Postcolonial Romanticisms Roy Osamu Kamada,2010 Postcolonial Romanticisms Landscape and the Possibilities of Inheritance describes the production of a new and particular kind of postcolonial text and resituates the notion of literary influence in the context of postcolonial literatures This book addresses the ways in which Derek Walcott Garrett Hongo and Jamaica Kincaid have appropriated aspects of colonial culture and how they deploy the tropes of British Romanticism in their own texts Postcolonial Romanticisms argues that Walcott Hongo and Kincaid radically reimagine and rewrite the various traditions that have figured their island landscapes as unhistoricized unoccupied and marginal The landscapes that they write about are necessarily politicized their own subjectivities are intimately implicated in both the natural beauty as well as the traumatic history of place they confront and engage to varying degrees the history of their postcolonial geographies the history of diaspora of slavery of the capitalist commodification of the landscape and the devastating consequences this history has on the individual These postcolonial writers confront what Derek Walcott calls the shards of an ancient pastoral the literal and literary remains of colonial cultural authority that clutter their landscapes Postcolonial Romanticisms is ideally suited for courses in cultural literary and postcolonial studies specifically courses in world literature global literature postcolonial literature Caribbean literature contemporary poetry and eco literary studies

Bloody Romanticism I. Haywood,2006-10-26 This book studies the impact of violence on the writing of the Romantic period The focus is on the response of writers to a series of violent events including

the revolutions in America and France and the Irish rebellion of 1798 Authors covered include Coleridge Wordsworth Scott Byron Fennimore Cooper Equiano and Helen Maria Williams Imperial Babel Padma Rangarajan,2014-09-15 At the heart of every colonial encounter lies an act of translation Once dismissed as a derivative process the new cultural turn in translation studies has opened the field to dynamic considerations of the contexts that shape translations and that in turn reveal translation s truer function as a locus of power In Imperial Babel Padma Rangarajan explores translation s complex role in shaping literary and political relationships between India and Britain Unlike other readings that cast colonial translation as primarily a tool for oppression Rangarajan s argues that translation changed both colonizer and colonized and undermined colonial hegemony as much as it abetted it Imperial Babel explores the diverse political and cultural consequences of a variety of texts from eighteenth century oriental tales to mystic poetry of the fin de siecle and from translation proper to its ethnological mythographic and religious variants Searching for translation s trace enables a broader more complex understanding of intellectual exchange in imperial culture as well as a more nuanced awareness of the dialectical relationship between colonial policy and nineteenth century literature Rangarajan argues that while bearing witness to the violence that underwrites translation in colonial spaces we should also remain open to the irresolution of translation its unfixed nature and its ability to transform both languages in which it works Globalizing International Theory A. Layug,John M. Hobson,2022-09-30 Globalizing International Theory adds to the literature on non Western international relations IR theory by probing the question of what it means to globalize international theory The book starts with the premise that international theory is unfinished incomplete and homogenous because it provides a limited conception of the international which in turn derives from its partiality that reflects its narrow Western centric bias The contributors argue that the IR vision of the world is projected through a polarizing Western filtered lens Rather than utilizing an objective set of explanatory tools for explaining world politics the reality is that orthodox IR theory only tells us why the West is best and why the Rest should become like the West This means that international theory is not truly international In provincializing Western international theory this volume navigates beyond the Eurocentric and imperial frontier of the prevailing limited conception of the international to explore the hidden contributions to international theory which can be found in the non Western world Bringing in excluded non Western conceptions of international theory highlights a broader conception of the international The book provides a framework for theorizing globally exploring the fundamental problems with Western IR theory and how to overcome them This book will be used by advanced undergraduate and postgraduate students scholars researchers and IR theorists worldwide who are interested in non Western IR theory It will help navigate the problem of internationalness in the face of the grand theoretical problem of our time the use and misuse of international theory in making sense of and responding to the complex global realities of the twenty first century
