Burnett,British Museum,1988 Retro 2017 includes bibliographical references     **Coin Hoards from Roman Britain** ,1979     **Archaeology in Hertfordshire** Kris Lockyear,2015-10-01 Celebrating the rich heritage of archaeology and of archaeological research in Hertfordshire the 15 papers collected in this work focus on various aspects of the region including the Neolithic to the post Medieval periods and include a report on the important excavations at the formative henge at Norton Several chapters focus new attention on the Iron Age and Roman periods both from a landscape perspective and through detailed studies of artefacts while a discussion of the rare early Saxon material recently excavated at Watton at Stone makes a vital contribution to the existing corpus of knowledge about this little understood period All of the papers in the volume focus on the local scene with an understanding of wider issues in each period and as a result the papers are of importance beyond the boundaries of the county and will be of interest to scholars with wide ranging interests     Romano-British Remains Francis Haverfield,1906     *The Romano-British Villa at Castle Copse, Great Bedwyn* E. **Coin Hoards from Roman Britain** Robert Andrew Glendinning Carson,1979      **The Numismatic Evidence of Romano-British Coin Hoards** Anne S. Robertson,1956      **Roman Britain** David Shotter,2004-08-02 From renowned and respected author David Shotter this updated and expanded edition of Roman Britain offers a concise introduction to this period drawing on the wealth of recent scholarship to explain the progress of the Romans and their objectives in conquering Britain Key topics discussed include the Roman conquest of Britain the evolution of the frontier with Scotland the infrastructure the Romans put in place the place of religion in Roman Britain Taking account of recent research this second edition includes an expanded bibliography and a number of new plates which illustrate the various aspects of the Roman occupation of Britain      **The Metallurgy of Roman Silver Coinage** Kevin Butcher,Matthew Ponting,2015-04-02 The fineness of Roman imperial and provincial coinage has been regarded as an indicator of the broader fiscal health of the Roman Empire with the apparent gradual decline of the silver content being treated as evidence for worsening deficits and the contraction of the supply of natural resources from which the coins were made This book explores the composition of Roman silver coinage of the first century AD re examining traditional interpretations in the light of an entirely new programme of analyses of the coins which illustrates the inadequacy of many earlier analytical projects It provides new evidence for the supply of materials and refining and minting technology It can even pinpoint likely episodes of recycling old coins and when combined with the study of hoards hints at possible strategies of stockpiling of metal The creation of reserves bears directly on the question of the adequacy of revenues and fiscal health      *An Imperial Possession* David Mattingly,2008-05-27 Part of the Penguin History of Britain series *An Imperial Possession* is the first major narrative history of Roman Britain for a generation David Mattingly draws on a wealth of new findings and knowledge to cut through the myths and misunderstandings that so commonly surround our beliefs about this period From the rebellious chiefs and druids who led native British resistance to the experiences of the Roman military leaders in this remote dangerous outpost of Europe this book explores the reality of life in occupied Britain within the context of the shifting fortunes of the Roman Empire      **Coin Hoards from Roman Britain** A. M. Burnett,1981      **Roman Finds** Richard Hingley,Steven Willis,2007-04-10 Studies on finds in Roman Britain and the Western Provinces have come to greater prominence in the literature of recent years The quality of such work has also improved and is now theoretically informed and based on rich data sets Work on finds over the last decade or two has changed our understanding of the Roman era in profound ways and yet despite such encouraging advances and such clear worth there has to date been little in the way of a dedicated forum for the presentation and evaluation of current approaches to the study of material culture The conference at which these papers were initially presented has gone some way to redressing this and these papers bring the very latest studies on Roman finds to a wider audience Twenty papers are here presented covering various themes      *The Roman Monetary System*

Constantina Katsari, 2011-02-24 The Roman monetary system was highly complex It involved official Roman coins in both silver and bronze which some provinces produced while others imported them from mints in Rome and elsewhere as well as in the East a range of civic coinages This is a comprehensive study of the workings of the system in the Eastern provinces from the Augustan period to the third century AD when the Roman Empire suffered a monetary and economic crisis The Eastern provinces exemplify the full complexity of the system but comparisons are made with evidence from the Western provinces as well as with appropriate case studies from other historical times and places The book will be essential for all Roman historians and numismatists and of interest to a broader range of historians of economics and finance **Roman**

**Imperial Coinage II.3** Richard Abdy, Peter Mittag, 1-01-01 The standard reference work for Roman Imperial coinage of Hadrian now occupies a fully revised and greatly expanded standalone volume to cover the last epoch of what many consider the apogee of Roman coinage begun with Nero's reform of AD 64 when great effort was taken over their iconographic designs It is also a long overdue attempt to reconcile our increased 21st century understanding of this otherwise lightly documented reign of one of the key figures in Roman history The rich symbolism of the reign is also expressed in prodigious issues of Hadrian's medallic pieces many covered in RIC for the first time
