Retirement Policy The Next Fifty Years:

Fifty Years of Social Security, 1985 **Inventing Retirement** Leslie Hannah, 1986-04-17 This 1986 book examines why old age saving became rooted in the employment contract Women, Health, and Healing Ellen Lewin, Virginia Olesen, 2022-09-16 Originally published in 1985 this collection of essays expands the understanding of both health itself and the ways in which women may experience their roles as consumers and providers of health care The authors represent a number of disciplines anthropology sociology and political science and examine issues of public concern on both sides of the Atlantic Many important health questions are discussed including the increasing use of high technology methods on obstetrical care HRT the treatment of frail elderly women occupational health health issues of sport and fitness and health care systems of the UK US and Canada as they relate to women in various social circumstances **The Graying of the World** Laura Katz Olson, 1994 This unique book studies America's frail older population relative to the elderly in ten other nations It contains a cross national assessment of approaches to long term care for the elderly and explains the nature and extent of current and future problems related to caring for the functionally impaired elderly By studying and analyzing the ongoing struggles of other nations in their attempts to cope with growing populations of frail elderly readers in the U S can expand the parameters of their own national debate on the subject The Graying of the World shows the political economic and social context in which decisions on elder care are based and evaluates how successful various countries programs have been Chapters outline alternative approaches taken by disparate types of national systems highlighting unique and creative solutions to provide useful information on new and alternative ways to respond to personal and public issues related to elder care The elderly and their care in Finland France Germany Great Britain Israel Japan People's Republic of China Sweden and Yugoslavia are discussed as are the elderly in Canada and the United States Chapters cover the following topics for each country the increasing number of frail elderly and their costly health needs the current and future role of the state in elder care the current and future role of the family in elder care types of support services offered for the elderly including in home care community based care and institutional care the relationship of a nation's political economy to its attitude and policy on long term care innovative approaches to elder care Practitioners decision makers and the concerned general public will all find The Graying of the World an interesting and informative book that expands the discussion of health care options available for the elderly As such the book is also a helpful text for undergraduate and beginning graduate students of gerontology public policy and comparative politics as well as for social service practitioners It provokes much needed conversation on developing a healthcare plan for the future that meets the needs of a large elderly population *Retirement Policy* Policy Studies Institute, National Institute of Economic and Social Research, Royal Institute of International Affairs, 1982 Monograph of conference papers on retirement trends and social policy issues in the UK discusses population structures resources of older people likely developments and financial aspects of pension schemes and social assistance

impact of early retirement and flexible retirement older worker employment opportunities comments on labour legislation and considers employment policy and fiscal policy options Graphs and references List of participants Conference held in 1981 Dec 8 and 9 *The Changing Contract across Generations* Vern L. Bengtson, W. Andrew Achenbaum, 2024-11-01

Generational conflict has attracted considerable attention in the media and within academic circles during the past decade At the center of this collection of papers analyzing various facets of that conflict lie complex issues of generational equity issues that will remain important for the framing of public policy during the 1990s What do the young and the middle aged owe the elderly In discharging that debt to what extent are they able to provide for their own old age in a climate of changing notions of welfare What light do the longer perspectives of history shed on these issues What role do kinship gender and economic status play The papers commissioned by Bengtson and Achenbaum are intended to give greater analytic rigor to current debates The volume is interdisciplinary not only by theoretical intent but by the practical imperatives of gerontology More than a dozen sociologists economists historians demographers and policy analysts discuss the meanings and ambiguities that are inherent in terms such as generation equity compact contract and conflict in order to assess how relations between the age groups seem to vary from one sociohistorical context to the next This distinguished group of contributors raises comparative issues throughout assessing variations in generational ties by gender race class and geographic location Several project the extent to which recent changes in the political economy public philosophy and demographic structure of most modern societies presage greater conflicts or greater consensus in family members relationships and social ties

Socialism in a Cold Climate John Griffith, 2010-10-14 First published in 1983 this important and stimulating book is a thoughtful contribution to the debate about the first steps that needed to be taken to build a socialist society in the 1980s It covers topics as diverse as concepts of equality and fairness sexual discrimination economic policy health and urban policy pensions poverty and the economics of the welfare state defence and internationalism *Gray Agendas* Henry J. Pratt, 1993

Gray Agendas presents a groundbreaking cross national study into the complex and interdependent relationship between public policy and the interest groups of the aged Canada Britain and the United States are examined and compared This book provides a unique in depth understanding of how public policies have sparked the creation of organized senior citizen groups which in turn through their intensified political clout have been able to shape subsequent public policy The book begins with a historical perspective on the state's role in the lives of the aged and the indirect consequences of various policies on the elderly population including most specifically age group mobilization Later consideration is given to widespread economic social and ideological changes in age policy and the effect that new interest group formation had and continues to have upon these changes The final chapters are concerned with current issues surrounding the present density of organized age based activity and the effects of transformed state policy on the future of interest groups for the aged The unique topic of *Gray Agendas* will prove interesting not only to those interested in the fields of sociology history and political science but also will

help fill the gap of scholarly information on issues concerning the elderly's organizations proving invaluable to those interested in social gerontology and related areas of study *Issues in Pension Funding (Routledge Revivals)* David Blake, 2015-08-11 First published in 1992 this book explains how pension funds work in order to highlight their impact on the economy as a whole David Blake explores the different systems in operation at the time of writing both state run and private sector and describes policy initiatives such as personal pension schemes Longer life expectancy overseas investment equal opportunities and short termism in capital markets are among the issues discussed as David Blake assesses how pension funds typically behave This is a title of continued relevance which addresses the questions repeatedly raised within government and wider society *Social Policy* Hugh Bochel, Guy Daly, 2014-03-26 This thoroughly updated new edition provides a comprehensive introduction to contemporary social policy and addresses its historical theoretical and contextual foundations Divided into four sections it opens with a survey of the socio economic political and governmental contexts within which social policy operates before moving on to look at the historical development of the subject The third section examines contemporary aspects of providing welfare whilst the final part covers European and wider international developments The text explores the major topics and areas in contemporary social policy including work and welfare education adult health and social care children and families crime and criminal justice health housing race disability Issues are addressed throughout in a lively and accessible style and examples are richly illustrated to encourage the student to engage with theory and content and to help highlight the relevance of social policy in our understanding of modern society It is packed with features including Spotlight Discussion and review and Controversy and debate boxes as well as further readings and recommended websites A comprehensive glossary also provides explanations of key terms and abbreviations *Social Policy* is an essential textbook for undergraduate students taking courses in social policy and related courses such as criminology health studies politics sociology nursing youth and social work ***Pensions in the Public Sector*** Olivia S. Mitchell, Edwin C. Hustead, 2001 From the Pension Research Council of the Wharton School this book explores the diversity of governmental pension plans and investigates how these financial institutions must change in years to come *Retirement Benefits, are They Fair and are They Enough?* United States.
