Roosevelt And The United States Modern Times:

A History of the Far East in Modern Times Harold Monk Vinacke, 1928 The Americas in the Modern Age Lester D. Langley, 2003-01-01 In this wide ranging book historian Lester D Langley offers a fresh interpretation of the history of the modern Western hemisphere since the mid nineteenth century He evaluates the dynamics of hemispheric history commencing with the articulation of the two Americas Theodore Roosevelt s America and the contrasting America described by Cuban revolutionary essayist and poet Jos Mart and culminating with recent controversial efforts to forge a united hemisphere Tracing the interactions and influences among the nations of South Central and North America including Canada Langley departs from other accounts of the past 150 years He argues that the seedtime for today s Americas was not the Cold War but the late nineteenth and early twentieth centuries He also contends that it is not what the countries and people of the Americas have in common that binds them instead their cultural political and economic conflicts tie them together Comprehensive and balanced this history of the nations of the Americas offers new insights into both the past and the future of inter American relations *World Wars and the Modern Age* David C. King, American Heritage, 2005-02-04 Experience explosive changes in American history with the people who witnessed them From 1870 to 1950 America experienced an unprecedented era of rapid change and growth A host of remarkable inventions led the way in transforming this nation into a major world power and yet the forces of change often caused tremendous upheaval in people s lives Now World Wars and the Modern Age provides a rare glimpse into the day to day experiences of Americans who lived through Prohibition the Roaring Twenties the Great Depression and two world wars You ll be there as the New York Times offices are filled with electric light for the first time You ll watch as immigrants flock to America s colorful fast growing cities hoping to start anew You ll read a young soldier s account of going over the top during the grim trench warfare of World War I and barely twenty years later an eyewitness account of the surprise Japanese attack on Pearl Harbor that plunged America into World War II From the personal writings of Henry Ford on his Model T automobile to songs of the Depression from FDR s Inaugural Address to a G I s description of D Day World Wars and the Modern Age presents a wealth of period documents including diaries letters articles advertisements speeches and more from both famous figures and ordinary citizens Find out how all of these American voices together helped make this country what it is today AMERICAN HERITAGE is well known for its magazine on American history as well as its many highly acclaimed books including the American Heritage Illustrated History of the United States and the American Heritage Illustrated History of the Presidents **Planet Neptune and the Modern Us Presidents: Franklin Roosevelt to Barack Obama** Suzanne Angioli, 2016-04-05 While studying the astrological birth charts of all the US presidents I discovered that those of the thirteen modern US presidents from Franklin Roosevelt to Barack Obama all had the natal Sun the planet most associated with ones basic identity making an aspect certain designated degrees between two planets to their natal Neptune This was surprising since I would have thought that politicians

particularly those aspiring to the presidency would have an overwhelming emphasis on the Sun Mars aspect but not on the Sun Neptune aspect What I discovered in my research was that good politicians are not warriors Sun Mars per se who use the techniques of warfare to muscle their way through adversity Rather they are good actors Sun Neptune who are essentially chameleons Sun Neptune operating in the foggy Neptune realm of subtlety Neptune and seduction using their sensitivity Neptune and charm Neptune to serve their intuitive Neptune sides to try to achieve their goals It became apparent that a good politician is excellent at assuming different roles in order to fit a given political situation and move his agenda forward The Sun in aspect to Neptune is not unusual but there is no aggregate population that has 100 percent of its members with this aspect like the modern presidents I was intrigued with this occurrence and thus set out to research their individual biographies to see just how this aspect played out in their lives After all it seemed to be almost a prerequisite for being elected to the modern Oval Office

A Companion to the Gilded Age and Progressive Era Christopher McKnight Nichols, Nancy C. Unger, 2017-01-10 A Companion to the Gilded Age and Progressive Era presents a collection of new historiographic essays covering the years between 1877 and 1920 a period which saw the U S emerge from the ashes of Reconstruction to become a world power The single definitive resource for the latest state of knowledge relating to the history and historiography of the Gilded Age and Progressive Era Features contributions by leading scholars in a wide range of relevant specialties Coverage of the period includes geographic social cultural economic political diplomatic ethnic racial gendered religious global and ecological themes and approaches In today s era often referred to as a second Gilded Age this book offers relevant historical analysis of the factors that helped create contemporary society Fills an important chronological gap in period based American history collections

A Cultural History of Democracy in the Modern Age Eugenio Biagini, Gary Gerstle, 2022-12-15 This volume explores democracy in the 20th century examining the triumph crises recovery and resilience of democracy and its associated cultures in this period From 1920 democracy became the hegemonic discourse in political cultures to the extent that even its enemies claimed its legacy The end of empires ushered in an unprecedented globalization of democratic aspirations Barriers of gender and race were gradually removed and greater equality gave new meaning to citizenship Yet already in 1922 democracy was on its back foot with the rise of fascism Even after the latter s defeat in 1945 liberal democracy died wherever communist democracy triumphed The situation changed again from 1989 but democratic hubris was then checked by the rise of a new enemy populism The paradox is that the century of democracy s triumph was also that of its near final defeat while the peace and stability that everybody desired and many expected as the outcome of the extension of democracy were at best intermittent and geographically limited Each chapter takes a different theme as its focus sovereignty liberty and the rule of law the common

good economic and social democracy religion and the principles of political obligation citizenship and gender ethnicity race and nationalism democratic crises revolutions and civil resistance international relations and democratic politics beyond the polis These ten different approaches to democracy since 1920 offer a global synoptic and probing exploration of the subject
