Ronsard's Hymnes Philip Ford, 1997 An Introduction to 16th-century French Literature and Thought Neil Kenny, 2014-02-25 The age of Shakespeare Cervantes Erasmus Luther and Machiavelli produced in France too some of Europe's greatest ever literature and thought Montaigne's Essays Rabelais comic fictions Ronsard's poetry Calvin's theology These and numerous other extraordinary writings emerged from and contributed to cultural upheavals the movement usually known as the Renaissance which sought to revive ancient Greek and Roman culture for present day purposes religious reform including the previously unthinkable rejection of Catholicism by many in the Reformation culminating in decades of civil war in France the French language's transformation into an instrument for advanced abstract thought This book introduces this vibrant literature and thought via an apparent paradox Most writers were profoundly concerned to improve life in the here and now socially politically morally spiritually Yet they often tried to do so by making detours in their writing to other times and places antiquity heaven and hell the hidden recesses of Nature the cosmos or the future the remote location of an absent loved one the newly discovered Americas The point was to show readers that the only way to live in the here and now was to connect it to larger realities cosmic spiritual and historical **The Renaissance Epic and the Oral Past** Anthony Welch, 2012-11-13 This book offers a close survey of the changing audiences modes of reading and cultural expectations that shaped epic writing in the sixteenth and seventeenth centuries According to Anthony Welch the theory and practice of epic poetry in this period including little known attempts by many epic poets to have their work orally recited or set to music must be understood in the context of Renaissance musical humanism Welch's approach leads to a fresh perspective on a literary culture that stood on the brink of a new relationship with antiquity and on the history of music in the early modern era *Epic Arts in Renaissance France* Phillip John Usher, 2014 *Epic Arts in Renaissance France* examines the relationship between art and literature in 16th century France and considers how the epic genre became public via realisations in various other art forms **Iconology, Neoplatonism, and the Arts in the Renaissance** Berthold Hub, Sergius Koderer, 2020-09-23 The mid twentieth century saw a change in paradigms of art history iconology The main claim of this novel trend in art history was that renowned Renaissance artists such as Botticelli Leonardo or Michelangelo created imaginative syntheses between their art and contemporary cosmology philosophy theology and magic The Neoplatonism in the books by Marsilio Ficino and Giovanni Pico della Mirandola became widely acknowledged for its lasting influence on art It thus became common knowledge that Renaissance artists were not exclusively concerned with problems intrinsic to their work but that their artifacts encompassed a much larger intellectual and cultural horizon This volume brings together historians concerned with the history of their own discipline and also those whose research is on the art and culture of the Italian Renaissance itself with historians from a wide variety of specialist fields in order to engage with the contested field of iconology The book will be of interest to scholars working in art history Renaissance history Renaissance studies

historiography philosophy theology gender studies and literature **The Judgment of Palaemon** Philip Ford, 2013 In Virgil's third Eclogue Palaemon concludes the poetry competition between Menalcas and Damoetas by saying that he cannot choose between them a judgment that is emblematic of the contest between Neo Latin and vernacular poetry in Renaissance France Both forms of poetry draw on similar roots both are equally accomplished and the contest between them is largely amicable The Judgment of Palaemon illustrates the almost symbiotic relationship between Renaissance Latin and French poetry while exploring poets motivation for choosing one language over another the different challenges each form of writing involved and the extent of the collaboration between different language communities It focuses on some of the major writers of the period as well as less known ones and on genres specific to humanist poetry It shows that composing in Latin was often considered more natural than writing in the vernacular at a time when many Frenchmen's mother tongue was a non standard French dialect or distinct language Book jacket **Transformations of Memory and Forgetting in**

Sixteenth-Century France Nicolas Russell, 2011-04-29 This book proposes that in a number of French Renaissance texts produced in varying contexts and genres we observe a shift in thinking about memory and forgetting Focusing on a corpus of texts by Marguerite de Navarre Pierre de Ronsard and Michel de Montaigne it explores several parallel transformations of and challenges to traditional discourses on the human faculty of memory Throughout Classical Antiquity and the Middle Ages a number of influential authors described memory as a powerful tool used to engage important human concerns such as spirituality knowledge politics and ethics This tradition had great esteem for memory and made great efforts to cultivate it in their pedagogical programs In the early sixteenth century this attitude toward memory started to be widely questioned The invention of the printing press and the early stages of the scientific revolution changed the intellectual landscape in ways that would make memory less important in intellectual endeavors Sixteenth century writers began to question the reliability and stability of memory They became wary of this mental faculty which they portrayed as stubbornly independent mysterious unruly and uncontrollable an attitude that became the norm in modern Western thought as is illustrated by the works of Descartes Locke Freud Proust Foucault and Nora for example Writing in this new intellectual landscape Marguerite de Navarre Ronsard and Montaigne describe memory not as a powerful tool of the intellect but rather as an uncontrollable mental faculty that mirrored the uncertainty of human life Their characterization of memory emerges from an engagement with a number of traditional ideas about memory Notwithstanding the great many differences in concerns of these writers and in the nature of their texts they react against or transform their classical and medieval models in similar ways They focus on memory's unruly side the ways that memory functions independently of the will They associate memory with the fluctuations of the body the organic soul rather than the stability of the mind the intellectual soul In their descriptions of memory these authors both reflect and contribute to a modern understanding of and attitude towards this mental faculty Published by University of Delaware Press Distributed worldwide by Rutgers University Press **Bicultural Literature**

of detailed investigation Making Money in Sixteenth-Century France Jotham Parsons, 2015-02-06 Coinage and currency abstract and socially created units of value and power were basic to early modern society By controlling money the people sought to understand and control their complex expanding and interdependent world In *Making Money in Sixteenth Century France* Jotham Parsons investigates the creation and circulation of currency in France The royal Cour des Monnaies centralized monetary administration expanding its role in the emerging modern state during the sixteenth century and assuming new powers as an often controversial repository of theoretical and administrative expertise The Cour des Monnaies Parsons shows played an important role in developing the contemporary understanding of money as a source of both danger and opportunity at the center of economic and political life More practically the Monnaies led generally successful responses to the endemic inflation of the era and the monetary chaos of a period of civil war Its work investigating and prosecuting counterfeiters shone light into a picaresque world of those who used the abstract and artificial nature of money for their own ends Parsons's broad multidimensional portrait of money in early modern France also encompasses the literature of the age in which money's arbitrary and dangerous power was a major theme *The Oxford Handbook of Greek and Roman Mythography* R. Scott Smith, Stephen M. Representing Avarice in Late Renaissance France Jonathan Patterson, 2015 Why did people talk so much about avarice in late Renaissance France nearly a century before Moliere s famous comedy *L Avare* As wars and economic crises ravaged France on the threshold of modernity avarice was said to be flourishing as never before Yet by the late sixteenth century a number of French writers would argue that in some contexts avaricious behaviour was not straightforwardly sinful or harmful Considerations of social rank gender object pursued time and circumstance led some to question age old beliefs Traditionally reviled groups rapacious usurers greedy lawyers miserly fathers covetous women might still exhibit unmistakable signs of avarice but perhaps not invariably in an age of shifting social economic and intellectual values Across a large diverse corpus of French texts Jonathan Patterson shows how a range of flexible genres nourished by humanism tended to offset traditional condemnation of avarice and avares with innovative mitigating perspectives arising from subjective experience In such writings an avaricious disposition could be re described as something less vicious excusable or even expedient In this word history of avarice close readings of well known authors Marguerite de Navarre Ronsard Montaigne and of their lesser known contemporaries are connected to broader socio economic developments of the late French Renaissance c 1540 1615 The final chapter situates key themes in relation to Moliere s *L Avare* As such *Representing Avarice in Late Renaissance France* newly
