The Hutchinson Illustrated Encyclopedia of British History Simon Hall, 2018-12-07 The Hutchinson Illustrated Encyclopedia of British History is a comprehensive and authoritative guide to the people events and ideas that have shaped Britain from prehistory to the present day The editors have also sought to convey the truth that history is more than simply a compilation of facts from the past The editors have included as much factual information as possible in each A-Z entry and numerous tables and statistics are included as well as many specially created maps and plans The chronological relationships of past events and lives are conveyed through various detailed subject chronologies attached to the relevant A-Z entries A large thematic chronology following the A-Z text provides a visual reference to the relationship between the events of British Irish history and events elsewhere in the world And the cultural context of as many entries as possible has been brought to life via a wide range of illustrations which provide a wealth of visual detail and often a key to past conceptions Interspersed in the text are 21 specially commissioned extended feature articles from noted historians that provide the analysis and the sense of the broad sweep of history that would otherwise be impossible to convey in an A-Z reference book

Iron Age and Roman Coin Hoards in Britain Roger Bland, Adrian Chadwick, Colin Haselgrove, David Mattingly, 2020-06-30 More coin hoards have been recorded from Roman Britain than from any other province of the Empire This comprehensive and lavishly illustrated volume provides a survey of over 3260 hoards of Iron Age and Roman coins found in England and Wales with a detailed analysis and discussion Theories of hoarding and deposition and examined national and regional patterns in the landscape settings of coin hoards presented together with an analysis of those hoards whose findspots were surveyed and of those hoards found in archaeological excavations It also includes an unprecedented examination of the containers in which coin hoards were buried and the objects found with them The patterns of hoarding in Britain from the late 2nd century BC to the 5th century AD are discussed

The volume also provides a survey of Britain in the 3rd century AD as a peak of over 700 hoards are known from the period from AD 253-296. This has been a particular focus of the project which has been a collaborative research venture between the University of Leicester and the British Museum funded by the AHRC. A comprehensive online database <https://finds.org.uk/database/> underpins the project which also undertook a comprehensive GIS analysis of all the hoards and field surveys of a sample of them. **From Present to Past Through Landscape** Almudena Orejas Saco del Valle, David Mattingly, Monique Clavel-Lévêque, 2009-01-12. Romano-British Settlement and Cemeteries at Mucking Sam Lucy, Christopher Evans, 2016-11-30 Excavations at Mucking Essex between 1965 and 1978 revealed extensive evidence for a multiphase rural Romano British settlement perhaps an estate center and five associated cemetery areas 170 burials with different burial areas reserved for different groups within the settlement The settlement demonstrated clear continuity from the preceding Iron Age occupation with unbroken sequences of artefacts and enclosures through the first century AD followed by rapid and extensive remodeling which included the laying out a Central Enclosure and an organized water supply with wells accompanied by the start of large scale pottery production After the mid second century AD the Central Enclosure was largely abandoned and settlement shifted its focus more to the Southern Enclosure system with a gradual decline though the 3rd and 4th centuries although continued burial pottery and artefactual deposition indicate that a form of settlement continued possibly with some low level pottery production Some of the latest Roman pottery was strongly associated with the earliest Anglo Saxon style pottery suggesting the existence of a terminal Roman settlement phase that essentially involved an Anglo Saxon community Given recent revisions of the chronology for the early Anglo Saxon period this casts an intriguing light on the transition with radical implications for understandings of this period Each of the cemetery areas was in use for a considerable length of time Taken as a whole Mucking was very much a component place complex it was its respective parts that fostered its many cemeteries whose diverse rites reflect the variability and roles of the settlement s evidently varied inhabitants

Medicine Through Time Fiona Reynoldson, 2002 Part of a series designed to meet the requirements of the revised GCSE syllabuses this foundation pupil s book looks at medicine through time It has the same contents as the core pupil s book but a simplified text for lower attainers There is an exam practice section at the end of each unit The Routledge Handbook of the Bioarchaeology of Human Conflict Christopher Knüsel, Martin Smith, 2013-12-17 If human burials were our only window onto the past what story would they tell Skeletal injuries constitute the most direct and unambiguous evidence for violence in the past Whereas weapons or defenses may simply be statements of prestige or status and written

sources are characteristically biased and incomplete human remains offer clear and unequivocal evidence of physical aggression reaching as far back as we have burials to examine Warfare is often described as senseless and as having no place in society Consequently its place in social relations and societal change remains obscure The studies in The Routledge Handbook of the Bioarchaeology of Human Conflict present an overview of the nature and development of human conflict from prehistory to recent times as evidenced by the remains of past people themselves in order to explore the social contexts in which such injuries were inflicted A broadly chronological approach is taken from prehistory through to recent conflicts however this book is not simply a catalogue of injuries illustrating weapon development or a narrative detailing progress in warfare but rather provides a framework in which to explore both continuity and change based on a range of important themes which hold continuing relevance throughout human development

Continental Connections Hugo Anderson-Whymark, Duncan Garrow, Fraser Sturt, 2015-02-26 The prehistories of Britain and Ireland are inescapably entwined with continental European narratives The central aim here is to explore cross channel relationships throughout later prehistory investigating the archaeological links material social cultural between the areas we now call Britain and Ireland and continental Europe from the Mesolithic through to the end of the Iron Age Since the separation from the European mainland of Ireland c 16 000 BC and Britain c 6000 BC their island nature has been seen as central to many aspects of life within them helping to define their senses of identity and forming a crucial part of their neighbourly relationship with continental Europe and with each other However it is important to remember that the surrounding seaways have often served to connect as well as to separate these islands from the continent In approaching the subject of continental connections in the long term and by bringing a variety of different archaeological perspectives associated with different periods to bear on it this volume provides a new a new synthesis of the ebbs and flows of the cross channel relationship over the course of 15 000 years of later prehistory enabling fresh understandings and new insights to emerge about the intimately
