The Roman Legions Recreated in Colour Photographs Daniel Peterson,1992 **The Roman Legions Recreated In Color Photographs** D Peterson,1999-01-04 In this book for the first time the 500 year story of the evolution of the Roman legionary his armor and equipment is told in vivid color photographs of museum quality reconstructions The Roman soldier is reconstructed by actors authentically armored and equipped Europa Militaria Special 2 *The Roman Army at War* Adrian Keith Goldsworthy,1998 This detailed examination of the way in which the Roman army operated during a war and how it fought a battle breaks away from existing studies which mostly concentrate on the army in peacetime and attempts to understand the army as an institution whose ultimate purpose was to wage war Adrian Goldsworthy explores the influence to the Roman army s organization on its behaviour during a campaign emphasizing its great flexibility in comparison to most of its opponents He considers the factors determining the result of a conflict and proposes contrary to orthodox opinion that the Roman army was able to adapt successfully to any type of warfare Following the technique pioneered by John Keegan in *The Face of Battle* 1976 Dr Goldsworthy builds up a precise picture of what happened during battle tactics employed weaponry leadership behaviour of individuals as well as groups of soldiers and of utmost importance morale **Roman Military Equipment from the Punic Wars to the Fall of Rome, second edition** M. C. Bishop,John Coulston,2006-04-22 Rome s rise to empire is often said to have owed much to the efficiency and military skill of her armies and their technological superiority over barbarian enemies But just how advanced was Roman military equipment What were its origins and how did it evolve The authors of this book have gathered a wealth of evidence from all over the Roman Empire excavated examples as well as pictorial and documentary sources to present a picture of what range of equipment would be available at any given time what it would look like and how it would function They examine how certain pieces were adopted from Rome s enemies and adapted to particular conditions of warfare prevailing in different parts of the Empire They also investigate in detail the technology of military equipment and the means by which it was produced and discuss wider questions such as the status of the soldier in Roman society Both the specially prepared illustrations and the text have been completely revised for the second edition of this detailed and authoritative handbook bringing it up to date with the very latest research It illustrates each element in the equipment of the Roman soldier from his helmet to his boots his insignia his tools and his weapons This book will appeal to archaeologists ancient and military historians as well as the generally informed and inquisitive reader

Nero's Killing Machine Stephen Dando-Collins, 2011-01-25 The 14th Gemina Martia Victrix Legion was the most celebrated unit of the early Roman Empire a force that had been wiped out under Julius Caesar reformed and almost wiped out again After participating in the AD 43 invasion of Britain the 14th Legion achieved its greatest glory when it put down the famous rebellion of the Britons under Boudicca Numbering less than 10 000 men the disciplined Roman killing machine defeated 230 000 rampaging rebels slaughtering 80 000 with only 400 Roman losses an accomplishment that led the emperor Nero to honor the legion with the title Conqueror of Britain In this gripping book second in the author's definitive histories of the legions of ancient Rome Stephen Dando Collins brings the 14th Legion to life offering military history aficionados a unique soldier's eye view of their tactics campaigns and battles The Historian, 1995 **The Druid's Son** G. R. Grove, 2012-10-01 The Roman armies are conquering Britain they have destroyed the Druid sanctuaries and savagely crushed Boudicca's revolt In these desperate days knowing his own death is imminent the last Archdruid of Ynys Mon engenders a son The boy's mission to defeat the Roman invaders and preserve his father's heritage But can he possibly survive long enough to achieve his goal *AD69* Nic Fields, 2014-03-31 The author of God's Viking brings to life a period in Roman history that provides many twists and turns as Rome emerged from the period of rule by Nero Firetrench With the death of Nero by his own shaky hand the ill sorted ill starred Julio Claudian dynasty came to an ignominious end and Rome was up for the taking This was 9 June AD 68 The following year commonly known as the Year of the Four Emperors was probably one of Rome's worst In all previous successions the new emperor had some relation to his predecessor but the psychotic and paranoid Nero had done away with any eligible relatives The new emperor had to secure his legal position and authority with regards to the Senate and to the army as well as to those who had a vested interest in the system the Praetorian Guard Because imperial authority was ultimately based on control of the military a player in the game of thrones had to gain an unshakable command over the legions Of course this in turn meant that the soldiers themselves could impose their own choice It was to take a tumultuous year of civil war and the death of three imperial candidates before a fourth candidate could come out on top remain there and establish for himself a new dynasty Nic Fields narrates the twists and turns and the military events of this short but bloody period of Roman history We appear to meet more people than the cast of Game of

Thrones with about the same mortality rate but with the added bonus of this being history not fiction hugely entertaining
