Seventeenth Century Alain Mérot, 1995-01-01 Recent studies and exhibitions combined with the discovery of work by hitherto little known artists have enabled Merot to take a fresh look at the period and to suggest a new configuration The great names of the period Poussin Vouet Le Sueur de La Tour Mignard are located in relation to other developments Merot includes discussion of the impact of contemporary literature and political philosophical and social influences The foundation of the Royal Academy of Painting in 1648 and the influence of Mazarin on artistic developments are considered with other issues of status patronage and connoisseurship The book provides a panorama of the period the text is profusely illustrated in colour and accompanied by a comprehensive bibliography **Fascination with the Persecutor** Emilio Gentile, 2021-12-07

In 1933 George L Mosse fled Berlin and settled in the United States where he went on to become a renowned historian at the University of Wisconsin Madison Through rigorous and innovative scholarship Mosse uncovered the forces that spurred antisemitism racism nationalism and populism His transformative work was propelled by a desire to know his own persecutors and has been vital to generations of scholars seeking to understand the cultural and intellectual origins and mechanisms of Nazism This translation makes Emilio Gentile s groundbreaking study of Mosse s life and work available to English language readers A leading authority on fascism totalitarianism and Mosse s legacy Gentile draws on a wealth of published and unpublished material including letters interviews lecture plans and marginalia from Mosse s personal library Gentile details how the senior scholar eschewed polemics and employed rigorous academic standards to better understand fascism and the catastrophe of the modern man how masculinity transformed into a destructive ideology As long as wars are waged over political beliefs in popular culture Mosse s theories of totalitarianism will remain as relevant as ever *Histoire Du Spectacle en Europe (1580-1750)* Pierre Béhar, Helen Watanabe-O'Kelly, 1999 *Valentin de Boulogne* Annick Lemoine, Keith Christiansen, 2016-10-07 Following Caravaggio s death in 1610 the French artist Valentin de Boulogne 1591 1632 emerged as one of the great champions of naturalistic painting The eminent art historian Roberto Longhi honored him as the

most energetic and passionate of Caravaggio's naturalist followers In Rome Valentin who loved the tavern as much as the painter's palette fell in with a rowdy confederation of artists but eventually received commissions from some of the city's most prominent patrons It was in this artistically rich but violent metropolis that Valentin created such masterworks as a major altarpiece in Saint Peter's Basilica and superb renderings of biblical and secular subjects until his tragic death at the age of forty one cut short his ascendant career With discussions of nearly fifty works representing practically all of his painted oeuvre Valentin de Boulogne Beyond Caravaggio explores both the the artist's superlative depictions of daily life and the tumultuous context in which they were produced Essays by a team of international scholars consider his key attributions to European painting his devotion to everyday objects and models from life his technique of staging pictures with the immediacy of unfolding drama and his place in the pantheon of French artists An extensive chronology surveys the rare extant documents that chronicle his biography while individual entries help situate his works in the contexts of his times Rich with incident and insight and beautifully illustrated in Valentin's complex suggestive paintings Valentin de Boulogne Beyond Caravaggio reveals a seminal artist a practitioner of realism in the seventeenth century who prefigured the naturalistic modernism of Gustave Courbet and Edouard Manet two centuries later

The Renaissance in the Nineteenth Century Victoria University (Toronto, Ont.). Centre for Reformation and Renaissance Studies, 2003 The nineteenth century witnessed rapid economic and social developments profound political and intellectual upheaval and startling innovations in art and literature As Europeans peered into an uncertain future they drew upon the Renaissance for meaning precedents and identity Many claimed to find inspiration or models in the Renaissance but as we move across the continent's borders and through the century's decades we find that the Renaissance was many different things to many different people This collection brings together the work of sixteen authors who examine the many Renaissances conceived by European novelists and poets artists and composers architects and city planners political theorists and politicians businessmen and advertisers The essays fall into three groups Aesthetic Recoveries of Strategic Pasts The Renaissance in Nineteenth Century Culture Wars and Material Culture and Manufactured Memories

Art and Identity in Early Modern Rome Jill Burke, 2017-07-05 From the late fifteenth to the late seventeenth century Rome was one of the most vibrant and productive centres for the visual arts in the West Artists from all over Europe came to the city to see its classical remains and its celebrated contemporary art works as well as for the opportunity to work for its many wealthy patrons They contributed to the eclecticism of the Roman artistic scene and to the diffusion of Roman artistic styles in Europe and beyond Art and Identity in Early Modern Rome is the first book length study to consider identity creation and artistic development in Rome during this period Drawing together an international cast of key scholars in the field of Renaissance studies the book adroitly demonstrates how the exceptional quality of Roman court and urban culture with its elected monarchy its large foreign population and unique sense of civic identity interacted with developments in the visual arts With its distinctive chronological

span and uniquely interdisciplinary approach **Art and Identity in Early Modern Rome** puts forward an alternative history of the visual arts in early modern Rome one that questions traditional periodisation and stylistic categorisation Hafsids and Habsburgs in the Early Modern Mediterranean Cristelle L. Baskins, 2022-11-24 This book explores an anonymous sixteenth century portrait of Muley al Hassan the Hafsid king of Tunis ca 1528 1550 that bears witness to relations between North Africa the Habsburgs and the Ottomans While Muley al Hassan appears frequently in the vast literature on Charles V Habsburg he is overshadowed by the emperor Here he emerges as a protagonist a figure whose shifting reputation can be traced well into the seventeenth century Images of the King of Tunis circulated in broadsheets ephemeral images made for triumphal entries manuscripts tapestry designs engravings and books The ceaseless production of Tunisian imagery allowed Europeans to face their North African counterparts through scenes of battle but also through imaginary encounters and festive cross dressing This book shows how portraits of Hafsid rulers challenge assumptions about the absolute divide between Christian and Muslim sovereign and subject the familiar and the foreign and they put a face on the entangled histories of the early modern Mediterranean

Painting as a Way of Life Richard Neer, 2025-03-19 Neer uncovers a key moment in the history of early modern art when painting was understood to be a tool for self transformation and for living a philosophical life In this wide ranging study Richard Neer shows how French painters of the seventeenth century developed radically new ways to connect art perception and ethics Cutting across traditional boundaries of classicism and realism Neer addresses four case studies Nicolas Poussin renowned for marrying ancient philosophy and narrative painting Louise Moillon who pioneered French still life in the 1630s Georges de La Tour a painter of intense and introspective nocturnes and the Brothers Le Nain specialists in genre and portraiture who inspired Courbet Manet and other painters of modern life Setting these artists in dialogue with Montaigne Descartes Pascal and others ranging from the studios of Rome to the streets of Paris this book provides fresh accounts of essential artworks some well known others neglected and new ways to approach the relation of art theory and daily life

Theology, Politics and Letters at the Crossroads of European Civilization G. Cerny, 2012-12-06 The Character of Seventeenth Century French Protestantism and the Place of the Huguenot Refuge following the Revocation of the Edict of Nantes Thirty seven years ago the late Emile G Leonard regretted that there were so few historical studies of seventeenth century French Protestantism and no general 1 historical synthesis for the period as a whole At the time Leonard s observation was accurate Seventeenth century French Protestantism traditionally remained a questionable and problematical subject for historians All too frequently historians neglected it in favor of emphasizing its origins in the second half of the sixteenth century and its renaissance since the French Revolution When the rare historian broke his silence and considered French Protestantism in the seventeenth century was meager and generally ambivalent or negative The historiographer his treatment of seventeenth century French Protestantism could only cite the outstanding works of Jean Pannier and Orentin Douen which taken together emphasized the new pre eminence of Parisian Protestantism

in the seventeenth century and the genuine works of synthesis by John Vienot and Matthieu Lelievre which again had to be placed side by side in order to complete coverage of the whole of the seventeenth century The only true intellectual history of seventeenth century French Protestantism was the study by Albert Monod which however dealt with the second half of the century and then only in the broad context of both Protestant and Catholic thought responding to the challenge of modern rationalism

Making and Moving Sculpture in Early Modern Italy KelleyHelmstutler DiDio,2017-07-05 In recent years art historians have begun to delve into the patronage production and reception of sculptures sculptors workshop practices practical aesthetic and esoteric considerations of material and materiality and the meanings associated with materials and the makers of sculptures This volume brings together some of the top scholars in the field to investigate how sculptors in early modern Italy confronted such challenges as procurement of materials their costs shipping and transportation issues and technical problems of materials along with the meanings of the usage hierarchies of materials and processes of material acquisition and production Contributors also explore the implications of these facets in terms of the intended and perceived meanings for the viewer patron and or artist A highlight of the collection is the epilogue an interview with a contemporary artist of large scale stone sculpture which reveals the similar challenges sculptors still encounter today as they procure manufacture and transport their works

Poussin and the Poetics of Painting Jonathan Unglaub,2006-02-06 This book examines how Poussin cultivated a poetics of painting from the literary culture of his own time and especially through his response to the work of Torquato Tasso Tasso's poetic discourses were the most important source for Poussin's theory of painting Poussin does not merely illustrate Tasso's verse but cultivates pictorial means to refashion the poet's metaphors of desire Offering new interpretations of these works this book also investigates Poussin's larger literary culture and how this context illuminates the artist's response to contemporary poetic texts especially in his mythological paintings
