Rethinking Liberal Equality From A Utopian Point Of View:

Rethinking Liberal Equality Andrew Levine, 1998 For over 25 years academic political philosophy has been dominated by strains of liberal theory shaped decisively by John Rawls investigations of distributive justice and political legitimacy By intervening sympathetically yet critically in several ongoing debates initiated by Rawls work the author of this text suggests the possibility of a supra liberal egalitarian political philosophy which incorporates the insights of recent developments in liberal theory while reinvigorating the political vision of the historical Left *Rethinking Liberal Equality* Andrew Levine, 2019-04-15 For more than a quarter century academic political philosophy has been dominated by strains of liberal theory shaped decisively by John Rawls s seminal investigations of distributive justice and political legitimacy By intervening sympathetically but critically into several ongoing debates initiated by Rawls s work Andrew Levine suggests the possibility of a supra liberal egalitarian political philosophy that incorporates the insights of recent developments in liberal theory while reinvigorating the political vision of the historical Left Taking current discussions about justice equality and political neutrality as his points of departure Levine suggests the need to rethink mainstream liberal understandings of equality and related notions The rethinking he proposes lends support ultimately for a vision of ideal social and political arrangements of a kind intimated though only barely sketched in the work of Rousseau and Marx a vision that not long ago was widely endorsed but that nowadays is almost everywhere regarded as hopelessly utopian In marked opposition to the reigning consensus view Levine argues that after compelling liberal concerns are taken into consideration the vision of ideal social and political arrangements which motivated generations of progressive thinkers and political actors is anything but utopian and remains as timely today as it ever was This vision Levine insists is indispensable for curing contemporary liberalism of its tendency to acquiesce in a status quo that is ultimately at odds with democratic egalitarian and even liberal values **Rethinking equality** Chris Armstrong, 2013-07-19 Although formally equal relations between citizens are actually characterised by many and varied forms of inequality Do contemporary theories of equality provide an adequate response to the inequalities that afflict contemporary societies And what is the connection between theories of equality and the contemporary politics of citizenship Accessible and comprehensive Rethinking equality provides a clear critical and very up to date account of the most important contemporary egalitarian theories Unusually it also relates these theories to contemporary political practice assessing them in relation to the impact of neoliberalism on contemporary welfare states and the shift from social to active forms of citizenship As well as representing a significant intervention within academic debates on equality and citizenship this book represents essential reading for students of contemporary political theory *Liberalism Versus Conservatism* François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals

conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what to these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title an author

Contemporary Political Philosophy Will Kymlicka, 2002 This new edition of Will Kymlicka's best selling critical introduction to contemporary political theory has been fully revised to include many of the most significant developments in Anglo American political philosophy in the last 11 years particularly the new debates over issues of democratic citizenship and cultural pluralism The book now includes two new chapters on citizenship theory and multiculturalism in addition to updated chapters on utilitarianism liberal egalitarianism libertarianism socialism communitarianism and feminism The many thinkers discussed include G A Cohen Ronald Dworkin William Galdston Carol Gilligan R M Hare Chandran Kukathas Catherine Mackinnon David Miller Philippe Van Parijs Susan Okin Robert Nozick John Rawls John Roemer Michael Sandel Charles Taylor Michael Walzer and Iris Young Extended guides to further reading have been added at the end of each chapter listing the most important books and articles on each school of thought as well as relevant journals and websites Covering some of the most advanced contemporary thinking Will Kymlicka writes in an engaging accessible and non technical way to ensure the book is suitable for students approaching these difficult concepts for the first time This second edition promises to build on the original edition's success as a key text in the teaching of modern political theory **A**

Future For Marxism? Andrew Levine, 2003-01-20 Not long ago Marxist philosophy flourished Yet in recent years theorists have turned away from Marxism This book looks towards a revival in Marxist theory and shows how it offers a rich foundation for radical socialist thinking in the foreseeable future Andrew Levine examines two recent departures in Marxist thought Althusserian and analytical Marxism He assesses the shortcomings of each while emphasising their considerable merits The discussion is framed against an analysis of socialism's place in the political life of the past two centuries Levine assesses the apparent historical defeat of the Left generally since the consolidation of the Reagan Thatcher era and speculates on current signs of renewal He argues that both Althusserian and analytical Marxism represent important philosophical departures within the Marxist tradition as they force a rethinking of Marxism's scientific and political project For all their differences in style and substance these strains of Marxist thought share important thematic and sociological features and Levine concludes that both traditions provide a legacy upon which a revived Left can build *Equality* John Baker, K. Lynch, Sara Cantillon, Judy Walsh, 2016-05-23 How can egalitarian ideals be put into action This ground breaking book sets out a new interdisciplinary model for equality studies Integrating normative questions about the ideal of equality with empirical issues about the nature of inequality it applies a new framework to a wide range of contemporary inequalities Proposing far reaching changes in the economy politics law education and research practices it sets out innovative political
