ROME Ruben Ygua,2025-04-10 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view That s how we have been educated The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day which for now covers from 1789 to 1946 divided into five collections

The Reign of Emperor Antoninus Pius, AD 138-161 John S. McHugh, 2022-10-07 The reign of Antoninus Pius is widely seen as the apogee of the Roman Empire yet due to gaps in the historical sources his reign has been

overlooked by modern historians He is considered one of the five good emperors of the Antonine dynasty under whom the pax Romana enabled the empire to prosper trade to flourish and culture to thrive His reign is considered a Golden Age but this was partly an image created by imperial propaganda There were serious conflicts in North Africa and Dacia as well as a major revolt in Britain On his death the empire stood on the cusp of the catastrophic invasions and rebellions that marked the reign of his successor Marcus Aurelius Antoninus Pius became emperor through the hand of fate being adopted by Hadrian only after the death of his intended heir Lucius Aelius Caesar His rule was a balancing act between securing his own safety securing the succession of his adopted heir and denying opportunities for conspiracy and rebellion Equanimity was the last password he issued to his guards as he lay on his death bed In the face of the threats and challenges he remained calm and composed providing twenty three years of stability a calm before the storms that gathered both within and beyond Rome's borders
