startlingly original picture of both empire and city      **The Lure of the Arena** Garrett G. Fagan, 2011-02-17 Were the Romans who watched brutal gladiatorial games all that different from us This book argues they were not      **Housing the New Romans** Katharine T. von Stackelberg, Elizabeth Macaulay-Lewis, 2017-06-01 In the last twenty years reception studies have significantly enhanced our understanding of the ways in which Classics has shaped modern Western culture but very little attention has been directed toward the reception of classical architecture *Housing the New Romans Architectural Reception and Classical Style in the Modern World* addresses this gap by investigating ways in which appropriation and allusion facilitated the reception of Classical Greece and Rome through the requisition and redeployment of classicizing tropes to create neo Antique sites of dwelling in the 19th and early 20th centuries The volume across nine essays will cover both European and American iterations of place making including Sir John Soanes house in London the Hotel de Beauharnais in Paris and the Getty Villa in California By focusing on structures and places that are oriented towards private life houses hotels clubs tombs and gardens the volume directs the critical gaze towards diverse and complex sites of curatorial self fashioning The goal of the volume is to provide a multiplicity of interpretative frameworks e g object agency enchantment hyperreality memory infrastructure that may be applied to the study of architectural reception This critical approach makes *Housing the New Romans* the first work of its kind in the emerging field of architectural and landscape reception studies and in the hitherto textually dominated field of classical reception      **Mapping Gender in Ancient Religious Discourses** Todd C. Numismatics and Greek Lexicography Michael P. Theophilos, 2019-11-28 Michael P Theophilos explores the fascinating variety of numismatic contributions to Greek lexicography pertaining to lexicographic studies of the Second Temple period in general and the New Testament in particular Theophilos considers previous scholarly attempts to grapple with and incorporate critical numismatic material into the emerging discipline of Greek lexicography including foundational work by F Preisigke and E Kiessling before outlining his own methodological approach Theophilos then examines the resources available for engaging with the numismatic material and presents a series of specific case studies throughout the New Testament material His carefully annotated images of coins draw readers in to a greater understanding of the material culture of the Greco Roman world and how this impacted upon the Greek language and the New Testament      *The First Urban Churches 3* James R. Harrison, L. L. Welborn, 2018-02-23 Investigate the challenges threats and opportunities experienced by the early church in Ephesus The third installment of *The First Urban Churches* focuses on the urban context

of Christian churches in first century Ephesus As with previous volumes contributors illustrate how an investigation of the material evidence will help readers understand properly the challenges threats and opportunities that the early Ephesian believers faced in that city Brad Bitner James R Harrison Michael Haxby Fredrick J Long Guy M Rogers Michael Theophilos Paul Trebilco and Stephan Witetschek demonstrate decisively the difference that such an approach makes in grappling with the meaning and context of the New Testament writings particularly Ephesians Acts and Revelation Features Analysis of urban evidence of the inscriptions papyri archaeological remains coins and iconography Proposed reconstructions of the past and its social religious and political significance A nuanced informed portrait of ancient urban life in Ephesus Hitler's State Architecture Alex Scobie,1990 Adolf Hitler admired ancient Rome as the crystallization point of a world empire a capital with massive public monuments that reflected the supremacy of the State and the political might of the ancient world's master race He also admired the way Mussolini turned the monuments of imperial Rome into validity symbols of Fascism Hitler planned a Reich that would be as durable as the Roman Empire Its capital Berlin would surpass the architectural magnificence of ancient Rome before the advent of Christianity as its official religion This book examines Hitler's views on Roman imperialism town planning and architecture and shows how Albert Speer though a self confessed student of Doric architecture planned and sometimes built structures that were intended to rival such monuments as Nero's Golden House Hadrian's Pantheon and the Stadium of Herodes Atticus at Athens Other architects such as Ludwig Ruff and Carl Pinnau were to plan structures inspired by the Colosseum and the Baths of Caracalla The ancient Roman obsession with order discipline and the domination of the environment is clearly reflected in the town plans and public buildings conceived by Hitler and his architects We see that neoclassical state architecture in Nazi Germany was intended to signify more than stability and the persistence of tradition It was only one aspect of the Nazi attempt to re create a pagan totalitarian state based on clearly defined forms of hierarchy that divided society into slaves and slave owners those with and those without human rights **The Religious Aspects of War in the Ancient Near East, Greece, and Rome** Krzysztof

**World** ,     Y Max Ostrovsky,2007 Combining history archaeology sociology political science and agricultural studies Y Arctg  
X The Hyperbola of the World Order presents a theory claiming that any political system with a firm agricultural foundation  
is pre destined to reach political unity and turn this state into the norm Using the circumscription theory the idea that the  
phenomenon of political unification was most explicit in areas of the world where agricultural land was in short supply and  
exhaustive historical evidence this timely work proposes the emergence of a single world state     **Introduction to the New**  
**Testament** Helmut Koester,1995     History, Culture, and Religion of the Hellenistic Age Helmut Koester,2012-10-25 While  
the first American edition of this book published more than a decade ago was a revised translation of the German book Einf  
hrung in das Neue Testament this second edition of the first volume of the Introduction to the New Testament is no longer  
dependent upon a previously published German work The author hopes that for the student of the New Testament it is a
