

THE ROOTS OF CAPITALISM

REVISED EDITION

JOHN CHAMBERLAIN

What are the sources of our "affluent society?" This fast-paced, provocative survey looks at the men, ideas and achievements that have shaped the American capitalist system and reminds us of the indissoluble link between our political liberty and unfettered economic enterprise.

Roots Of Capitalism Revised Edition

Jomo K.S., Ben Fine

Roots Of Capitalism Revised Edition:

Roots of Radicalism, 1996-01-01 When *Roots of Radicalism* first appeared Nathan Glazer noted this is a major work on the relationship between radical politics and psychological development He went on to predict no one will be able to write about the left and radicalism without taking it into account Now finally available in a paperback edition with a new introduction the reader can evaluate just how prescient the authors are in their review of the student radical movement Replete with interviews of radical activists their provocative book paints a disturbing picture The book raises critical questions about much previous social science research and ultimately about the reason an entire generation of Americans was so infatuated with the radical mystique Robert A Nisbet called the book an extraordinarily skilled fusion of historical and psychological approaches to one of the most explosive decades in American social history Robert E Lane added it will be prudent to read Rothman and Lichter along with our well worn copies of Keniston and Fromm Writing in *Political Psychology* Dan E Thomas argued the book is arguably the most important and definitely the most provocative book in the field of personality and politics to have appeared in the past several years Recently in *Forbes* Peter Brimelow referred to *Roots of Radicalism* as Rothman's main achievement as a political scientist his definitive study of the 1960s New Left In the new introduction the authors review the initial reception of *Roots of Radicalism* and its subsequent treatment They also review the major literature on the causes course and consequences of the student movement of the 1960s which has appeared since the publication of the book Finally they update their own analysis

The Long Nineteenth Century, 1750-1914 Trevor R. Getz, Bennett Sherry, 2025-01-09 Part of The Making of the Modern World series this innovative textbook offers an introduction to the 19th century world with a focus on human perspectives through social and cultural histories Taking a period of great transition and change it shows how the actions and experiences of different communities and individuals across the world constructed contested and were affected by major trends and events With a thematic approach and focusing on social and cultural histories it connects these major trends and events to experiences of the people who lived through them Tackling politics religion economics environment empire and more with this book students will critically encounter important global trends and key events from the Industrial Revolution to the Taiping Heavenly Kingdom and the dawn of the First World War This fully revised second edition includes updated historiography throughout plus A new chapter on mobility and migration Expanded discussion on the interplay between imperialism and the environment New further reading sections and notes at the end of each chapter A primary source and interlude section in each chapter to provide historical context Additional maps and images *The Long Nineteenth Century 1750 1914* offers an introduction to this era of global transformation and the crucible of modernity

[The Origin of Capitalism](#) Ellen Meiksins Wood, 2002-06-17 Contains extensive new material especially on imperialism anti Eurocentric history capitalism and the nation state and the differences between capitalism and non capitalist commerce Traces the links between the origin of capitalism and globalization

ecological degradation and the current agricultural crisis **Roots of Realism** Benjamin Frankel,2013-10-11 Political realism sees politics as a permanent struggle for power and security The essays in this volume examine the tradition of realist political analysis of international relations from the Sophists and Thucydides to the modern era **History and Revolution** Jim Wolfreys, Mike Haynes,2020-05-05 In History and Revolution a group of respected historians confronts the conservative revisionist trends in historical enquiry that have been dominant in the last twenty years Ranging from an exploration of the English French and Russian revolutions and their treatment by revisionist historiography to the debates and themes arising from attempts to downplay revolution s role in history History and Revolution also engages with several prominent revisionist historians including Orlando Figes Conrad Russell and Simon Schama This important book shows the inability of revisionism to explain why millions are moved to act in defence of political causes and why specific political currents emerge and is a significant reassertion of the concept of revolution in human development **Routledge Library Editions: The History of Economic Thought** Various Authors,2022-07-30 The volumes in this set originally published between 1925 and 1990 draw together research by leading academics in the area of the history of economic thought The volumes encompass many different schools of economic thought with a focus on individual economic thinkers such as Friedrich Hayek Adam Smith and Piero Sraffa This set will be of interest to students of economics particularly students of the history of economic thought **Managing the Wealth of Nations** Philipp Robinson Rössner,2023-03-27 This pioneering work debunks the neoliberal origin myth of how capitalism came into the world The Modern World-System I Immanuel Wallerstein,2011-06-10 Immanuel Wallerstein s highly influential multi volume opus The Modern World System is one of this century s greatest works of social science An innovative panoramic reinterpretation of global history it traces the emergence and development of the modern world from the sixteenth to the twentieth century Blood and Dirt Jared Davidson, Picture for a minute every artwork of colonial New Zealand you can think of Now add a chain gang Hard labour men guarded by other men with guns Men moving heavy metal Men picking at the earth Over and over again This was the reality of nineteenth century New Zealand Forced labour haunts the streets we walk today and the spaces we take for granted The unfree work of prisoners has shaped New Zealand s urban centres and rural landscapes and Te Moana nui a Kiwa the Pacific in profound and unsettling ways Yet these stories are largely unknown a hidden history in plain sight Blood and Dirt explains for the first time the making of New Zealand and its Pacific empire through the prism of prison labour Jared Davidson asks us to look beyond the walls of our nineteenth and early twentieth century prisons to see penal practice as playing an active central role in the creation of modern New Zealand Journeying from the Hoki mission station in the Bay of Islands through to Milford Sound vast forest plantations and on to Parliament itself this vivid and engaging book will change the way you view New Zealand *Reader's Guide to British History* David Loades,2020-12-17 The Reader sGuide to British History is the essential source to secondary material on British history This resource contains over 1 000 A Z entries on the history of

Britain from ancient and Roman Britain to the present day Each entry lists 6 12 of the best known books on the subject then discusses those works in an essay of 800 to 1 000 words prepared by an expert in the field The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication *Global Economic History* Tirthankar Roy, Giorgio Riello, 2024-09-05 Guiding the reader through the many guises of global economic history this book uncovers its key issues debates and subjects With contributions from leading scholars around the world it delves into the economic histories of Africa Europe Asia and the Americas from the 16th to the 20th centuries From the environment to The Great Divergence finance consumption trade industrialisation commodities and labour regimes it demonstrates the global nature of economic history and highlights how indispensable it is and has been Updated throughout this new edition boasts an expanded introduction and four new chapters on capitalism and political economy European empires and colonialism North Africa and the Middle East and the North American Economy A comprehensive introduction to global economic history this textbook provides students with a confident grasp of the field its key debates and essential issues

New Energies Stephen G. Gross, Andrew Needham, 2023-02-28 Over the past 250 years energy transitions have occurred repeatedly the rise of coal in the nineteenth century the explosion of oil in the twentieth century the nuclear utopianism of the 1950s and 1960s These transitions have been as revolutionary as any political or economic upheaval and they required changes in infrastructure and behavior Yet new energies never wholly replace old ones This volume historicizes energy production and consumption while demonstrating how energy use has reshaped everything from social life and economic organization to political governance It foregrounds the importance of energy for big historical questions about capitalism democracy inequality the environment and identity and it argues that energy systems themselves merit attention as key agents of historical change Given the urgency of climate change and the central position that energy plays in causing and potentially solving global warming this volume engages history as a discipline in the debate over what may be most monumental energy transition of all time the shift away from fossil fuels **Religion, Theology, and Class** J.

Rieger, 2015-12-11 This important collection of essays addresses the question of why scholars can no longer do without class in religious studies and theology and what we can learn from a renewed engagement with the topic This volume discusses what new discourses regarding notions of gender ethnicity and race might add to developments on notions of class

Wealth Accumulation and Entrepreneurship in the Ottoman Empire, 18th to 20th Centuries Maria Christina Chatziioannou, Sophia Laiou, 2024-12-23 This book provides a significant contribution to our understanding of the Ottoman Empire's economic history particularly through its exploration of local entrepreneurship which brings new perspectives to the economic dynamics of the region This focus adds a valuable dimension to the broader narrative of Mediterranean social and economic developments from the 18th to the 20th century By emphasizing the role of both Muslim and non Muslim agents the work challenges more Eurocentric narratives that have often influenced the historiography of economic activities

in this region The inclusion of Ottoman Turkish and Greek sources underlines the importance of accessing voices and records that have been underutilized in previous studies The fact that this project is a result of Greek Turkish academic cooperation is particularly noteworthy as it promotes a more nuanced and comprehensive view toward shared histories in order to shed light on complex historical phenomena This work will be of interest to scholars of Ottoman and Mediterranean history seeking to explore the nuances of economic and social change from within the Ottoman Empire It will also appeal to a wider audience interested in the history of early entrepreneurial activities and the complex interplay between cultural and economic dynamics in historical contexts Labour Contracts and Labour Relations in Early Modern Central Japan Mary

Louise Nagata,2004-11-23 Based on a collection of labour contracts and other documents this book examines the legal economic and social relations of labour as they developed in the commercial enterprises of Tokugawa Japan The urban focus is Kyoto the cultural capital and smallest of the three great cities of the Tokugawa period but the data comes from a wider region of commercial and castle towns and rural villages in central Japan **Making The Black Jacobins** Rachel

Douglas,2019-09-27 C L R James s The Black Jacobins remains one of the great works of the twentieth century and the cornerstone of Haitian revolutionary studies In Making The Black Jacobins Rachel Douglas traces the genesis transformation and afterlives of James s landmark work across the decades from the 1930s on Examining the 1938 and 1963 editions of The Black Jacobins the 1967 play of the same name and James s 1936 play Toussaint Louverture as well as manuscripts notes interviews and other texts Douglas shows how James continuously rewrote and revised his history of the Haitian Revolution as his politics and engagement with Marxism evolved She also points to the vital significance theater played in James s work and how it influenced his views of history Douglas shows The Black Jacobins to be a palimpsest its successive layers of rewriting renewing its call to new generations **The New Development Economics** Jomo K.S.,Ben Fine,2006 This

volume provides a critique of the post Washington Consensus in neoliberal economics The Delicious History of the Holiday Fred Inglis,2005-11-28 Fred Inglis traces the rise of the holiday from its early roots in the Grand Tour through the coming of Thomas Cook and his Blackpool packages to sex tourism and the hippie trail to Kathmandu The Origins and

Dynamics of Inequality Jon D. Wisman,2022-05-24 Argues that the struggle over income wealth status and privilege inequality has been the principal defining issue in human history and provides a novel framework for understanding inequality today Whereas President Barack Obama declared inequality as the defining issue of our time in The Origins and Dynamics of Inequality Jon D Wisman claims more it is the defining issue of all human history The struggle over inequality has been the underlying force driving human history s unfolding Drawing on the dynamics of inequality Wisman re interprets economic history and society Beyond according inequality the central role in history this book is novel in two other respects First transcending the general failure of social scientists and historians to anchor their work in explicit theories of human behaviour this book grounds the origins and dynamics of inequality in evolutionary psychology or more specifically Darwin s

theory of sexual selection Second this book accords central importance to ideology in legitimating inequality a role typically inadequately addressed by social scientists and historians Because of the central role of inequality in history inequality's explosion over the past forty years has not been an anomaly It is a return to the political dynamics by which elites have since the rise of the state taken practically everything for themselves leaving all others with little more than the means with which to survive Due to elites' persuasive ideology even after workers in advanced capitalist countries gained the franchise to become the overwhelming majority of voters inequality continued to increase Sweeping and provocative Jon D Wisman presents a fresh perspective on why economic inequality exists and how its dynamics have shaped human history

The Oxford Encyclopedia of Economic History Joel Mokyr, 2003 What were the economic roots of modern industrialism Were labor unions ever effective in raising workers' living standards Did high levels of taxation in the past normally lead to economic decline These and similar questions profoundly inform a wide range of intertwined social issues whose complexity scope and depth become fully evident in the Encyclopedia Due to the interdisciplinary nature of the field the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history demographic history business history and the histories of technology migration and transportation The articles all written and signed by international contributors include scholars from Europe Latin America Africa and Asia Covering economic history in all areas of the world and segments of economies from prehistoric times to the present The Oxford Encyclopedia of Economic History is the ideal resource for students economists and general readers offering a unique glimpse into this integral part of world history
