Romantic Poets Critics And Other Madmen:

Romantic Poets, Critics, and Other Madmen Charles Rosen, 1998 What is the real business of the critic Rosen asks of George Bernard Shaw in one of his essays It is a question he answers throughout this collection as he demonstrates and analyzes various critical approaches In writing about the Romantic poets Lord Byron William Wordsworth William Cowper and Friedrich Holderlin he examines the kind of criticism which attempts to uncover concealed code He investigates the relationship between Romantic aesthetic theory and artworks and explores the way Romantic art criticism has been practiced by critics from Friedrich Schlegel to Walter Benjamin In essays on Honore de Balzac Robert Schumann Gustave Flaubert and others he highlights the intersections between Romantic art and music the artist's separation of life and artistic representations of it and the significance of the established text **Madness and the Romantic Poet** James

Whitehead, 2017-07-14 *Madness and the Romantic Poet* examines the longstanding and enduringly popular idea that poetry is connected to madness and mental illness The idea goes back to classical antiquity but it was given new life at the turn of the nineteenth century The book offers a new and much more complete history of its development than has previously been attempted alongside important associated ideas about individual genius creativity the emotions rationality and the mind in extreme states or disorder ideas that have been pervasive in modern popular culture More specifically the book tells the story of the initial growth and wider dissemination of the idea of the Romantic mad poet in the nineteenth century how and why this idea became so popular and how it interacted with the very different fortunes in reception and reputation of Romantic poets their poetry and attacks on or defences of Romanticism as a cultural trend generally again leaving a popular legacy that endured into the twentieth century Material covered includes nineteenth century journalism early literary criticism biography medical and psychiatric literature and poetry A wide range of scientific and pseudoscientific thinkers are discussed alongside major Romantic authors including Wordsworth Coleridge Blake Hazlitt Lamb Percy Bysshe Shelley Keats Byron and John Clare Using this array of sources and figures the book asks was the Romantic mad genius just a sentimental stereotype or a romantic myth Or does its long popularity tell us something serious about Romanticism and the role it has played or has been given in modern culture Comparative Criticism: Volume 22, East and West: Comparative Perspectives

The Fragment Camelia Elias, 2004 This monograph is an interdisciplinary study of the concept of fragment in literature and in critical and literary theory It discusses the fragment's performativity and function within a historical perspective stretching from Heraclitus via the German Romantics and European writers of the Modernist period to American postmodern manifestations of the fragment This is the first history of the fragment to appear in English and it is also the first attempt at producing a consistent taxonomy of literary and critical fragments The fragments are categorised according to function not author intention and the study addresses a number of questions What constitutes the fragment when the fragment can only be defined a posteriori Does the fragment begin on its own or is it begun by others writers and critics Does it acquire a name of its own or is it labelled by others All these questions revolve around issues of agency and they are best discussed in terms of performativity which means seeing fragments as acts acts of literature acts of reading acts of writing The book demonstrates how a poetics of the fragment as a performative genre can be created situating the fragment both as literature and as a phenomenon within postmodern criticism against the background of philosophy art history and theology Proceedings of the British Academy, Volume 121, 2002 Lectures British Academy, 2003-12-04 Volume 121 of the Proceedings of the British Academy contains 12 lectures delivered at the British Academy in 2002 Schumann John C.
