FREDERICK F SIEGEL

# Roots Of Southern Distinctiveness Tobacco And Society In Danville Virginia 1780 1865

**Frederick F. Siegel**

## **Roots Of Southern Distinctiveness Tobacco And Society In Danville Virginia 1780 1865:**

**The Roots of Southern Distinctiveness** Frederick F. Siegel, 1987 *Roots of Southern Distinctiveness Tobacco and Society in Danville Virginia 1780 1865*      **The Roots of Southern Distinctiveness** Frederick F. Siegel,      **Historical Dictionary of the Old South** William L. Richter, 2013-02-28 The South played a prominent role in early American history and its position was certainly strong and proud except for the peculiar institution of slavery Thus it drew away from the rest of an expanding nation and in 1861 declared secession and developed a Confederacy that ultimately lost the war Indeed for some time it was occupied Thus the South has a very mixed legacy with good and bad aspects and sometimes the two of them mixed Which only enhances the need for a careful and balanced approach This can be found in the *Historical Dictionary of the Old South* which first traces its history from colonial times to the end of the Civil War in a substantial chronology Particularly interesting is the introduction which analyzes the rise and the fall the good and the bad as well as the middling and indifferent over nigh on two centuries The details are filled in very amply in over 600 dictionary entries on the politics economy society and culture of the Old South An ample bibliography directs students and researchers toward other sources of information      **Talk about Trouble** Nancy J. Martin-Perdue, Charles L. Perdue, 1996 *Talk about Trouble* presents 61 Writers Project life histories that depict Virginia men and women both blacks and whites and offer a cross section of ages occupations experiences and cultural and class backgrounds Headnotes set the context for each life history and introduce people and themes that link individual events and experiences      *Celeste Parrish and Educational Reform in the Progressive-Era South* Rebecca S. Montgomery, 2018-12-05 *Celeste Parrish and Educational Reform in the Progressive Era South* follows a Civil War orphan s transformation from a Southside Virginia public school teacher to a nationally known progressive educator and feminist In this vital intellectual biography Rebecca S Montgomery places feminism and gender at the center of her analysis and offers a new look at the postbellum movement for southern educational reform through the life of Celeste Parrish Because Parrish s life coincided with critical years in the destruction and reconstruction of the southern social order her biography provides unique opportunities to explore the links between southern nationalism reactionary racism and gender discrimination Parrish s pursuit of higher education and a professional career pitted her against male opponents of coeducation who regarded female and black dependency as central to southern regional distinctiveness When coupled with women s lack of formal political power this resistance to gender equality discouraged progress and lowered the quality of public education throughout the South The marginalization of women within the reform movement headed by the Conference for Education in the South further limited women s contributions to regional change Although men welcomed female participation in grassroots organization much of women s work was segregated in female networks and received less public acknowledgement than the reform work conducted by men Despite receiving little credit for their accomplishments by working on the margins women were able to use the southern movement and its philanthropic sponsors as alternate sources

of influence and power By exploring the consequences of gender discrimination for both educational reform and the influence of southern progressivism Rebecca S Montgomery contributes a nuanced understanding of how interlocking hierarchies of power structured opportunity and influenced the shape of reform in the U S South

**International Bibliography of Business History** Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians

**The Peculiar Democracy** Wallace Hettle, 2001 Too often Wallace Hettle points out studies of politics in the nineteenth century South reinforce a view of the Democratic Party that is frozen in time on the eve of Fort Sumter a deceptively high point of white racial solidarity Avoiding such a Civil War synthesis The Peculiar Democracy illuminates the link between the Jacksonian political culture that dominated antebellum debate and the notorious infighting of the Confederacy Hettle shows that war was the greatest test of populist Democratic Party rhetoric that emphasized the shared interests of white men slaveholder and nonslaveholder alike The Peculiar Democracy analyzes antebellum politics in terms of the connections between slavery manhood and the legacies of Jefferson and Jackson It then looks at the secession crisis through the anxieties felt by Democratic politicians who claimed concern for the interests of both slaveholders and nonslaveholders At the heart of the book is a collective biography of five individuals whose stories highlight the limitations of democratic political culture in a society dominated by the peculiar institution Through narratives informed by recent scholarship on gender honor class and the law Hettle profiles South Carolina s Francis W Pickens Georgia s Joseph Brown Alabama s Jeremiah Clemens Virginia s John Rutherford and Mississippi s Jefferson Davis The Civil War stories presented in The Peculiar Democracy illuminate the political and sometimes personal tragedy of men torn between a political culture based on egalitarian rhetoric and the wartime imperatives to defend slavery

*From Congregation Town to Industrial City* Michael Shirley, 1997-08 A fine addition to the study of urbanization Michael Shirley s book will appeal not only to a regional audience in the South but also to all students of the diverse American experience

AMERICAN HISTORICAL REVIEW

Compelling an important contribution to our understanding of the modernizing of America

JOURNAL OF

INTERDISCIPLINARY HISTORY 17 illustrations

**Yankee Town, Southern City** Steven Elliot Tripp, 1997-02-01 Insightful

The best portrait yet of the elusive and seldom understood world of laboring class culture before during and just after the

Civil War Crandall Shifflett H CivWar One of the most hotly debated issues in the historical study of race relations is the question of how the Civil War and Reconstruction affected social relations in the South Did the War leave class and race hierarchies intact Or did it mark the profound disruption of a long standing social order Yankee Town Southern City examines how the members of the southern community of Lynchburg Virginia experienced four distinct but overlapping events Secession Civil War Black Emancipation and Reconstruction By looking at life in the grog shop at the military encampment on the street corner and on the shop floor Steven Elliott Tripp illustrates the way in which ordinary people influenced the contours of race and class relations in their town A richly textured social history a nuanced portrait of white class and cultural stratification in one southern town and the intersections of those divisions with the broader racial barrier that dominated both ante and postbellum Lynchburg The Journal of Southern History A readable and interesting book that provides a vivid portrait of the evolution of one southern city during this trying period It is a most worthy contribution to the literature of the South and to urban history generally John Ingham Journal of American History

**Writing the Civil War** James M. McPherson, William J. Cooper, Jr., 2021-04-16 Studies diverse topics on the writing of Civil War history No event has transformed the United States more fundamentally or been studied more exhaustively than the Civil War In Writing the Civil War fourteen distinguished historians present a wide ranging examination of the vast effort to chronicle the conflict an undertaking that began with the remembrances of Civil War veterans and has become an increasingly prolific field of scholarship Covering topics from battlefield operations to the impact of race and gender this volume is an informative guide through the labyrinth of Civil War literature The contributors provide authoritative and interpretive evaluations of the study and explication of the struggle that has been called the American Iliad The first four essays consider military history Joseph Thomas Glatthaar writes on battlefield tactics Gary W Gallagher on Union strategy Emory M Thomas on Confederate strategy and Reid Mitchell on soldiers In essays that focus on political concerns Mark E Neely Jr links the military and political with his examination of presidential leadership while Michael F Holt surveys the study of Union politics and George C Rable examines the work on Confederate politics Michael Les Benedict bridges political and societal concerns in his discussion of constitutional questions Phillip Shaw Paludan and James L Roark confront the broad themes of economics and society in the North and South and Drew Gilpin Faust and Peter Kolchin evaluate the importance of gender slavery and race relations Writing the Civil War demonstrates the richness and diversity of Civil War scholarship and identifies topics yet to be explored Noting a surprising dearth of scholarship in several areas the essays point to new directions in the quest to understand the complexities of the most momentous event in American history

**Region, Race and Cities: Interpreting the Urban South** David R. Goldfield, 1997

**The Best American History Essays 2006** Organization of American Historians, 2016-09-23 Ten of the best articles in American history published in 2006 selected from over 300 learned and popular journals Topics range from the general to the specific and cover all aspects of American history from the early days

of the republic through the nineteenth and twentieth centuries These are the questions that today s historians are asking

Born in the Country David B. Danbom,2017-10-01 Updated edition A balanced economic social political and technological history of rural America A splendid book rich with detail Agricultural History Review Through most of its history America has been a rural nation largely made up of farmers David B Danbom s *Born in the Country* was the first and is still the only general history of rural America Ranging from pre Columbian times to the enormous changes of the twentieth century the book masterfully integrates agricultural technological and economic themes with new questions about the American experience Danbom employs the stories of particular farm families to illustrate the experiences of rural people This substantially revised and updated third edition expands and deepens its coverage of the late twentieth and early twenty first centuries focuses on the changes in agriculture and rural life in the progressive and New Deal eras as well as the massive shifts that have taken place since 1945 adds new information about African American and Native American agricultural experiences discusses the decline of agriculture as a productive enterprise and its impact on farm families and communities explores rural culture gender issues agriculture and the environment traces the relationship among farmers agribusiness and consumers In a new and provocative concluding chapter Danbom reflects on increasing consumer disenchantment with and resistance to modern agriculture as well as the transformation of rural America into a place where farmers are a shrinking minority Ultimately he asks whether a distinctive style of rural life exists any longer in the United States A delightful story tracing the social history of U S farmers The book details the attitudes and social life of farm people how they looked at themselves and how the rest of society saw them Forum **The African American Urban Experience** J. Trotter,E.

Lewis,T. Hunter,2004-03-17 From the early years of the African slave trade to America blacks have lived and laboured in urban environments Yet the transformation of rural blacks into a predominantly urban people is a relatively recent phenomenon only during World War One did African Americans move into cities in large numbers and only during World War Two did more blacks reside in cities than in the countryside By the early 1970s blacks had not only made the transition from rural to urban settings but were almost evenly distributed between the cities of the North and the West on the one hand and the South on the other In their quest for full citizenship rights economic democracy and release from an oppressive rural past black southerners turned to urban migration and employment in the nation s industrial sector as a new Promised Land or Flight from Egypt In order to illuminate these transformations in African American urban life this book brings together urban history contemporary social cultural and policy research and comparative perspectives on race ethnicity and nationality within and across national boundaries *Becoming Bourgeois* Frank J. Byrne,2006-10-20 *Becoming Bourgeois* is the first study to focus on what historians have come to call the middling sort the group falling between the mass of yeoman farmers and the planter class that dominated the political economy of the antebellum South Historian Frank J Byrne investigates the experiences of urban merchants village storekeepers small scale manufacturers and their families as well as the

contributions made by this merchant class to the South's economy, culture, and politics in the decades before and the years of the Civil War. These merchant families embraced the South but were not of the South. At a time when Southerners rarely traveled far from their homes, merchants annually ventured forth on buying junkets to northern cities. Whereas the majority of Southerners enjoyed only limited formal instruction, merchant families often achieved a level of education rivaled only by the upper class planters. The southern merchant community also promoted the kind of aggressive business practices that New South proponents would claim as their own in the Reconstruction era and beyond. Along with discussion of these modern approaches to liberal capitalism, Byrne also reveals the peculiar strains of conservative thought that permeated the culture of southern merchants. While maintaining close commercial ties to the North, southern merchants embraced the religious and racial mores of the South. Though they did not rely directly upon slavery for their success, antebellum merchants functioned well within the slave labor system. When the Civil War erupted, southern merchants simultaneously joined Confederate ranks and prepared to capitalize on the war's business opportunities regardless of the outcome of the conflict. Throughout *Becoming Bourgeois*, Byrne highlights the tension between these competing elements of southern merchant culture. By exploring the values and pursuits of this emerging class, Byrne not only offers new insight into southern history but also deepens our understanding of the mutable ties between regional identity and the marketplace in nineteenth-century America.

**Yankee Leviathan** Richard Franklin Bensel, 1990. Contending that intense competition for national political economy control produced secession, this study describes the impact of the American Civil War upon the late nineteenth-century development of central state authority.

**Slavery And Freedom** James Oakes, 2013-04-17. This pathbreaking interpretation of the slaveholding South begins with the insight that slavery and freedom were not mutually exclusive but were intertwined in every dimension of life in the South. James Oakes traces the implications of this insight for relations between masters and slaves, slaveholders and non-slaveholders, and for the rise of a racist ideology.

**The Papers of Jefferson Davis** Jefferson Davis, 2003-11-07. During the last nine months of the Civil War, virtually all of the news reports and President Jefferson Davis's correspondence confirmed the imminent demise of the Confederate States, the nation Davis had striven to uphold since 1861. But despite defeat after defeat on the battlefield, a recalcitrant Congress, nay-sayers in the press, disastrous financial conditions, failures in foreign policy and peace efforts, and plummeting national morale, Davis remained in office and tried to maintain the government even after the fall of Richmond on April 2 until his capture by Union forces on May 10, 1865. The eleventh volume of *The Papers of Jefferson Davis* follows these tumultuous last months of the Confederacy and illuminates Davis's policies, feelings, ideas, and relationships, as well as the viewpoints of hundreds of southerners, critics, and supporters who asked favors, pointed out abuses, and offered advice on myriad topics. Printed here for the first time are many speeches and a number of new letters and telegrams. In the course of the volume, Robert E. Lee officially becomes general in chief, Joseph E. Johnston is given a final command, legislation is enacted to place slaves in the army as soldiers, and peace

negotiations are opened at the highest levels The closing pages chronicle Davis s dramatic flight from Richmond including emotional correspondence with his wife as the two endeavor to find each other en route and make plans for the future in the wreckage of their lives The holdings of seventy different manuscript repositories and private collections in addition to numerous published sources contribute to Volume 11 the fifth in the Civil War period      **Why Confederates Fought** Aaron Sheehan-Dean,2009-08 Despite the massive volume of writing on the American Civil War one of the fundamental questions about it continues to bedevil us Why did non slave holders sacrifice so much to build a slave republic Non slave holders commitment was not marginal they formed the vast majority of soldiers who fought on behalf of the Confederacy Nor was slaver      **Why Confederates Fought** ,

## Unveiling the Power of Verbal Art: An Emotional Sojourn through **Roots Of Southern Distinctiveness Tobacco And Society In Danville Virginia 1780 1865**

In some sort of inundated with monitors and the cacophony of fast interaction, the profound energy and psychological resonance of verbal artistry often diminish into obscurity, eclipsed by the constant onslaught of sound and distractions. Yet, set within the musical pages of **Roots Of Southern Distinctiveness Tobacco And Society In Danville Virginia 1780 1865**, a charming perform of fictional beauty that pulses with natural emotions, lies an memorable trip waiting to be embarked upon. Composed by a virtuoso wordsmith, that enchanting opus guides readers on a psychological odyssey, lightly revealing the latent potential and profound impact stuck within the complex internet of language. Within the heart-wrenching expanse of this evocative analysis, we shall embark upon an introspective exploration of the book is main styles, dissect their fascinating publishing fashion, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.
