Story, 2022-04-05 Reprint of the original first published in 1864 *Interpreting basic buildings* Caniggia Gianfranco, Maffei Gian Luigi, 2017-09-11 This volume codifies the method to read building structures that have appeared in the past as spontaneous consciousness level in a progression of scalar sizes ranging from buildings and clusters of buildings to urban organisms and the territory Focusing on past architecture is the field of process classification that is the key to using history in working as architects in the modern world We wish to extract the laws of behaviour formation and mutation of manmade structuring on the various scales of man s work as we consider this knowledge to be the only possible solution to the architectural crisis that has dragged on for over two centuries It results in planning based on reviving the tradition of producing buildings not as a dogmatic adaptation to past building methods but intended to contemporaneously fit our work into the continuity of laws and behaviour codified in our cultural area these laws can only be understood and consequently by carefully reading the built environment that surrounds us Roman Domestic Art and Early House Churches David L. understandings and accounts of contemporary policy and building practice to provide a comprehensive account of this common but overlooked building. The merchant's house in northern European cities, the Asian shophouse, the apartment building on New York avenues, typical apartment buildings in Rome and in Paris, this variety of shop houses along with the commonality of attributes that form them mean that the hybrid phenomenon is as much a social and economic one as it is an architectural one. Professionals, city officials and developers are taking a new look at buildings that allow for higher densities and mixed use. Describing exemplary contemporary projects and issues pertaining to their implementation as well as the background, cultural variety and urban attributes, this book will benefit designers dealing with mixed use buildings as well as academics and students.

Romans Christian A. Eberhart, 2025-04-05 Can a feminist interpretation of Romans discover anything new? In this volume, Christian Eberhart pays special attention to the fact that Paul entrusted Phoebe, a gentile woman, with the task of delivering the letter to Rome. There she would have been the person who recited it aloud and by heart in front of various audiences. Yet as the leader of a congregation in Corinth, Phoebe had likely also been involved in the process of composing the letter, as some passages reveal. This multifaceted engagement of a woman gives new meaning to the vision of human society in Romans that celebrates the full participation of women and men, Jews and gentiles, weak and strong, and free and slave.

The Republican Aventine and Rome's Social Order Lisa Mignone, 2016-05-31 A new consideration of life on the Republican era Aventine Hill uncovers a diverse urban landscape.

Cities and the Grand Tour Rosemary Sweet, 2012-10-04 A fascinating study of how British travellers experienced, described and represented the cities they visited on the Grand Tour.

Rome's Holy Mountain Jason Moralee, 2018 Rome's Holy Mountain is the first book to chart the history of the Capitoline Hill in Late Antiquity from the third to the seventh centuries CE. It investigates both the lived-in and dreamed-of realities of the hill in an era of fundamental political, religious and social change.
