Romanticism And Transcendence Wordsworth Coleridge And The Religious Imagination:

Romanticism and Transcendence J. Robert Barth, 2003 Grounded in the thought of Samuel Taylor Coleridge Romanticism and Transcendence explores the religious dimensions of imagination in the Romantic tradition both theoretically and in the poetry of Wordsworth and Coleridge J Robert Barth suggests that we may look to Coleridge for the theoretical grounding of the view of religious imagination proposed in this book but that it is in Wordsworth above all that we see this imagination at work Barth first argues that the Romantic imagination with its profound symbolic import of its very nature has religious implications and notes parallels between Coleridge's view of the imagination and that of Ignatius Loyola in his Spiritual Exercises He then turns to the role of religious experience in Wordsworth using The Prelude as a privileged source Next after comparing the conception of humanity and God in Wordsworth and Coleridge Barth considers the role of religious experience and imagery in two of Coleridge's central poetic texts The Rime of the Ancient Mariner and Christabel Finally Barth examines the continuing role of the Romantic idea of the religious imagination today in literature and all the arts linking it with the thought of theologian Karl Rahner and literary critic George Steiner Romanticism and Transcendence brings together literary theory poetry and religious experience areas that are interrelated but are often not seen in relationship By exploring levels of Wordsworth's and Coleridge's poetry that are often ignored Barth provides insight into how and why the imagination was so important to their work He also demonstrates how rich with religious value and meaning poetry and the arts can be The interdisciplinary nature of this important new study will make it useful not only to Wordsworth and Coleridge scholars and other Romantic specialists but also to anyone concerned with the intellectual history of the nineteenth century and to theologians in general **Emily Bronte and the Religious Imagination** Simon

Marsden, 2013-11-21 Readers of Emily Brontë's poetry and of Wuthering Heights have seen in their author variously a devout if somewhat unorthodox Christian a heretic or a visionary mystic of the moors Rather than seeking to resolve this matter Emily Brontë and the Religious Imagination suggests that such conflicting readings are the product of tensions conflicts and ambiguities within the texts themselves Rejecting the idea that a single coherent set of religious doctrines are to be found in Brontë's work this book argues that Wuthering Heights and the poems dramatise individual experiences of faith in the context of a world in which such faith is always conflicted always threatened Brontë's work dramatises the experience of imaginative faith that is always contested by the presence of other voices other worldviews Her characters cling to visionary faith in the face of death and mortality awaiting and anticipating a final vindication an eschatological fulfilment that always lies in a future beyond the scope of the text **Coleridge and the Romantic Newspaper** Heidi Thomson, 2016-09-24 This book examines how Coleridge staged his private woes in the public space of the newspaper It looks at his publications in the Morning Post which first published one of his most famous poems Dejection An Ode It reveals how he found a socially sanctioned public outlet for poetic disappointments and personal frustrations which he could not possibly articulate in any

other way Featuring fresh contextual readings of established major poems original readings of epigrams sentimental ballads and translations analyses of political and human interest stories this book reveals the remarkable extent to which Coleridge used the public medium of the newspaper to divulge his complex and ambivalent private emotions about his marriage his relationship with the Wordsworths and the Hutchinsons and the effect of these dynamics on his own poetry and poetics

The Oxford Handbook of Theology and Modern European Thought Nicholas Adams, George Pattison, Graham Ward, 2013-02-28 Modern European thought describes a wide range of philosophies cultural programmes and political arguments developed in Europe in the period following the French Revolution Throughout this period many of the wide range of modernisms and anti modernisms had a distinctly religious and even theological character not least when religion was subjected to the harshest criticism Yet for all the breadth and complexity of modern European thought and in particular its relations to theology a distinct body of themes and approaches recurred in each generation Moreover many of the issues that took intellectual shape in Europe are now global rather than narrowly European and for good or ill they form part of Europe's bequest to the world from colonialism and the economic theories behind globalisation through to democracy to terrorism This volume attempts to identify and comment on some of the most important of these The thirty chapters are grouped into six thematic parts moving from questions of identity and the self through discussions of the human condition the age of revolution the world both natural and technological and knowledge methodologies concluding with a section looking explicitly at how major theological themes have developed in modern European thought The chapters engage with major thinkers including Kant Hegel Kierkegaard Heidegger Schleiermacher Nietzsche Dostoevsky Barth Rahner Tillich Bonhoeffer Sartre de Beauvoir Wittgenstein and Derrida amongst many others Taken together these new essays provide a rich and reflective overview of the interchange between theology philosophy and critical thought in Europe over the past two hundred years

Pawelski,D. J. Moores,2012-11-08 In much of the critical discourse of the seventies eighties and nineties scholars employed suspicion in order to reveal a given text s complicity with various undesirable ideologies and or psychopathologies Construed as such interpretive practice was often intended to demystify texts and authors by demonstrating in them the presence of false consciousness bourgeois values patriarchy orientalism heterosexism imperialist attitudes and or various neuroses complexes and lacks While it proved to be of vital importance in literary studies suspicious hermeneutics often compelled scholars to interpret eudaimonia or well being variously conceived in pathologized terms At the end of the twentieth century however literary scholars began to see the limitations of suspicion conceived primarily as the discernment of latent realities beneath manifest illusions In the last decade often termed the post theory era there was a radical shift in focus as scholars began to recognize the inapplicability of suspicion as a critical framework for discussions of eudaimonic experiences seeking out several alternative forms of critique most of which can be called despite their differences a hermeneutics of affirmation In such alternative reading strategies scholars were able to explore configurations of eudaimonia not by dismissing them as bad politics or psychopathology but in complex ways that have resulted in a new eudaimonic turn a trans disciplinary phenomenon that has also enriched several other disciplines The Eudaimonic Turn builds on such work offering a collection of essays intended to bolster the burgeoning critical framework in the fields of English Comparative Literature and Cultural

Studies by stimulating discussions of well being in the post theory moment The volume consists of several examinations of literary and theoretical configurations of the following determinants of human subjectivity and the role these play in facilitating well being values race ethics morality aesthetics class ideology culture economics language gender spirituality sexuality nature and the body Many of the authors compellingly refute negativity bias and pathologized interpretations of eudaimonic experiences or conceptual models as they appear in literary texts or critical theories Some authors examine the eudaimonic outcomes of suffering marginalization hybridity oppression and or tragedy while others analyze the positive effects of positive affect Still others analyze the aesthetic response and or the reading process in inquiries into the role of language use and its impact on well being or they explore the complexities of strength resilience and other positive character traits in the face of struggle suffering and othering

Theology, Horror and Fiction Jonathan Greenaway, 2020-12-10
Longlisted for the 2022 International Gothic Association's Allan Lloyd Smith Prize Surpassing scholarly discourse surrounding the emergent secularism of the 19th century Theology Horror and Fiction argues that the Victorian Gothic is a genre fascinated with the immaterial Through close readings of popular Gothic novels across the 19th century Frankenstein Wuthering Heights Dracula and The Picture of Dorian Gray among others Jonathan Greenaway demonstrates that to understand and read Gothic novels is to be drawn into the discourses of theology Despite the differences in time place and context that informed the writers of these stories the Gothic novel is irreducibly fascinated with religious and theological ideas and this angle has been often overlooked in broader scholarly investigations into the intersections between literature and religion Combining historical theological awareness with interventions into contemporary theology particularly around imaginative apologetics and theology and the arts Jonathan Greenaway offers the beginnings of a modern theology of the Gothic

Narnia and the Fields of Arbol Matthew Dickerson, David O'Hara, 2008-12-19 An exploration of the Chronicles of Narnia and the Space Trilogy that enriches our understanding of how to care for our world Alan Jacobs author of Breaking Bread with the Dead In Narnia and the Fields of Arbol The Environmental Vision of C S Lewis authors Matthew Dickerson and David O'Hara illuminate an important yet overlooked aspect of the author's visionary work They go beyond traditional theological discussions of Lewis's writing to investigate themes of sustainability stewardship of natural resources and humanity's relationship to wilderness The authors examine the environmental and ecological underpinnings of Lewis's work by exploring his best known works of fantasy including the seven books of the Chronicles of Narnia and the three novels collectively referred to as the Space Trilogy Taken together these works reveal Lewis's enduring environmental concerns and Dickerson and O'Hara offer a new understanding of his pioneering style of fiction Narnia and the Fields of Arbol the first book length work on the subject finds the author's legacy to have as much in common with the agrarian environmentalism of Wendell Berry as it does with the fantasy of J R R Tolkien In an era of increasing concern about deforestation climate change and other environmental issues Lewis's work remains as pertinent as ever The widespread adaption of his work in film lends

credence to the author's staying power as an influential voice in both fantastical fiction and environmental literature. With *Narnia* and the *Fields of Arbol*, Dickerson and O'Hara have written a timely work of scholarship that offers a fresh perspective on one of the most celebrated authors in literary history. Both revelatory and a pleasure to read, Robert Siegel award-winning author of *The Whalesong Trilogy* — **George Eliot's Spiritual Quest in *Silas Marner*** J. H. Mazaheri, 2012-11-30. Based on K. Barth's definition of faith and R. Bultmann's existentialist theology, J. H. Mazaheri has attempted to reveal G. Eliot's profound religious and spiritual quest by focusing on the short but powerful novel *Silas Marner*. The critic believes that her thought in the area of religion and theology has not been appreciated enough by critics and that a postmodern reading is necessary in order to understand it. So, through a close textual reading, the author shows not only the affinities G. Eliot had with Coleridge and Wordsworth already mentioned by others but also with Schleiermacher and Kierkegaard. The novelist clearly distinguishes between religion and superstition; if she strongly rejects the latter, she believes in the reality and good aspects of the former. Indeed, she demythologizes Christianity in a positive way and implicitly offers a new definition of religion. On the other hand, although she admired and translated Feuerbach's *The Essence of Christianity*, she differed from him as much as she did from Strauss, whom she also translated. This essay on *Silas Marner* proposes thus a new approach to G. Eliot's thought while stressing the qualities of her art, especially in the way she uses allegory, irony, and free indirect speech.

Subjectivity and the Political Gavin Rae, Emma Ingala, 2017-10-12. Despite or quite possibly because of the structuralist, post-structuralist, and deconstructionist critiques of subjectivity, master signifiers, and political foundations, contemporary philosophy has been marked by a resurgence in interest in questions of subjectivity and the political. Guided by the contention that different conceptions of the political are at least implicitly committed to specific conceptions of subjectivity, while different conceptions of subjectivity have different political implications, this collection brings together an international selection of scholars to explore these notions and their connection. Rather than privilege one approach or conception of the subjectivity-political relationship, this volume emphasizes the nature and status of the and in the subjectivity and the political schema. By thinking from the place between subjectivity and the political, it is able to explore this relationship from a multitude of perspectives, directions, and thinkers to show the heterogeneity, openness, and contested nature of it. While the contributions deal with different themes or thinkers, the themes/thinkers are linked historically and/or conceptually, thereby providing coherence to the volume. Thinkers addressed include Arendt, Butler, Levinas, Agamben, Derrida, Kristeva, Adorno, Gramsci, Mill, Hegel, and Heidegger, while the subjectivity-political relation is engaged with through the mediation of the law, political ethics, politics, theological-political, inside/outside, subject/person, and individual/institution relationships, as well as through concepts such as genius, happiness, abjection, and ugliness. The original essays in this volume will be of interest to researchers in philosophy, politics, political theory, critical theory, cultural studies, history of ideas, psychology, and sociology.
