**Romanticism and the Re-Invention of Modern Religion** Alexander J. B. Hampton,2019-01-17 Early German Romanticism sought to respond to a comprehensive sense of spiritual crisis that characterised the late eighteenth century The study demonstrates how the Romantics sought to bring together the new post Kantian idealist philosophy with the inheritance of the realist Platonic Christian tradition With idealism they continued to champion the individual while from Platonism they took the notion that all reality including the self participated in absolute being This insight was expressed not in the language of theology or philosophy but through aesthetics which recognised the potentiality of all creation including artistic creation to disclose the divine In explicating the religious vision of Romanticism this study offers a new historical

appreciation of the movement and furthermore demonstrates its importance for our understanding of religion today **The Cambridge Companion to German Romanticism** Nicholas Saul, 2009-07-09 The late eighteenth and early nineteenth centuries saw an extraordinary flowering of arts and culture in Germany which produced many of the world's finest writers artists philosophers and composers This volume first published in 2004 offers students and specialists an authoritative introduction to that dazzling cultural phenomenon now known collectively as German Romanticism Individual chapters not only introduce the reader to individual writers such as Friedrich Schlegel Novalis Eichendorff Heine Hoffmann Kleist Schiller and Tieck but also treat key concepts of Romantic music painting philosophy gender and cultural anthropology science and criticism in concise and lucid language All German quotations are translated to make this volume fully accessible to a wide audience interested in how Romanticism evolved across Europe Brief biographies and bibliographies are supplemented by a list of primary and secondary further reading in both English and German **Coleridge and Kantian Ideas in England, 1796-1817** Monika Class, 2013-03-14 Author of *Biographia Literaria* 1817 and *The Friend* 1809 10 1812 and 1818 Samuel Taylor Coleridge was the central figure in the British transmission of German idealism in the 19th century The advent of Immanuel Kant in Coleridge's thought is traditionally seen as the start of the poet's turn towards an internalized Romanticism Demonstrating that Coleridge's discovery of Kant came at an earlier point than has been previously recognized this book examines the historical roots of Coleridge's life-long preoccupation with Kant over a period of 20 years from the first extant Kant entry until the publication of his autobiography Drawing on previously unpublished contemporary reviews of Kant and seeking socio-political meaning outside the literary canon in the English radical circles of the 1790s Monika Class here establishes conceptual affinities between Coleridge's writings and that of Kant's earliest English mediators and in doing so revises Coleridge's allegedly non-political and solitary response to Kant Romanticism Aidan Day, 2011-12-13 Romanticism was a revolutionary intellectual and artistic movement which generated some of the most popular and influential texts in British and American literary history This clear and engaging guide introduces the history major writers and critical issues of this crucial era This fully updated second edition includes Discussion of a broad range of writers including William Blake Mary Wollstonecraft William Wordsworth Lord Byron John Keats Ralph Waldo Emerson H D Thoreau Frederick Douglas A new chapter on American Romanticism Discussion of the romantic sublime or romantic imagination An engagement with critical debates such as postcolonialism gender studies and ecocriticism Pushkin's "Poltava" Virginia Marie Burns, 2005 In Pushkin's *Poltava* Virginia M Burns provides a detailed literary structuralist analysis of Aleksandr Pushkin's narrative poem By examining prior critical approaches to and interpretations of her subject Burns challenges many traditionally accepted views of the poem such as categorical condemnation of the rebellion of the Ukraine against the Russia of Peter the Great In turn and through studies of characterization and narrative and poetic techniques Burns provides a new interpretation of the *Poltava* in which the poem's meaning may be derived primarily from the unique and unifying

**The Aesthetics of Fear in German Romanticism** Paola Mayer, 2020-02-13

Enlightenment both the phenomenon specific to the eighteenth century and the continuing trend in Western thought is an attempt to dispel ignorance achieve mastery of a potentially hostile environment and contain fear of the unknown by promoting science and rationality Enlightenment is often accompanied and challenged by countercultures such as German Romanticism which explored the nature of fear and deployed it as a corrective to the excesses of rationalism The Aesthetics of Fear in German Romanticism uncovers the formative role this movement played in the development of dark or negative aesthetics Recovering a missing chapter in the history of the aesthetics of fear Paola Mayer illustrates that Romanticism was a crucial transitional phase between the eighteenth century sublime and the early twentieth century uncanny Mayer puts literature and philosophy in dialogue examining how German Romantic literature employed narratives of fear to radicalize and then subvert the status quo in society culture and science She traces the development of this aesthetic from its inception with pre Romantics such as Jean Paul Richter to its end in Joseph von Eichendorff s critical retrospective and juxtaposes canonical authors such as E T A Hoffmann the father of the modern fantastic with writers who have previously been ignored Today when the dark side of science looms in the foreground The Aesthetics of Fear in German Romanticism points to the power of a literary movement to construct competing currents of thought

**Popular French Romanticism** James Smith Allen, 1981-01-01 Focusing on the Paris book world of this period Allen reveals how the rise of a new popular literature jolly chansonniers the roman feuilletons or serial novels melodramas gothic and sentimental novels dramatic nationalistic histories by such authors as Dumas Sand Lamennais Ancelot Desnoyer and de Kock coincided with remarkable developments in the production distribution and consumption of books Allen s research ranges from a survey of the then popular romantic titles and authors and the trade catalogs of booksellers and lending libraries to the police records of their activities diaries and journals of working people and military conscript records and ministerial literacy statistics The result is a remarkable picture of the exchange between elite and popular culture the interaction between ideas and their material reality and the relationship between the literature and the history of France in the romantic period
