Rooted In The Land Essays On Community And Place:

Rooted in the Land William Vitek, Wes Jackson, 1996-01-01 This book is dedicated to the notion that human lives are enriched by participation in a social community that is integrated into the natural landscape of a particular place The writers explore the loss of community the philosophical foundations of communities Amish communities and the current renewal of community life

The Church and the Crisis of Community Theresa F. Latini, 2011 Contemporary society is in crisis its structures broken and fragmented and its people overstimulated overstressed and thirsty for true communion with the sacred and with one another Yet although more than eighty five percent of congregations in the United States conduct small group ministry too many of these groups begin with no clear sense of purpose structure or spiritual focus and end by veering away from Christian tradition and unknowingly settling for shallow versions of popular Christianity In *The Church and the Crisis of Community* Theresa Latini lays out both a theoretical groundwork and a practical guideline for successful small group ministry Examining the latest sociological research and the real life practices of small groups in six congregations she shows how well developed groups those with mission statements leadership training and solid organizational structure can be a truly effective tool in the church's work of transforming broken and shallow forms of community into life giving life sustaining relationships with God and others

The Essential Agrarian Reader Norman Wirzba, 2003-01-01 Combining insights from the disciplines of education law history urban and regional planning economics philosophy religion ecology politics and agriculture these essays develop a sophisticated critique of modern culture's relationship with the land while offering practical alternatives

Liberal Learning and the Art of Self-Governance Emily Chamlee-Wright, 2015-11-19 Concerns over affordability and accountability have tended to direct focus away from the central aims of liberal learning such as preparing minds for free inquiry and inculcating the habits of mind practical skills and values necessary for effective participation in civil society The contributors to this volume seek to understand better what it is that can be done on a day to day basis within institutions of liberal learning that shape the habits and practices of civil society The central argument of this volume is that institutions of liberal learning are critical to a developing and flourishing civil society It is within these civil society incubators that the habits of open discourse are practiced and honed that a collaborative often contentious commitment to truth seeking serves as the rules that govern our work together that the rules of personal and widespread social cooperation are established practiced and refined Many have made this argument as it relates to community based learning and we explore that theme here as well But acquiring and practicing the habits of civil society recur within and throughout the college context in the classrooms in college governance structures in professional associations in collaborative research in the residence halls and on the playing field To put it another way when they are at their best institutions of liberal learning are contexts in which students learn how to live in a free society and learn the art of self governance

Narnia and the Fields of Arbol Matthew Dickerson, David O'Hara, 2008-12-19 An exploration of the Chronicles

of Narnia and the Space Trilogy that enriches our understanding of how to care for our world Alan Jacobs author of *Breaking Bread with the Dead* In *Narnia and the Fields of Arbol* The Environmental Vision of C S Lewis authors Matthew Dickerson and David O Hara illuminate an important yet overlooked aspect of the author s visionary work They go beyond traditional theological discussions of Lewis s writing to investigate themes of sustainability stewardship of natural resources and humanity s relationship to wilderness The authors examine the environmental and ecological underpinnings of Lewis s work by exploring his best known works of fantasy including the seven books of the *Chronicles of Narnia* and the three novels collectively referred to as the *Space Trilogy* Taken together these works reveal Lewis s enduring environmental concerns and Dickerson and O Hara offer a new understanding of his pioneering style of fiction *Narnia and the Fields of Arbol* the first book length work on the subject finds the author s legacy to have as much in common with the agrarian environmentalism of Wendell Berry as it does with the fantasy of J R R Tolkien In an era of increasing concern about deforestation climate change and other environmental issues Lewis s work remains as pertinent as ever The widespread adaption of his work in film lends credence to the author s staying power as an influential voice in both fantastical fiction and environmental literature With *Narnia and the Fields of Arbol* Dickerson and O Hara have written a timely work of scholarship that offers a fresh perspective on one of the most celebrated authors in literary history Both revelatory and a pleasure to read Robert Siegel award winning author of *The Whalesong Trilogy*

Sharing the Harvest Elizabeth Henderson, Robyn Van En, 2007 Looks at partnerships between local small farms and nearby consumers who become members or subscribers in support of the farm offering advice on acquiring land organizing handling the harvest and money and legal matters

The Earth Only Endures Jules Pretty, 2012-05-04 A blend of clear eyed science and poetic eloquence *The Earth Only Endures* follows in the tradition of Jared Diamond and E O Wilson Jules Pretty too is hopeful but on the condition that we understand the nature of the self imposed threats to our future and the rational basis for human survival To say that this is essential reading is rather like saying that a compass is essential to navigation David W Orr author of *Design on the Edge* Jules Pretty s remarkable new book is both universal and parochial by turn and beautifully written It is a philosophical inventory of what we have recentl

Seeds of the Kingdom Anna L. Peterson, 2005-11-17 In these skeptical and disillusioned times there are still groups of people scattered throughout the world who are trying to live out utopian dreams These communities challenge the inevitability and morality of dominant political and economic models By putting utopian religious ethics into practice they attest to the real possibility of social alternatives In *Seeds of the Kingdom* Anna L Peterson reflects on the experiences of two very different communities one inhabited by impoverished former refugees in the mountains of El Salvador and the other by Amish farmers in the Midwestern U S What makes these groups stand out among advocates of environmental protection political justice and sustainable development is their religious orientation They aim without apology to embody the reign of God on earth The Salvadoran community is grounded in Roman Catholic social thought while the Amish adhere to Anabaptist

tradition Peterson offers a detailed portrait of these communities history social organization religious life environmental values and agricultural practices She discovers both practical and ideological commonalities in these two comparatively successful and sustainable communities including a strong collective identity deep attachment to local landscapes a desire to preserve non human as well as human lives and perhaps unexpectedly a utopian horizon that provides both goals and the hope of reaching them By examining the process by which people struggle to live according to a transcendent value system she sheds light on both the actual and the potential place of religion in public life Peterson argues that the Amish and Salvadoran communities geographically and culturally removed from the industrialized West have relevance for the political and environmental problems of the developed world These communities have succeeded in the face of significant internal and external challenges offering important practical and theoretical lessons on how to achieve ecological sustainability and social justice in the wider world

From the Farm to the Table Gary Holthaus,2014-04-23 A portrait of the realities of agricultural life in today s world based on interviews with more than forty farm families In this book dozens of farm families from America s heartland detail the practices and values that relate to their land work and communities Their stories reveal that those who make their living in agriculture despite stereotypes of provincialism perpetuated by the media are savvy to the influence of world politics on local issues Gary Holthaus demonstrates how outside economic governmental legal and business developments play an increasingly influential if not controlling role in every farmer s life The swift approval of genetically modified crops by the federal government the formation of huge agricultural conglomerates and the devastating environmental effects of chemical fertilizers pesticides and herbicides are just a few issues buffeting family farms From the Farm to the Table explores farmers experiences to offer a deeper understanding of how we can create sustainable and vibrant land based communities by adhering to fundamental agrarian values Tells the story of modern agriculture through engaging interviews with men and women who make a living farming in southeastern Minnesota In a tone reminiscent of Wendell Berry s A Place on Earth he examines the far reaching effects of genetically modified organisms free trade agreements that nurture transnational corporate profit dependence on fossil fuel derived chemicals and the toll all this has taken on the land and farmers Library Journal

Civic Communion David E. Procter,2006-05-12 Blending theory and case studies Civic Communion looks at community building in rural America and how civic minded people come together through a variety of ways such as hosting and attending festivals addressing conflict planning the community and maintaining heritage mu

Conversations In The Rainforest Richard Peterson,2019-03-06 A rich interdisciplinary study of Central African land ethics incorporating conversations with local rainforest inhabitants that yield vibrant new insights into the dilemmas of sustaining Africa s rainforests and its people In Conversations in the Rainforest Richard B Peterson combines interdisciplinary research and intimate first hand convers

Community Social Work Practice in an Urban Context Melvin Delgado,1999-09-16 Community social work practice based on a capacity enhancement model offers tremendous

potential for unifying communities consisting of groups from very different cultural backgrounds and in the process of doing so make physical changes in the community Community Social Work Practice in An Urban Context aims to teach graduate students with an emphasis on community and urban social work how to create positive community environments in marginalized urban based communities The use of murals gardens playgrounds and sculptures for example provide social workers with an opportunity to identify engage and plan services with communities These projects in turn are based upon a community s strengths and represent an effort at developing a community s capacity to help itself with assistance from professionals
