Rethinking Goodness:

Rethinking Goodness Michael A. Wallach, Lise Wallach, 1990-07-05 Arguing that a psychological basis for ethics can be found in human motivation Rethinking Goodness proposes a naturalistic ethics that transcends the conflict between liberalism and authoritarianism the conflict between freedom at the price of narcissism and morality at the price of coercion The authors offer a third option an ethic broader than liberalism s pursuit of the personal that avoids jeopardizing as do authoritarian positions the centrality of individual autonomy

Taking Your Soul to Work R. Paul Stevens, Alvin Ung, 2010-11-09 R Paul Stevens and Alvin Ung tap into the wisdom of the Bible and the Christian spiritual tradition to redefine the workplace as an arena for personal spiritual growth Together they discuss real life dilemmas and give practical guidance on turning professional work into the catalyst for a richer more balanced spiritual life from publisher description

Reasons and the Good Roger Crisp, 2006-08-24 This work offers answers to some of the questions in moral philosophy including What reasons do we have for acting in one way or another Are there moral reasons What are reasons anyway How can we know about them What makes for a good human life How should we weigh the well being of others against our own

Humane Music Education for the Common Good Iris M. Yob, Estelle R. Jorgensen, 2020-03-17 Why teach music Who deserves a music education Can making and learning about music serve the common good A collection of essays considers the answers In *Humane Music Education for the Common Good* scholars and educators from around the world offer unique responses to the recent UNESCO report titled *Rethinking Education Toward the Common Good* This report suggests how through purpose policy and pedagogy education can and must respond to the challenges of our day in ways that respect and nurture all members of the human family The contributors use this report as a framework to explore the implications and complexities that it raises The book begins with analytical reflections on the report and then explores pedagogical case studies and practical models of music education that address social justice inclusion individual nurturance and active involvement in the greater public welfare The collection concludes by looking to the future asking what more should be considered and exploring how these ideals can be even more fully realized This volume boldly expands the boundaries of the UNESCO report to reveal new ways to think about be invested in and use music education as a center for social change both today and going forward

Human Dignity in Contemporary Ethics David G. Kirchhoffer, 2013 *Human Dignity in Contemporary Ethics* develops a holistic and relevant understanding of human dignity for ethics today Whilst critics of the concept of human dignity call for its dismissal and many of its defenders rehearse the same old arguments this book offers an alternative set of methodological assumptions on which to base a revitalized and practical understanding of human dignity which at the same time overcomes the challenges that the concept currently faces The Component Dimensions of Human Dignity model enables human dignity to serve both as a descriptive category that explains moral choices and as a normative criterion that helps to evaluate moral behaviour A consideration of two cases violent crime and physician assisted suicide

demonstrates how the model offers a way to avoid the pitfalls of both moralism and moral relativism while still leaving space for relativity in ethics By using an approach that should be acceptable to both religious and secular perspectives alike this book offers a unique way out of the dignity talk that currently plagues ethics **Healing Souls** Eric G. Swedin,2022-08-15

In this first history of psychotherapy among the Latter day Saints Eric G Swedin describes how modern psychology has affected the healing of souls in the LDS community But he also shows how this community melded its theological doctrines with mainstream psychiatry when secular concepts clashed with fundamental tenets of Mormonism The psychological professions pervasive in twentieth century American society were viewed as dangerous by some religious communities Healing Souls describes the LDS community s mixed feelings about science and modernity while valuing knowledge Mormons feared a challenge to faith Nonetheless psychology courses were introduced at Brigham Young University and LDS psychotherapists began to introduce new ideas and practices to the community Swedin portrays the rise of professional organizations such as the Association of Mormon Counselors and Psychotherapists as well as the importance of Allen E Bergin first director of the BYU Institute for Studies in Values and Human Behavior Bergin and others paved the way for the LDS adoption of professional psychotherapy as an essential element of their cure of souls Important chapters take up LDS psychopathology feminist dissent LDS philosophies of sexuality and the LDS rejection of mainstream psychotherapy s selfist psychology on the basis of theological doctrines of family salvation eternalism and the natural man Healing Souls contributes to a more complete historical picture of the mental health professions in North America and a better understanding of how religious traditions and psychology have influenced each other **The Quality of Life** Richard Kraut,2018-08-22

The Quality of Life Aristotle Revised presents a philosophical theory about the constituents of human well being The principal idea is that what Aristotle calls external goods wealth reputation power have at most an indirect bearing on the quality of our lives Starting with Aristotle s thoughts about this topic Kraut increasingly modifies and occasionally rejects that stance He argues that the way in which we experience the world is what well being consists in A good internal life comprises in part pleasure but far more valuable is the quality of our emotional intellectual social and perceptual experiences These offer the potential for a richer and deeper quality of life than that which is available to many other animals A good human life is immeasurably better than that of a simple creature that feels only the pleasures of nourishment even if it felt pleasure for millions of years human life would be superior In opposition to contemporary discussions of well being which often appeal to a thought experiment devised by Robert Nozick Kraut concludes that the quality of our lives consists entirely in the quality of our experiences While others hold that we must live in the real world to live well and that one s interior life has little or no value on its own Kraut s interpretation of this thought experiment supports the opposite conclusion *The Middle Voice of Ecological Conscience* John Llewelyn,1991-10-13 *Reconstructing the Common Good in Education* Larry Cuban,Dorothy Shapps,2000 What constitutes the common good in American public education This volume explores the ongoing debate

between those who expect schools to cultivate citizens through personal moral and social development as well as to bind diverse groups into one nation and a new generation of school reformers intent on using schools to solve the nation's economic problems by equipping students with marketable skills **Rethinking College Education** George Allan, 1997 Not a method of turning your degree back in and having your loans forgiven but an argument that by becoming vocational schools measured by reduced cost and efficient production colleges and universities are neglecting their essential purpose The reason for college education says Allan is to provide an environment within which students can absorb the moral practices that determine how they can acquire and evaluate knowledge best conduct their lives and become responsible adults He maintains that such learning requires imagination dialogue conversation and cultured intercourse Annotation copyrighted by Book News Inc Portland OR **Plato's Philebus** Panagiotis Dimas, Russell E. Jones, Gabriel Richardson Lear, 2019 This is the inaugural volume of the Plato Dialogue Project it offers the first collective study of the Philebus a high point of philosophical ethics containing some of Plato's most sophisticated discussions of human happiness The contributors work through the text discussing pleasure knowledge philosophical method and the human good Consequentialism Christian Seidel, 2019 Consequentialism is a focal point of moral philosophy Recently new wave consequentialists have presented theories which proved extremely flexible and powerful in meeting influential objections The volume explores new directions within this project raises fundamental problems for it and gives a balanced assessment of its scope in commonsense moral practice *Willing the Good* Gabriele De Anna, 2013-01-16 Science increasingly deals with human behavior biology neuroscience genetics psychology evolutionary theory and ethology all bring new insights into our actions and uncover new facts about our agency However what is the philosophical significance of their findings The answer to this question varies according to one's background philosophical views On the one hand the dominant empiricist view contends that the sciences can in principle tell us everything there is to know about human *Evidence and Public Good in Educational Policy, Research and Practice* Mustafa Yunus Eryaman, Barbara Schneider, 2017-06-22 This volume draws together interdisciplinary approaches from political philosophy social work medicine and sociology to analyze the theoretical foundations and practical examples of evidence based and evidence informed education for the public good It presents a range of conceptions of the evidence based and evidence informed education and a justification for why the particular examples or issues chosen fit within that conception for the sake of public good It explores the current literature on evidence based and evidence informed educational policy research and practice and introduces a new term evidence free meaning actions of some policymakers who disregard or misuse evidence for their own agenda The demands about the quality and relevance of educational research to inform the policy and practice have been growing over the past decade in response to the Evidence Based Education movement However the literature is yet to tackle the question of the interrelationships between evidence research policy and practice in education for the public good in an international context This book fills that

gap Law and Philosophy in the Late Roman Republic René Brouwer, 2021-06-03 Explores one of the most creative interactions in history with a lasting influence on law and philosophy **Iris Murdoch and the Search for Human Goodness** Maria Antonaccio, William Schweiker, 1996-12 A HISTORY AND CRITIQUE OF THE WRITINGS OF IRIS MURDOCH Ethics and Existence Jeff McMahan, Tim Campbell, Timothy Campbell, James Goodrich, Ketan Ramakrishnan, 2022 Ethics and Existence is a collective exploration of a set of topics to do with persons and value that were pioneered by the late Derek Parfit A distinguished international team of contributors discuss ethical questions relating to population the value of life and the future American Book Publishing Record , 1990 Adult Education as Empowerment Pepka Boyadjieva, Petya Ilieva-Trichkova, 2021-03-19 Winner of the AAACE Cyril O Houle Award This book re imagines the essence and role of adult education at both the individual and societal levels It provides arguments for understanding adult education as a process of agency and empowerment which has not only instrumental but intrinsic and transformative roles to play This book brings together ideas from the capability approach with insights from recognition theory the embeddedness approach the political economic perspective for understanding public and private goods and the common goods perspective The analysis draws on data from large scale international studies alongside qualitative data and adopts a wide ranging European comparative perspective The book develops original instruments for measuring different dimensions of adult education as a common good and its realisation in different social contexts It is aimed at academics students practitioners and policy makers interested in adult and or higher education and the social justice perspective to human life Doing the Right Thing Aaron Hass, 2002-05-31 Psychologist Aaron Hass takes readers on a voyage of discovery in this thoughtful inspiring and insightful examination of people s moral identity in an ever changing world
