examination of issues regarding materials and practices unique to ceramics including their distinct role throughout Japanese cultural history Going beyond descriptive historical treatments of ceramics as the products of individuals or particular styles the closely intertwined chapters also probe the relationship between ceramics and modernity including the ways in which ceramics in Japan were related to their counterparts in Asia and Europe Featuring contributions by leading international specialists this book will be useful to students and scholars of art history design and Japanese studies Ceramics Monthly, 2004-06 In Pursuit of Beauty Metropolitan Museum of Art (New York, N.Y.), 1986 This project is the first comprehensive study of a phenomenon that not only dominated the American arts of the 1870s and 1880s but also helped set the course of such later developments in the United States as the Arts and Crafts movement the indigenous interpretation of Art Nouveau and even the rise of modernism In fact the early history of the Metropolitan its founding its sponsorship of a school of industrial design and its display of decorative works is inextricably tied to the Aesthetic movement and its educational goals In Pursuit of Beauty Americans and the Aesthetic Movement comprised some 175 objects including furniture metalwork stained glass ceramics textiles wallpaper painting and sculpture Some of these had rarely been displayed others although familiar were being shown in new and even startling contexts The exhibition and catalogue are arranged thematically to illustrate both the major styles of a visually rich movement and the ideas that generated its diversity From publisher's description **Celebrate Cincinnati Art** Kenneth R.
