The Romantic Revolution in America: 1800-1860 Michael Young, 2017 The development of literature between 1800 and 1860 in the United States was heavily influenced by two wars The War of 1812 hastened the development of nineteenth century ideals and the Civil War uprooted certain growths of those vigorous years The half century between these dramatic episodes was a period of extravagant vigor the final outcome being the emergence of a new middle class Parrington argues that America was becoming a new world with undreamed potential This new era was no longer content with the ways of a founding generation The older America of colonial days had been static rationalistic inclined to pessimism and fearful of innovation During the years between the Peace of Paris 1763 and the end of the War of 1812 older America was dying The America that emerged which is the focal point of this volume was a shifting restless world eager to better itself bent on finding easier roads to wealth than the plodding path of natural increase The culture of this period also changed Formal biographies written in this period often gave way to eulogy it was believed that a writer was under obligation to speak well of the dead Consequently scarcely a single commentary of the times can be trusted and the critic is reduced to patching together his account out of scanty odds and ends A new introduction by Bruce Brown highlights the life of Vernon Louis Parrington and explains the importance of this second volume in the Pulitzer Prize winning study Provided by publisher

A Concise Bibliography for Students of English Arthur Garfield Kennedy, Donald B. Sands, 1966

Blood Image Paul Christopher Anderson, 2006-03-21 With Blood Image Paul Anderson shows that the symbol of a man can be just as important as the man himself. Turner Ashby was one of the most famous fighting men of the Civil War. Rising to colonel of the 7th Virginia Cavalry, Ashby fought brilliantly under Thomas J. Stonewall Jackson during the 1862 Shenandoah Valley campaign until he died in battle. Anderson demonstrates that Ashby's image is a catalytic, mesmerizing and often contradictory combination of southern antebellum cultural ideals and wartime hopes and fears emerged during his own lifetime and was not a later creation of the Lost Cause. The stylistic synergy of Anderson's startling narrative design fuels a poignant irony: men like Ashby, a chivalrous charismatic knight who had difficulty complying with Stonewall Jackson's authority, become trapped by the desire to have their real lives reflect their imagined ones. The Colonial Mind, 1620-1800 Vernon Louis Parrington, 1927 *The Colonial Mind, 1620-1800* Vernon Louis Parrington, 1987 Examines the writings of John Winthrop, Roger Williams, Cotton Mather, Jonathan Edwards, Benjamin Franklin, Tom Paine and Thomas Jefferson. **The Beginnings of Critical Realism in America** Vernon Parrington, 2017-09-29 This final volume of Vernon Louis Parrington's Pulitzer Prize winning study deals with the decay of romantic optimism. It shows that the cause of decay is attributed to three sources: stratifying of economics under the pressure of centralization, the rise of mechanistic science and the emergence of a spirit of skepticism which with teachings of the sciences and lessons of intellectuals has resulted in the questioning of democratic ideals. Parrington presents the movement of liberalism from 1913 to 1917 and the reaction to it following World War I. He notes that liberals announced that democratic hopes had not been fulfilled; the Constitution was not a democratic instrument nor was it intended to be and while Americans had professed to create a democracy they had in fact created a plutocracy. Industrialization of America under the leadership of the middle class and the rise of critical attitudes towards the ideals and handiwork of that class are examined in great detail. Parrington's interpretation of the literature during this time focuses on four divisions of development: the conquest of America by the middle class, the challenge of that overlordship by democratic agrarianism, the intellectual revolution brought about by science and the appropriation of science by the middle class and the rise of detached criticism by younger intellectuals. A new introduction by Bruce Brown highlights Parrington's life and explains the importance of this volume. **The American Mercury**, 1927 *The Southwestern Political and Social Science Quarterly*, 1929 The Southwestern Social Science Quarterly, 1929 **Southwestern Political and Social Science Quarterly**, 1929 *American Literature and the Academy* Kermit Vanderbilt, 1989-02 This book is a volume in the Penn Press Anniversary Collection. To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1,100 titles from Penn Press's distinguished backlist from 1899-1999 that had fallen out of print.
