fieldwork in Kerala Dr Silpa Satheesh studies the tensions between grassroots environmental groups and trade unions analysing how factory labour finds itself in opposition to other even more vulnerable sections of the working class Importantly she explores both the organizational as well as affective aspects of struggle allowing activists to speak loud and clear in their own voices Through her work Dr Satheesh convincingly demonstrates that the conventional polarity of environment versus development is false and even pernicious Ramachandra Guha author of Speaking with Nature The Origins of Indian Environmentalism This work is an important contribution to an understudied and weakly understood arena the relationship between trade unions and environmental movements While anecdotal accounts of the tensions and sometimes complementarities between the two movements are common detailed and systematic studies are not Given the urgent need to bring these movements together to challenge capitalist exploitation and unsustainability this study is very timely Ashish Kothari environmental activist and author There are many environmental grassroots movements in the state of Kerala This fascinating book focuses on the Periyar River gravely and persistently polluted by discharges of company water Competent activists have denounced the environmental and public health damages for many years counting on support from farmers and fishers However another section of the working class smaller in number but more powerful politically the industrial trade unions together with factory owners and the state administration accuses them of being at the service of anti national interests By poignant long outspoken interviews with members of both opposite groups and thorough documentation the sociologist Silpa Satheesh brilliantly answers a question of world relevance is there an environmentalism of the working class Joan Martinez Alier Autonomous University of Barcelona Silpa Satheesh s

book is a very welcome addition to environmental labour studies for many reasons It adds a case from the Global South to the growing literature on labour and the environment it examines the dynamics between labour and environment through an ethnographic approach that provides nuance and empathy and demonstrates that labour is not homogeneous as workers are central to both the labour and environmental side of her story In that sense it alerts us to the fact that workers people who need to work to reproduce themselves are not just one category amongst others but the largest category short of human beings and citizens of one country or another From such a starting point the tensions between labour and environmental priorities are not solely conflicts between categories of people but also within the very broad category of labour As a result of the above Dr Satheesh s well written book broadens and enriches environmental labour studies and should be read widely and productively Dr Dimitris Stevis Colorado State University USA Strong alliances between the labour and the environmental movement are an essential precondition for combatting the climate crisis At the same time they are far from being easy to build Labour Nature and Capitalism brilliantly demonstrates why this is the case Based on deep empirical insights and sound theoretical reflections it illuminates labour environment relationships and explores how they can be turned into a force of socio ecological transformation Markus Wissen Berlin School of Economics and Law

History and Identity Stefan Berger,2022-01-20 This introduction to contemporary historical theory and practice shows how issues of identity have shaped how we write history Stefan Berger charts how a new self reflexivity about what is involved in the process of writing history entered the historical profession and the part that historians have played in debates about the past and its meaningfulness for the present He introduces key trends in the theory of history such as postmodernism poststructuralism constructivism narrativism and the linguistic turn and reveals in turn the ways in which they have transformed how historians have written history over the last four decades The book ranges widely from more traditional forms of history writing such as political social economic labour and cultural history to the emergence of more recent fields including gender history historical anthropology the history of memory visual history the history of material culture and comparative transnational and global history

Churchill and Industrial Britain Jim Tomlinson,2024-11-14 This book offers a new understanding of the main economic and political trends of 20th century Britain through the lens of Churchill s early career and approach to industrialisation Shedding fresh light on Churchill s political endeavours between 1900 and 1922 this study analyses his work within his political constituencies and highlights how he attempted to balance their local concerns with his larger imperial agenda Tomlinson guides readers through Britain s industrial challenges at the start of the twentieth century with a particular focus on the textile economies of Churchill s constituencies in Lancashire and Scotland and shows how industrial competition within the Empire exemplified the tensions between domestic economic policy and attempts at globalization and influenced Churchill s later politics Tomlinson acknowledges the role of the First World War in boosting the industrial output and bargaining power of countries within the

Empire and analyses these alongside key moments in Churchill's early career such as his defeat at Dundee and time at the Exchequer. In doing so the author highlights the context in which Churchill's ideas on the politics and economics of Empire were first formed particularly in relation to the impact of imperial economic policy on British domestic prosperity. Ultimately this book delivers a new assessment of twentieth century British economic history in the light of Britain's relationship to the Empire and the first great globalization.

Women in India Sita Anantha Raman, 2009-06-08 Are Indian women powerful mother goddesses or domestic handmaidens trailing behind men in literacy, wages, opportunities and rights? Have they been agents of their own destinies or voiceless victims of patriarchy? Behind these colorful oversimplifications lies the reality of many feminine personas belonging to various classes, ethnicities, religions and castes. This two volume set looks at Indian history from ancient to modern times, revealing precisely why ideas of gender rights were not static across eras or regions. Raman's work is a reflection on the various ways in which women in a non-Western culture have developed and expressed their own feminist agenda. Are Indian women powerful mother goddesses or domestic handmaidens trailing behind men in literacy, wages, opportunities and rights? Behind these colorful oversimplifications lies the reality of many feminine personas belonging to various classes, ethnicities, religions and castes. This two volume set looks at Indian history from ancient to modern times, revealing precisely why ideas of gender rights were not static across eras or regions. Raman's work is a reflection on the various ways in which women in a non-western culture have developed and expressed their own feminist agenda. Individual chapters highlight the enduring legacies of many important male and female figures illustrating how each played a key role in modifying the substance of women's lives. Political movements are examined as well such as the nationalist reform movement of 1947 in which the ideal of Indian womanhood became central to the nation and the push for independence. Also included is a survey of women in contemporary India and the role they played in the resurgence of militant Hindu nationalism. Aside from being an engaging and readable narrative of Indian history, this set integrates women's issues, roles and achievements into the general study of the times, providing a clear presentation of the social, cultural, religious, political and economic realities that have helped shape the identity of Indian women.
