[Didactic Press Paperbacks] Samuel Dill, 2017-04-24 There must always be something arbitrary in the choice and isolation of a period of social history for special study No period can from one point of view be broken off and isolated from the immemorial influences which have moulded it from the succession of coming ages which it will help to fashion And this is specially true of the history of a race at once so aggressive yet so tenacious of the past as the Roman The national fibre was so tough and its tone and sentiment so conservative under all external changes that when a man knows any considerable period of Roman social history he may almost without paradox be said to know a great deal of it from Romulus to Honorius Yet as in the artistic drama there must be a beginning and an end although the action can only be ideally severed from what has preceded and what is to follow in actual life so a limited space in the collective history of a people may be legitimately set apart for concentrated study But as in the case of the drama such a period should possess a certain unity and intensity of moral interest It should be a crisis and turning point in the life of humanity a period pregnant with momentous issues a period in which the old order and the new are contending for mastery or in which the old is melting into the new Above all it should be one in which the great social and spiritual movements are incarnate in some striking personalities who may give a human interest to dim forces of spiritual evolution Such a period it seems to the writer of this book is that which he now presents to the reader It opens with the self destruction of lawless and intoxicated power it closes with the realisation of Plato's dream of a reign of the philosophers The revolution in the ideal of the principate which gave the world a Trajan a Hadrian and a Marcus Aurelius in place of a Caligula and a Nero may not have been accompanied by any change of corresponding depth in the moral condition of the masses But the world enjoyed for nearly a century an almost unexampled peace and prosperity under skilful and humane government The civic splendour and social charities of the Antonine age can be revived by the imagination from the abundant remains and records of the period Its materialism and social vices will also sadden the thoughtful student of its literature and inscriptions But if that age had the faults of a luxurious and highly organised civilisation it was also dignified and elevated by a great effort for reform of conduct and a passion often it is true sadly misguided to rise to a higher spiritual life and to win the succour of unseen Powers To the writer of this book this seems to give the Antonine age its great distinction and its deepest interest for the student of the life of humanity The influence of philosophy on the legislation of the Antonines is a commonplace of history But its practical effort to give support and guidance to moral life and to refashion the old paganism so as to make it a real spiritual force has perhaps hardly yet attracted the notice which it deserves It is one great object of this book to show how the later Stoicism and the new Platonism working in eclectic harmony strove to supply a rule of conduct and a higher vision of the Divine world

Stobart,1912 This book is a continuation of *The Glory that was Greece* written with the same purpose and from the same point of view The point of view is that of humanity and the progress of civilisation The value of Rome s contribution to the lasting welfare of mankind is the test of what is to be emphasised or neglected Hence the instructed reader will find a deliberate attempt to adjust the historical balance which has I venture to think been unfairly deflected by excessive deference to literary and scholastic traditions The Roman histories of the nineteenth century were wont to stop short with the Republic because Classical Latin ceased with Cicero and Ovid They followed Livy and Tacitus in regarding the Republic as the hey day of Roman greatness and the Empire as merely a distressing sequel beginning and ending in tragedy From the standpoint of civilisation this is an absurdity The Republic was a mere preface The Republic until its last century did nothing for the world except to win battles whereby the road was opened for the subsequent advance of civilisation Even the stern tenacity of the Roman defence against Hannibal admirable as it was can only be called superior to the still more heroic defence of Jerusalem by the Jews because the former was successful and the latter failed From the Republican standpoint Rome is immeasurably inferior to Athens In short what seemed important and glorious to Livy will not necessarily remain so after the lapse of nearly two thousand years Rome is so vast a fact and of consequences so far reaching that every generation may claim a share in interpreting her anew There is the Rome of the ecclesiastic of the diplomat of the politician of the soldier of the economist There is the Rome of the literary scholar and the Rome of the arch ologist It is wonderful how this mighty and eternal city varies with her various historians Diodorus of Sicily to whom we owe most of her early history was seeking mainly to flatter the claims of the Romans to a heroic past Polybius the trained Greek politician of the second century B C was writing Roman

history in order to prove to his fellow Greeks his theory of the basis of political success Livy was seeking a solace for the miseries of his own day in contemplating the virtues of an idealised past Tacitus during an interval of mitigated despotism strove to exhibit the crimes and follies of autocracy These were both rhetoricians trained in the school of Greek democratic oratory Edward Gibbon too I write as one who cannot change trains at Lausanne without emotion saw the Empire from the standpoint of eighteenth century liberalism and materialism Theodor Mommsen made Rome the setting for his Bismarckian Caesarism and finally M Boissier has enlivened her by peopling her streets with Parisians It is in fact difficult to depict so huge a landscape without taking and revealing an individual point of view There is always something fresh to see even in the much thumbed records of Rome Although a large part of this book is written directly from the original sources and none of it without frequent reference to them it is in the main frankly a derivative history intended for readers who are not specialists Except Pelham s Outlines which are almost exclusively political there is no other book in English so far as I am aware which attempts to give a view of the whole course of ancient Roman History within the limits of a single volume and yet the Empire without the Republic is almost as incomplete as the Republic without the Empire As for the Empire although nothing can supersede or attempt to replace The Decline and Fall yet the scholar s outlook on the history of the Empire has been greatly changed since Gibbon s day by the discovery of Pompeii and the study of inscriptions To be continue in this ebook *History as Past Ethics: An Introduction to the History of Morals* Philip Van Ness Myers, 2020-09-28 Professor Freeman defined history as past politics Mr Buckle argued that the essence of the historical evolution consists in intellectual progress Many present day economists hold that the dominant forces in the historical development are economic Churchmen consistently make the chief factor in history to be religion Whether the upholders of these several interpretations of history would have us understand them as speaking of the ultimate goal of the historic evolution or merely of the dominant motive under which men and society act none of these interpretations can be accepted by the student of the facts of the moral life of the race as a true reading of history To him not only does moral progress constitute the very essence of the historic movement but the ethical motive presents itself as the most constant and regulative force in the evolution of humanity His chief interest in all the other factors of the historical evolution is in noting in what way and in what measure they have contributed to the growth and enrichment of the moral life of mankind Thus the historian of morals is deeply interested in the growth of political institutions among men but chiefly in observing in what way these institutions have affected for good or for evil the moral life of the nation Particularly is the progress of the world toward political unity a matter of profound concern to him not because he regards the establishment of the world state as an end in itself but because the universal state alone can furnish those conditions under which the moral life of humanity can most freely expatiate and find its noblest and truest expression It is the same with intellectual progress The student of morals recognizes the fact that the progress of the race in morality is normally dependent upon its progress in knowledge that conscience waits upon the intellect But in opposition to Buckle and

those of his school he maintains that so far from an advance in knowledge constituting the essence of a progressive civilization this mental advance constitutes merely the condition precedent of real civilization the distinctive characteristic of which must be a true morality A civilization or culture which does not include this is doomed to quick retrogression and decay As Benjamin Kidd truly observes When the intellectual development of any section of the race for the time being outruns the ethical development natural selection has apparently weeded it out like any other unsuitable product As with the political and intellectual elements of civilization so is it with the economic The outward forms of the moral life are it is true largely determined by the industry of a people but the informing spirit of morality is the expression of an implanted faculty It is elicited but not created by environment No industrial order from which it is lacking can long endure Natural selection condemns it as unfit And this we are beginning to recognize that economics and ethics cannot be divorced that every great industrial problem is at bottom a moral problem To the student of the ethical phase of history all social reformers from the old Hebrew prophets down to Karl Marx and Henry George are primarily moralists pleading for social justice equity and righteousness
