Straus, 2024-08-23 Operating largely within the world of European American classical music, this book discusses the creative work of old musicians: composers, performers, listeners, and scholars, and how those forms of music-making are received and understood. Like everything else about old age, music-making is usually understood as a decline from a former height, a deficiency with respect to a youthful standard. Against this ageist mythology, this book argues that composing oldly, performing oldly, and listening oldly are distinctive and valuable ways of making music, a difference, not a deficit, to be celebrated, not ignored or condemned. Instead of the usual biomedical or gerontological understanding of old age with its focus on bodily cognitive and sensory decline, this book follows Age Studies in seeing old age through a cultural lens as something created and understood in culture. This book seeks to identify the ways that old musicians, composers, performers, listeners, and scholars accept, resist, adapt, and transform the cultural scripts for the performance of old age. Musicking oldly, making music in old age, often represents an attempt to rewrite ageist cultural scripts and to find ways of flourishing musically in a largely hostile landscape.

Character Sketches of Romance, Fiction and the Drama Ebenezer Cobham Brewer, 1892 Character Sketches of Romance, Fiction and the Drama Ebenezer Cobham Brewer, 2004-03 Originally published in 1892, the object of this Handbook is to supply readers and speakers with a lucid but very brief account of such names as are used in allusions and references, whether by poets or prose writers, to furnish those who consult it with the plot of popular dramas, the story of epic poems, and the outline of well-known tales. The number of dramatic plots sketched out is

many hundreds Another striking and interesting feature of the book is the revelation of the source from which dramatists and romancers have derived their stories and the strange repetitions of historic incidents It has been borne in mind throughout that it is not enough to state a fact It must be stated attractively and the character described must be drawn characteristically if the reader is to appreciate it and feel an interest in what he reads This work an American reprint of The Reader s Handbook by E Cobham Brewer while retaining all of the original material that can interest and aid the English speaking student gives also characters and sketches found in American novels poetry and drama
