# RETHINKING BRITISH DECLINE

*Edited by Richard English and Michael Kenny*

# Rethinking British Decline Hc

**Daniel Maudlin,Alex Bremner**

## **Rethinking British Decline Hc:**

**Rethinking British Decline** Richard English, Michael Kenny, 2000 Protagonists in the heated debate about British decline here set out their current views and respond to critics The second half of the book builds on these chapters by systematically examining key themes and issues

**Great Power Politics in Greater Eurasia** Rahman Dag, Özgür Tüfekçi, 2022-12-27 Great power politics is a practical reality of world politics and it happens on a daily basis regardless of which international system we witness This book seeks to emphasize the ways these great power politics emerge within greater Eurasia Most researchers consider China becoming powerful enough to counterbalance the US and possible power dynamics among the rising powers such as China India China Russia and China Japan In this sense the book categorizes the battlegrounds in their power politics with three aspects national regional international conflicts institutions alliances and projects

**Rethinking Public Strategy** Sean Lusk, Nick Birks, 2014-07-23 Strategy is vital to effective and efficient public service delivery as well as successful governance and leadership This new text provides a concise yet systematic overview of the achievements downfalls and complexities of public strategy in today's globalized and often market driven world It describes the place of strategy in civic societies whose citizens are more interconnected and vocal than ever It shows that successful strategic planning goes well beyond problem solving to developing adaptable plans that can evolve as requirements and circumstances change And it explains why muddling through simply won't work Emphasizing the importance of applying a variety of techniques to the process of strategy creation Rethinking Public Strategy reassesses the key factors that can deliver significant improvements in public services and build public value It looks at why public strategy is distinctive as well as the principles it has in common with the corporate domain This text includes numerous case studies from around the globe from South Africa to Singapore the USA to Germany and from China to the Czech Republic that ground the exposition in real experience Based on state of the art research by two expert practitioners in the field it offers an essential guide to the art of strategy in the contemporary public sector and encourages readers to evaluate critically the various approaches to strategy

**Institutions, Discourse, and Regional Development** Henrik Halkier, 2006 Why are some regional development strategies adopted and others rejected Only limited systematic attention has been paid to the politics of regional policy including the role of institutions discourse and political debate in shaping this major area of public policy The book develops an institutionalist approach to the study of regional policy capable of spanning major European development paradigms and accounting for the dynamic relationship between organisations policies and political discourse This conceptual framework is then applied to the Scottish Development Agency a development body famed across Europe for its innovative policies but surrounded by political controversy in Scotland A detailed study of corporate strategies policy implementation and the wider British environment questions existing interpretations of the organisation which tend to vilify anti interventionist Thatcherites or glorify shrewd development professionals Instead the author proposes an alternative

synthesis which highlights the interplay between institutions discourse and regional development in the politics of regional policy     Redefining the Bonds of Commonwealth, 1939-1948 F. McKenzie, 2002-06-06 This work is a path breaking study of the changing attitudes of Canada Australia New Zealand and South Africa to Britain and the Commonwealth in the 1940s and the effect of those changes on their individual and collective standing in international affairs The focus is imperial preference the largest discriminatory tariff system in the world and a potent symbol of Commonwealth unity It is based on archival research in Britain Canada Australia New Zealand and the United States     **Rethinking Ethnicity** Eric P. Kaufmann, 2004-08-02 The impact of liberal globalization and multiculturalism means that nations are under pressure to transform their national identities from an ethnic to a civic mode This has led in many cases to dominant ethnic decline but also to its peripheral revival in the form of far right politics At the same time the growth of mass democracy and the decline of post colonial and Cold War state unity in the developing world has opened the floodgates for assertions of ethnic dominance This book investigates both tendencies and argues forcefully for the importance of dominant ethnicity in the contemporary world     **Rethinking Environmental History** Joan Martinez-Alier, Alf Hornborg, J. R. McNeill, 2007-01-18 This exciting new reader in environmental history provides a framework for understanding the relations between ecosystems and world systems over time Alf Hornborg J R McNeill and Joan Martinez Alier have brought together a group of the prominent social scientists historians and geographical scientists to provide a historical overview of the ecological dimension of global economic processes Readers are challenged to integrate studies of the Earth system with studies of the world system and to reconceptualize the relations between human beings and their environment as well as the challenges of global sustainability     Britishness Almuth Ebke, 2019-08-19 In den 1990er und 2000er Jahren diskutierten britische Politiker Akademiker und Journalisten fffentlich ber die Definition britischer nationaler Identit t kurz Britishness Aus der Perspektive der neuen Ideengeschichte versteht diese Studie die Debatte als Teil eines seit den sp ten 1960er Jahren andauernden Aushandlungsprozesses Fragen nationaler und gesellschaftlicher Zugeh rigkeit wurden zur Chiffre im Umgang mit wirtschaftlichen politischen und demographischen Ver nderungen wie dem Ende des Empire den Forderungen nach schottischer und walischer Selbstbestimmung sowie der Sorge um die Konsequenzen postkolonialer Einwanderung die die bis dahin bestehende Sozialordnung in Frage stellten Almuth Ebke ordnet dabei nicht nur die einzelnen Debattenstr nge in den historischen Kontext ein sondern untersucht auch den damit zusammenh ngenden Wandel der Begriffe die zur Beschreibung sozialer Zugeh rigkeit verwendet wurden Aus dieser Perspektive gelingt es nicht nur bis heute verwendete Analysekatgeorien wie nationale Identit t historisch zu verorten Aktuelle Debatten wie um den Brexit werden dar ber hinaus als gegenw rtige Auspr gungen einer schon viel l nger ablaufenden Selbstverst ndigungsdebatte in Gro britannien sichtbar     Business Periodicals Index , 2000     Understanding European Trade Unionism Richard Hyman, 2001-05-09 As one would expect this is a well crafted literate and absorbing account of European trade union development Established scholars and

advanced students will enjoy the discussion of theory and cases The Journal of Industrial Relations A detailed and fascinating history of trade unions in the three countries Britain Germany Italy considers how the unions could recover from the intense disarray of recent years Labour Research Everyone concerned over the construction of a truly social Europe will learn much from this thoughtful and probing study Professor Colin Crouch Istituto Universitario Europeo In this comprehensive overview of trade unionism in Europe and beyond Richard Hyman offers a fresh perspective on trade union identity ideology and strategy He shows how the varied forms and impact of different national movements reflect historical choices on whether to emphasize a role as market bargainers mobilizers of class opposition or partners in social integration The book demonstrates how these inherited traditions can serve as both resources and constraints in responding to the challenges which confront trade unions in today's working world

**Britain and the Bomb** David James Gill, 2014-01-08 Drawing on primary sources from both sides of the Atlantic Britain and the Bomb explores how economic political and strategic considerations have shaped British nuclear diplomacy The book concentrates on Prime Minister Harold Wilson's first two terms of office 1964-1970 which represent a critical period in international nuclear history Wilson's commitment to the Non Proliferation Treaty and his support for continued investment in the British nuclear weapons program despite serious economic and political challenges established precedents that still influence policymakers today The continued independence of Britain's nuclear force and the enduring absence of a German or European deterrent certainly owes a debt to Wilson's handling of nuclear diplomacy more than four decades ago Beyond highlighting the importance of this period the book explains how and why British nuclear diplomacy evolved during Wilson's leadership Cabinet discussions financial crises and international tensions encouraged a degree of flexibility in the pursuit of strategic independence and the creation of a non proliferation treaty Gill shows us that British nuclear diplomacy was a series of compromises an intricate blend of political economic and strategic considerations

**Inner empire** Daniel Maudlin, Alex Bremner, 2024-08-06 Inner Empire explores the impact of imperial cultures on the landscapes and urban environments of the British Isles from the sixteenth century through to the twentieth century It asserts that Britain's four hundred year entanglement with global empire left its mark upon the British Isles as much as it did the wider world Buildings stood as one of the most conspicuous manifestations of the myriad relationships that Britain maintained with the theory and practice of colonialism in its modern history Divided into two main sections the volume's content considers internal colonisation and its infrastructures of control order and suppression alongside wider relationships between architecture the imperial economy and cultural identity Taken together the essays in this volume present for the first time a coherent analysis of the British Isles as an imperial setting understood through its buildings spaces and infrastructure

*Ancient Rome and Victorian Masculinity* Laura Eastlake, 2018-11-22 Ancient Rome and Victorian Masculinity examines Victorian receptions of ancient Rome with a specific focus on how those receptions were deployed to create useable models of masculinity Romans in Victorian literature are at once pagan persecutors pious

statesmen pleasure seeking decadents and heroes of empire and these manifold and often contradictory representations are used as vehicles equally to capture the martial virtue of Wellington and to condemn the deviance and degeneracy of Oscar Wilde In the works of Thomas Macaulay Wilkie Collins Anthony Trollope H Rider Haggard and Rudyard Kipling among others Rome emerges as a contested space with an array of possible scripts and signifiers which can be used to frame masculine ideals or to vilify perceived deviance from those ideals though with a value and significance often very different to ancient Greek models Sitting at the intersection of reception studies gender studies and interdisciplinary literary and cultural studies across discourses ranging from education and politics this volume offers the first comprehensive examination of the importance of ancient Rome as a cultural touchstone for nineteenth century manliness and Victorian codifications of masculinity

**We're Here Because You Were There** Ian Patel, 2021-04-13 What are the origins of the hostile environment for immigrants in Britain Drawing on new archival material from the Foreign and Commonwealth Office Ian Sanjay Patel retells Britain's recent history in an often shocking account of state racism that still resonates today In a series of post war immigration laws Britain's colonial and Commonwealth citizens from the Caribbean Asia and Africa were renamed immigrants In the late 1960s British officials drew upon an imperial vision of the world to contain what it saw as a vast immigration crisis involving British citizens passing legislation to block their entry As a result British citizenship itself was redefined along racial lines fatally compromising the Commonwealth and exposing the limits of Britain's influence in world politics Combining voices of so called immigrants trying to make a home in Britain and the politicians diplomats and commentators who were rethinking the nation Ian Sanjay Patel excavates the reasons why Britain failed to create a post imperial national identity The reactions of the British state to post war immigration reflected the shift in world politics from empires to decolonization Despite a new international recognition of racial equality Britain's colonial and Commonwealth citizens were subject to a new regime of immigration control based on race From the Windrush generation who came to Britain from the Caribbean to the South Asians who were forced to migrate from East Africa Britain was caught between attempting both to restrict the rights of its non white colonial and Commonwealth citizens and redefine its imperial role in the world Despite Britain's desire to join Europe which eventually occurred in 1973 its post imperial moment never arrived subject to endless deferral and reinvention

Crime, Violence, and the Irish in the Nineteenth Century Kyle Hughes (Lecturer in British history), Donald M. MacRaild, 2017 This important volume based on original research innovative methodological perspectives and advanced historical scholarship draws together some of Ireland's leading historians as well emerging talents to examine a range of topics such as Irish secret societies agrarian disorder security and the law sectarian violence under the banner of crime and violence in 19th century Ireland

Community Unionism J. McBride, I. Greenwood, 2009-05-14 This book examines the concept of community unionism which argues that the future of the labour movement and industrial relations lies with the community and local labour markets Providing a conceptual overview of the

term the book uses international case studies and draws on faith based organizations to explore the issue

**Multiculturalism and Ethnic Minorities in Europe** Frank Ronge,2001      **Churchill, Chamberlain and Appeasement** G. C. Peden,2022-12 The first study to compare Churchill and Chamberlain systematically in relation to appeasement and defence policy in the 1930s      *D-Day in History and Memory* Michael Dolski,Sam Edwards,John Buckley,2014-03-15 Over the past sixty five years the Allied invasion of Northwestern France in June 1944 known as D Day has come to stand as something more than a major battle The assault itself formed a vital component of Allied victory in the Second World War D Day developed into a sign and symbol as a word it carries with it a series of ideas and associations that have come to symbolize different things to different people and nations As such the commemorative activities linked to the battle offer a window for viewing the various belligerents in their postwar years This book examines the commonalities and differences in national collective memories of D Day Chapters cover the main forces on the day of battle including the United States Great Britain Canada France and Germany In addition a chapter on Russian memory of the invasion explores other views of the battle The overall thrust of the book shows that memories of the past vary over time link to present day needs and also still have a clear national and cultural specificity These memories arise in a multitude of locations such as film books monuments anniversary celebrations and news media representations      **Understanding the Life Course** Lorraine Green,2016-12-20 Understanding the Life Course provides a uniquely comprehensive guide to the entire life course from an interdisciplinary perspective Combining important insights from sociology and psychology the book presents the concepts theoretical underpinnings in an accessible style supported by real life examples From birth and becoming a parent to death and grieving for the loss of others Lorraine Green explores all stages of the life course through key research studies and theories in conjunction with issues of social inequality and critical examination of lay viewpoints She highlights the many ways the life course can be interpreted including themes of linearity and multidirectionality continuity and discontinuity and the interplay between nature and nurture The second edition updates key data and includes additional material on topics such as new technologies changing markers of transitions to adulthood active ageing resilience and neuropsychology This comprehensive approach will continue to be essential reading for students on vocational programmes such as social work and nursing and will provide thought provoking insight into the wider contexts of the life course for students of psychology and sociology
