Rome Amanda Claridge, 1998 The largest archaeological site in the world Rome includes such breathtaking structures as the Capitoline Hill the Roman Forum the Colosseum the Mausoleums of Augustus and Hadrian the Circus Maximus and the Catacombs Maps diagrams **Rome** , 1998 **Rome and The Guidebook Tradition** Anna Blennow, Stefano Fogelberg Rota, 2019-04-01 To this day no comprehensive academic study of the development of guidebooks to Rome over time has been performed This book treats the history of guidebooks to Rome from the Middle Ages up to the early twentieth century It is based on the results of the interdisciplinary research project Topos and Topography led by Anna Blennow and Stefano Fogelberg Rota From the case studies performed within the project it becomes evident that the guidebook as a phenomenon was formed in Rome during the later Middle Ages and early Renaissance The elements and rhetorical strategies of guidebooks over time have shown to be surprisingly uniform with three important points of development a turn towards a more user friendly structure from the seventeenth century and onward the so called Baedeker effect in the mid nineteenth century and the introduction of a personalized guiding voice in the first half of the twentieth century Thus the guidebook tradition is an unusually consistent literary oeuvre which also forms a warranty for the authority of every new guidebook In

this respect the guidebook tradition is intimately associated with the city of Rome with which it shares a constantly renovating yet eternally fixed nature Perspectives on Public Space in Rome, from Antiquity to the Present Day Jan Gadeyne, 2016-04-22 This volume provides readers interested in urban history with a collection of essays on the evolution of public space in that paradigmatic western city which is Rome Scholars specialized in different historical periods contributed chapters in order to find common themes which weave their way through one of the most complex urban histories of western civilization Divided into five chronological sections Antiquity Middle Ages Renaissance Baroque Modern and Contemporary the volume opens with the issue of how public space was defined in classical Roman law and how ancient city managers organized the maintenance of these spaces before moving on to explore how this legacy was redefined and reinterpreted during the Middle Ages The third group of essays examines how the imposition of papal order on feuding families during the Renaissance helped introduce a new urban plan which could satisfy both functional and symbolic needs The fourth section shows how modern Rome continued to express strong interest in the control and management of public space the definition of which was necessarily selective in this vastly extensive city The collection ends with an essay on the contemporary debate for revitalizing Rome's eastern periphery Through this long term chronological approach the volume offers a truly unique insight into the urban development of one of Europe's most important cities and concludes with a discuss of the challenges public space faces today after having served for so many centuries as a driving force in urban history *Trajan* Nicholas Jackson, 2022-04-30 Until the publication of this captivating biography no such volume on Trajan's life has been tailored to the general reader The unique book illuminates a neglected period of ancient Roman history featuring a comprehensive array of maps illustrations and photographs to help orientate and bring the text to life Trajan rose from fairly obscure beginnings to become the emperor of Rome He was born in Italica an Italic settlement close to modern Seville in present day Spain and is the first Roman Emperor to be born outside of Rome His remarkable rise from officer to general and then to emperor in just over 20 years reveals a shrewd politician who maintained absolute power Trajan's success in taking the Roman Empire to its greatest expanse is highlighted in this gripping biography Trajan's military campaigns allowed the Roman Empire to attain its greatest military political and cultural achievements The book draws on novel theories recent evidence and meticulous research including field visits to Italy Spain Germany and Romania to ensure accurate vivid writing that transports the reader to Trajan's territory **Rome** Andrew Leach, 2016-11-02 Andrew Leach's Rome is the first book in Polity's exciting new Cities in World History series which aims to provide the general reader and traveller with historically informed companions to the world's greatest cities Most city guides are good on practical details but very thin when it comes to recounting the histories of cities and contextualizing the buildings and sites for which they are famous These new books from Polity bridge the gulf between guide and history by offering concise and accessible accounts written by some of the world's leading historians Rome has a history unmatched in richness by any city on the globe It looms large in the world's

cultural imagination and for millennia it has been a meeting point of great cultures a place where myth mixes freely with history leaving neither unscathed In this compact history Leach demonstrates what most visitors to the Eternal City will instinctively understand that the buildings streets monuments and gardens of this ancient city give the visitor moments of direct communion with its past He reveals the long twisting history of Rome through its ruins art works and monuments its metro stations and modern apartment blocks Each chapter takes the reader on a physical journey invoking Rome in different moments of its life Engaging historical narrative is supplemented with maps and photos making Rome an indispensable companion for those who want to dig below the city s surface *Pax and the Politics of Peace* Hannah Cornwell,2017-07-13

Perhaps in defiance of expectations Roman peace pax was a difficult concept that resisted any straightforward definition not merely denoting the absence or aftermath of war it consisted of many layers and associations and formed part of a much greater discourse on the nature of power and how Rome saw her place in the world During the period from 50 BC to AD 75 covering the collapse of the Republic the subsequent civil wars and the dawn of the Principate the traditional meaning and language of peace came under extreme pressure as pax was co opted to serve different strands of political discourse This volume argues for its fundamental centrality in understanding the changing dynamics of the state and the creation of a new political system in the Roman Empire moving from the debates over the content of the concept in the dying Republic to discussion of its deployment in the legitimization of the Augustan regime first through the creation of an authorized version controlled by the princeps and then the ultimate crystallization of the pax augusta as the first wholly imperial concept of peace Examining the nuances in the various meanings applications and contexts of Roman discourse on peace allows us valuable insight into the ways in which the dynamics of power were understood and how these were contingent on the political structures of the day However it also demonstrates that although the idea of peace came to dominate imperial Rome s self representation such discourse was nevertheless only part of a wider discussion on the way in which the Empire conceptualized itself The Cesnola Collection of Cypriot Art: Terracotta Oil Lamps Christopher S. Lightfoot,2021-05-21

The fourth catalogue in a series that documents the renowned Cesnola Collection of Cypriot Art this book focuses on the collection s 453 terracotta oil lamps dating from the Classical Hellenistic Roman and Early Byzantine periods The rich iconography on many of these common everyday objects provides a rare look into daily life on Cyprus in antiquity and highlights the island s participation in Roman artistic and cultural production Each lamp is illustrated and the accompanying text addresses typology decoration and makers marks on each of these objects that provide new insights into art craft and trade in the ancient Mediterranean **Lonely Planet Rome** Lonely Planet,Duncan Garwood,Alexis Averbuck,Virginia Maxwell,2019-12-01 Lonely Planet The world s number one travel guide publisher Lonely Planet s Rome is your passport to the most relevant up to date advice on what to see and skip and what hidden discoveries await you Gaze at some of Rome s most spectacular works of art at the Museo e Galleria Borghese experience the awe inspiring amphitheatre that is the

Death of Caesar Barry Strauss, 2015-03-03 In this story of the most famous assassination in history the last bloody day of the Roman Republic has never been painted so brilliantly The Wall Street Journal Julius Caesar was stabbed to death in the Roman Senate on March 15 44 BC the Ides of March according to the Roman calendar He was says author Barry Strauss the last casualty of one civil war and the first casualty of the next civil war which would end the Roman Republic and inaugurate the Roman Empire The Death of Caesar provides a fresh look at a well trodden event with superb storytelling sure to inspire awe The Philadelphia Inquirer Why was Caesar killed For political reasons mainly The conspirators wanted to return Rome to the days when the Senate ruled but Caesar hoped to pass along his new powers to his family especially Octavian The principal plotters were Brutus Cassius both former allies of Pompey and Decimus The last was a leading general and close friend of Caesar's who felt betrayed by the great man He was the mole in Caesar's camp But after the assassination

everything went wrong The killers left the body in the Senate and Caesar s allies held a public funeral Mark Antony made a brilliant speech not Friends Romans Countrymen as Shakespeare had it but something inflammatory that caused a riot The conspirators fled Rome Brutus and Cassius raised an army in Greece but Antony and Octavian defeated them An original new perspective on an event that seems well known The Death of Caesar is one of the most riveting hour by hour accounts of Caesar s final day I have read An absolutely marvelous read The Times London **The Roman Forum** David Watkin,2012-06-01 One of the most visited sites in Italy the Roman Forum is also one of the best known wonders of the Roman world Watkin examines the roles of the ancient remains while revealing what the standing structures embody including the medieval Renaissance and Baroque churches as well as the nearby monuments that have important histories of their own Dynasty Tom Holland,2015-10-20 Author and historian Tom Holland returns to his roots in Roman history and the audience he cultivated with Rubicon his masterful witty brilliantly researched popular history of the fall of the Roman republic with Dynasty a luridly fascinating history of the reign of the first five Roman emperors Dynasty continues Rubicon s story opening where that book ended with the murder of Julius Caesar This is the period of the first and perhaps greatest Roman Emperors and it s a colorful story of rule and ruination running from the rise of Augustus through to the death of Nero Holland s expansive history also has distinct shades of I Claudius with five wonderfully vivid and in three cases thoroughly depraved Emperors Augustus Tiberius Caligula Claudius and Nero featured along with numerous fascinating secondary characters Intrigue murder naked ambition and treachery greed gluttony lust incest pageantry decadence the tale of these five Caesars continues to cast a mesmerizing spell across the millennia *Campus Martius* Paul W. Jacobs (II),Diane Atnally Conlin,2014 This book explores the factors that contributed to the transformation of the Campus Martius into a space filled with extraordinary Roman architectural structures **Archaeology and the Ministry of Paul** David A. deSilva,2025-05-20 A fundamental principle of biblical interpretation is the importance of context historical literary and canonical But an often neglected source of context for understanding Scripture is the field of archaeology The physical and cultural world we inhabit affects us deeply and that was no less true for the original writers and readers of Scripture Archaeology provides insights into important questions like What did these believers see day to day What messages did they receive from their environment What social practices influenced them In this first of three planned volumes New Testament scholar David deSilva uses archaeological findings to explore the places the apostle Paul ministered and his audiences lived This visually compelling and beautifully designed book contains more than 250 full color photographs of sites and artifacts deSilva focuses on the fruits of archaeology in regard to the sites associated with the ministry of Paul in Acts and in Paul s own writings The combination of photos and text helps readers understand the real life situations Paul addressed This volume will be an important supplemental textbook for courses on the New Testament and for anyone who wants to better understand the lived context of Paul and his readers **Divus Claudius** Suetonius,2001-03-15 Suetonius biography is a rich

offering of both solid fact and the prejudicial anecdotes that his contemporaries and the generation that followed thought worth repeating raw material for exploring the man and his reign This commentary provides context for the text s abundant information but form is not neglected and attention is given to Suetonius intelligent and conscious marshalling of his material and guidance offered to students reading the biographer s often densely compressed style **Monumental Journey**
