Rethinking The Beloved Communi:

Church, Community and Power Roy Kearsley, 2016-05-23 In the era of post Christendom how can church as a sociological reality be switched on to the destructive dangers yet constructive possibilities of power flowing in and around its community Attuned to the current distrust of church power this book creatively works out responses that could turn painful censure into a re visioning of church power relations helped by neglected critical studies The approach exposes a complexity to power and filters that insight into a theology of church The book shows how lessons are available for a religious community from post modern philosopher Michel Foucault and from recent feminism The topic of power has universal importance in the study of religion though the response to analysis and critique in this book is drawn specifically from Christian sources Kearsley concludes with an exploration for a future renovated self critical authentic and growing community sensitive to power while remaining in line with classic Christianity *Encountering Cruelty: The Fracture of the*

Human Heart Michael R. Trice, 2011-04-21 Interest in recent years in reconciliation and conflict transformation has witnessed a great deal of attention to building a future through forgiveness and preventative measures in order to impede egregious wrongdoing This effort for a reconciled future is absent reflection on the nature of cruelty Cruelty has always been apparent in massive acts of wrongdoing and yet is repeatedly concealed in our assessment of the acts themselves This book is a theologically honest and deep structure exploration of cruelty in its personal communal and institutional encounters in human life Drawing on Nietzsche s challenge of cruelty to the western tradition the work offers a comprehensive study of how cruelty undermines care trust respect and justice all those elements of human reciprocity that mark our lives as interdependent beings The work concludes with a tightly written Epilogue on interpreting the theological meaning and accessibility of reconciliation today **The Routledge Companion to the Christian Church** Gerard Mannion, Lewis S.

Mudge, 2007-12-12 The nature and story of the Christian church is immensely important to theology students and scholars alike Written by an international team of distinguished scholars this comprehensive book introduces students to the fundamental historical systematic moral and ecclesiological aspects of the study of the church as well as serving as a resource for scholars engaging in ecclesiological debates on a wide variety of issues It divides into six parts the church in its historical context the different denominational traditions global perspectives methods and debates in ecclesiology key concepts and themes ecclesiology and other disciplines social sciences philosophy literature and film Authoritative accessible and easily navigable this book is indispensable for everyone interested in the nature and history of the Christian Church

An/Other Praxis Herry M. Mukdani, 2013-12-01 Today s ecclesial praxis has to add something to human capacity in order for the church to envision itself whole This book addresses multiple struggles as creative acts theologically for rethinking a possibly constructive ecclesial praxis that addresses God s new creation in its relation to God s people By examining it in broader paradigms Herry Mukdani proposes an Other praxis as a critical option for ecclesial freedom An

Other Praxis searches not only new impulses for theological practices but the extension of voices from the margins that have contributed both to fresh ideas and to new opportunities for life. It also demands ecclesial praxis to put all existing voices into account and responsibly re-discover the subaltern or subordinated others. Thus this praxis helps the subaltern communities of faith claim their own identities as border crossers in the midst of cultural and religious plurality. They will be active subjects of new theological productions from and for the church. They are able to prove theological creativity possible today that expands beyond its ecclesial limits. An Other Praxis will be of interest to readers not merely because they want to learn something beyond the existing forms of praxis. Rather it will always give them refreshing energies capable of making rich and sometimes risky responses to the ministry possible and real. It will also give them attitude and perspective to improve a culturally diverse conversation in theology and thus it adds diversity in ministry and leadership in today's church.

Walker also takes a look at the tensions and boundaries contained within each theme. [Democracy in the Christian Church](#), 2012-04-12. A survey of historical, theological, and philosophical arguments for a democratization of the Christian church.

Working with Excluded Populations in HIV Carmen Logie, 2021-07-05. This book, written decades into the HIV epidemic, reflects critically on the idea that the socially excluded populations often focused on in HIV research are in fact difficult to access and reach. The author broadly applies the concept of hard-to-reach to characterize populations that researchers find difficult to engage with. Social factors that produce marginalization and ultimately result in people choosing not to engage in research are not captured by the concept of hard-to-reach. Limited attention has focused on how researchers can address the social factors that result in decisions to not engage in research. Disrupting the ways in which people are conceptualized as hard-to-reach so as to refocus on transforming social systems and personal values, beliefs, and approaches is understudied. This book uses case examples based on HIV research with Indigenous youth, internally displaced women, LGBTQ communities in the Global North and Global South, and persons at the intersection of these identities to identify successful approaches to working with marginalized and often vulnerable communities and groups. The chapters signal the need for attention to five key social factors when developing successful approaches: context and storytelling, cultural humility, critical hope, imagination and possibility, and love, intimate inquiry, and the beloved community. If nations, individuals, and communities are to address the epidemic in a sustainable and impactful way.

Markham, Joshua Daniel, 2018-01-16 One of the most interesting voices in the Academy and the Church today is Martyn Percy Percy the Dean of Christ Church Oxford and a leading voice in the Anglican Communion is both theologically orthodox yet deeply unconventional While remaining engaged in the scholarly community Percy writes with clarity and passion on topics that range from ecclesiology to music from sexuality to the Trinity from advertising to ministerial training he is a polymath This book is two books in one The first half contains a series of articles written both by church leaders and academics that serve as substantial critical introductions to Percy s thought In the second half the reader gets to hear from Percy himself in a collection of wide ranging material from his corpus While producing a dialectical engagement of some depth as Percy offers written responses to his interlocutors this volume should prove useful for a variety of communities beyond academic circles especially ones engaged with contemporary issues facing ecclesiology churches and the wider Anglican Communion

Church in China: Faith, Ethics, Structure Aiming Wang, 2009 The Protestant Church in China is growing very fast However the role of the Church in society is still fragile and marginal The Church needs a strong ethical and structural development This study analyses the theological ethical and ecclesiological heritage of the Reformation and it shows how this can build the foundation for the future of the Church in China Four models serve as orientation the Reformers Luther and Calvin and the theologians Bonhoeffer and Barth in the 20th century with their vision of Christian faith and a humane society The critical analysis of the missionary heritage since the 19th century shows its contribution for the acceptance of the tradition of the Reformation for the growing Church in China The author combines this theological and ethical perspective with the inculturation in the strong ethical tradition of the Chinese culture He proposes the encounter between the spirituality of the Western culture and that of the traditional culture of China through the relationship with Confucianism The book also offers elements for the dialogue around modern values such as human rights and civil society In this dialogue Chinese Protestantism can play more and more an important role

Rendering the Word in Theological Hermeneutics Mark Alan Bowald, 2016-04-08 This book proposes an original typology for grasping the differences between diverse types of biblical interpretation fashioned in a triangle around a major theological and philosophical lacuna the relation between divine and human action Despite their purported concern for reading God's word most modern and postmodern approaches to biblical interpretation do not seriously consider the role of divine agency as having a real influence in and on the process of reading Scripture Mark Bowald seeks to correct and clarify this deficiency by demonstrating the inevitable role that divine agency plays in contemporary proposals in relation to human agency enacted in the composition of the biblical text and the reader This book presents an important contribution to the emerging field of theological hermeneutics Bowald discusses in depth the hermeneutics of George Lindbeck Hans Frei Kevin Vanhoozer Francis Watson Stephen Fowl David Kelsey Werner Jeanron Karl Barth James K A Smith and Nicholas Wolterstorff

Engaging with Contemporary Culture Martyn Percy, 2016-04-29 Theology and the churches are often considered to be at the margins of contemporary culture frequently struggling for identity and attention In this important new book Martyn Percy argues that a rich form of practical theological engagement is needed if the churches are to comprehend their situation in the modern world thereby enabling them to engage more confidently with society Drawing on a range of perspectives in the religion culture debate and from case studies in the USA and Europe the book explores the myriad of ways in which culture is now shaping contemporary Christianity and how vital an appreciation of this dynamic is for the self understanding of churches and theology This book explores the crucial and continuing contribution that theology

can make to public life in an era that is often perceived to be dominated by consumerism and secularity It will especially appeal to scholars of contemporary religion practical theologians and all those who are engaged in ministerial formation
