Rooted Against The Wind Personal Essays:

Rooted Against the Wind Gloria Jean Wade-Gayles, 1997-10-31 In these beautifully written essays Gloria Wade Gayles is at times painfully candid as she confronts such controversial subjects as rape homophobia interracial relationships and even looking and acting too young for her age Yet what emerges from each piece is a powerful connection to her community which serves as her well spring of strength sheltering her faith **Girls Like Us** Gina Misiroglu,2010-10-14 We all have moments from childhood that have molded our perceptions of ourselves and our lives In Girls Like Us forty accomplished and influential women share these tender and uplifting moments from their own childhoods and teenage years Isabel Allende tells of her parents priceless gift in encouraging her to express her creativity Fave Wattleton describes how a checkered and difficult childhood shaped her into the determined leader she is today novelist Amy Tan explores the life of a young girl and her relationship to her mother in The Joy Luck Club The book includes photographs of some of the contributors at the age they appear in their stories as well as brief biographies of each Girls Like Us celebrates the poignant coming of age moments experienced by prominent women of this century This book is a great anthology for everyone wishing to cultivate and remember what it is to be young again The Trouble Between Us Winifred Breines, 2006-04-06 Inspired by the idealism of the civil rights movement the women who launched the radical second wave of the feminist movement believed as a bedrock principle in universal sisterhood and color blind democracy Their hopes however were soon dashed To this day the failure to create an integrated movement remains a sensitive and contested issue In The Trouble Between Us Winifred Breines explores why a racially integrated women s liberation movement did not develop in the United States Drawing on flyers letters newspapers journals institutional records and oral histories Breines dissects how white and black women s participation in the movements of the 1960s led to the development of separate feminisms. Herself a participant in these events Breines attempts to reconcile the explicit professions of anti-racism by white feminists with the accusations of mistreatment ignorance and neglect by African American feminists Many radical white women unable to see beyond their own experiences and idealism often behaved in unconsciously or abstractly racist ways despite their passionately anti-racist stance and hard work to develop an interracial movement As Breines argues however white feminists racism is not the only reason for the absence of an interracial feminist movement Segregation black women s interest in the Black Power movement class differences and the development of identity politics with an emphasis on difference were all powerful factors that divided white and black women By the late 1970s and early 1980s white feminists began to understand black feminism s call to include race and class in gender analyses and black feminists began to give white feminists some credit for their political work Despite early setbacks white and black radical feminists eventually developed cross racial feminist political projects Their struggle to bridge the racial divide provides a model for all Americans in a multiracial society Black Feminist Interventions to Decolonize the Westernized University Assata Zerai, 2025-03-30 Decoloniality is a perspective that

challenges the colonial foundation and neoliberal operations of the westernized university today In Black Feminist Interventions to Decolonize the Westernized University Epistemology Research Methodology and Pedagogy Assata Zerai highlights feminist decoloniality as a tool to promote institutional transformation indirectly through changes in research and teaching in the social sciences directly by centering social justice within higher education Reflecting on three decades of scholarship Zerai adapts principles of decolonial theory to scholarship pedagogy and praxis transnationally focusing on higher education in the USA and South Africa She intentionally centers students who have been racially and culturally excluded in these contexts and provides evidence of university students experiencing intersectional microaggressions including gendered ableist and queerphobic anti Blackness Zerai argues that faculty must appreciate such realities in order to affirm students and create learning environments in which all may thrive Further this book argues that ethical commitments to minoritized students and their communities must be reflected in humanizing research practices Finally Zerai reviews ways in which scholars have begun to move their disciplines from a focus on traditional canons of the modernist era to embrace decolonial sensibilities in their academic work This book highlights these new approaches within the social sciences to promote justice equity accessibility diversity and inclusion JEADI within higher education **Autobiographers** Emmanuel S. Navigating Interracial Borders Erica Chito Childs explores the social worlds of black white interracial couples and examines the ways that collective attitudes shape private relationships Drawing on personal accounts in depth interviews focus group responses and cultural analysis of media sources she provides compelling evidence that sizable opposition still exists toward black white unions Disapproval is merely being expressed in more subtle color blind terms Childs reveals that frequently the same individuals who attest in surveys that they approve of interracial dating will also list various reasons why they and their families wouldn't shouldn't and couldn't marry someone of another race Even college students who are heralded as racially tolerant and open minded do not view interracial couples as acceptable when those partnerships move beyond the point of casual dating Popular films Internet images and pornography also continue to reinforce the idea that sexual relations between blacks and whites are deviant Well researched candidly written and enriched with personal narratives Navigating Interracial Borders offers important new insights into the still fraught racial hierarchies of contemporary society in the **United States** In Praise of Our Teachers Gloria Wade-Gayles, 2003-05-15 A joyous collection of tributes both original and previously published that celebrate the gifts of remarkable teachers Teachers have always made an indelible impression on their charges Now in this new book Gloria Wade Gayles has brought together a winning and touching collection of pieces about teachers and teaching with inspiring and dramatic anecdotes woven in Each story offers a new and unique perspective on some of our country's most beloved teachers With pieces by legendary writers like Langston Hughes and Alice Walker we see how a strong teacher can turn a nervous child into a world renowned artist Robin D G Kelley frames a short history of busing with a sweet story about having a crush on his third grade teacher Marian Wright Edelman celebrates Howard Zinn s teaching style his insistence on exploration and questioning and Zinn himself provides an opinion on the profession he has practiced for most of his life But we also hear from a diverse group of students writers who were part of the first wave of integration in their school system and immigrants who learned to speak English and participate in American culture in their schools We get stories from Catholic schools pubic schools college classrooms and more In this age of standardized testing In Praise of Our Teachers is a wonderful reminder of the immeasurable influence that teachers will always have on their Black Nonfiction Books, Their Authors, and Their Publishers Harry B. Dunbar, 2001-11-06 Undaunted by the students Fight Harry G. Lefever, 2005 Undaunted by the Fight is a study of small but dedicated group of Spelman College students and faculty who between 1957 and 1967 risked their lives compromised their grades and jeopardized their careers to make Atlanta and the South a more just and open society Lefever argues that the participation of Spelman's students and faculty in the Civil Rights Movement represented both a continuity and a break with the institution's earlier history On the one hand their actions were consistent with Spelman's long history of liberal arts and community service yet on the other hand as his research documents their actions represented a break with Spelman's traditional non-political stance and challenged the assumption that social changes should occur only gradually and within established legal institutions For the first time in the

eighty plus years of Spelman s existence the students and faculty who participated in the Movement took actions that directly challenged the injustices of the social and political status quo Too often in the past the Movement literature including the literature on the Atlanta Movement focused disproportionately on the males involved to the exclusion of the women who were equally involved and who in many instances initiated actions and provided leadership for the Movement Lefever concludes his study by saying that Spelman s activist students and faculty succeeded to the extent they did because they kept their eyes on the prize They endured the struggle he says and in so doing eventually won many prizes some personal others social Undaunted they liberated themselves but at the same time they liberated their school their city and thelarger society
