The Roots of Urban Discontent Peter Henry Rossi, Richard A. Berk, Bettye K. Eidson, 1974 The City and the Grassroots Manuel Castells, 1983 **Housing and Planning References**, 1974 **Housing and Planning References** United States. Department of Housing and Urban Development. Library, 1974 **Court-ordered School Busing** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Separation of Powers, 1982 **Fairness and Effectiveness in Policing** National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee to Review Research on Police Policy and Practices, 2004-05-06 Because police are the most visible face of government power for most citizens they are expected to deal effectively with crime and disorder and to be impartial Producing justice through the fair and restrained use of their authority The standards by which the public judges police success have become more exacting and challenging Fairness and Effectiveness in Policing explores police work in the new century It replaces myths with research findings and provides recommendations for updated policy and practices to guide it The book provides answers to the most basic questions What do police do It reviews how police work is organized explores the expanding responsibilities of police examines the increasing diversity among police employees and discusses the complex interactions between officers and citizens It also addresses such topics as community policing use of force racial profiling and evaluates the success of common police techniques such as focusing on crime hot spots It goes on to look at the issue of legitimacy how the public gets information about police work and how police are viewed by different groups and how police can gain community trust Fairness and Effectiveness in Policing will be important to anyone concerned about police work policy makers administrators educators police supervisors and officers journalists and interested citizens Crime, Justice, and Society Calvin J. Larson, Gerald R. Garrett, 1996 To find out more information about Rowman Littlefield titles please visit us at www.rowmanlittlefield.com Watching Police, Watching Communities Mike McConville, Dan Shepherd, 2005-08-18 From the early 80s community policing has been held up as a new commitment to the ideals of service and the rejection of coercive policing styles The idea was to encourage a partnership between the public and police in which community needs would be met by officers on local beats Today Government ministers and senior police officers depict Neighbourhood Watch the centrepiece of the scheme as a great success However Watching Police Watching Communities reveals that most schemes are dormant or dead The authors trace the causes of scheme failure to the lack of commitment to community policing by police forces Most importantly they find a police rank and file culture which celebrates aggression machismo and the assertion of authority especially against areas occupied by ethnic minorities and other disadvantaged groups **The Roots of Urban Discontent** Peter Henry Rossi, Richard A. Berk, Bettye K. Eidson, Johns Hopkins University. Center for Metropolitan Planning and Research, 1974 *The First Decade, 1968-1978* Northwestern University (Evanston, Ill.). Center for Urban Affairs, 1978 *Policing Police Violence* Hans van Mastrigt, Niels Uildriks, 2023-12-04 For many years

both police violence and the complaints procedures have been important topics for debate in Britain and elsewhere This book aims to provide a contribution to this debate by analysing the way in which police violence at present is and should be policed On the basis of a case study in Glasgow the authors examine the phenomenon of police violence and the occupational reality in which it can be most adequately controlled The present type of British complaints system was found to have little to offer to the victims of such incidents and to be even counterproductive as a mechanism of control of police behaviour This book discusses the main structural amendments which would enable the complaints procedure to provide a more adequate response It is contended that the police themselves can and should play a major role in the control of police violence and that they should have both the responsibility and opportunity for rectifying what went amiss The implications of his study extend beyond the immediate Glaswegian Scottish and even British context and are of wider interest to all those who are concerned with the issues and problems of police violence policing police misconduct and police accountability in general

Metropolitan Desegregation Robert Green, 2013-11-11 Most of the findings in this book are based on the work of a team of researchers from Urban Affairs Programs at Michigan State University From 1976 to 1981 the team observed the progress of school desegregation in metropolitan Wilmington Delaware which encompasses New Castle County The project was made possible by a grant from the Rockefeller Foundation Division of Social Sciences Metropolitan desegregation is a strategy deserving of national attention because this country's black population has become increasingly concentrated within central cities Desegregation solutions must be found that encompass America's white suburbs as well as its urban areas In a 1977 statement the U S Commission on Civil Rights called metropolitan school desegregation the last frontier to be crossed in the long judicial effort to make equal educational opportunity a living reality Moreover the National Task Force on Desegregation Strategies concluded in 1979 The simple demographic fact is that many large city school districts cannot desegregate by themselves For children in such districts the best hope for attending a desegregated school lies in the implementation of metropolitan desegregation strategies i e desegregation plans which do not stop at the city line but rather encompass at least some of the surrounding suburban areas p 1 The Michigan State University research team began its investigation in New Castle County Delaware after a three judge federal district court ruled that area schools were illegally segregated between districts

The Cooperative Extension Service Paul Warner, James A Christenson, 2019-07-11 The Cooperative Extension Service a publicly supported educational agency is continually struggling to define its proper function and purpose in our changing society Should its mission be broadly based or narrowly focused Should staff members be generalists or specialists Should its clients be primarily rural or urban farm or nonfarm What role should Extension play in the information networks of the twenty first century Professors Warner and Christenson take a broad look at these and other questions concerning where the Extension Service has been how well it is doing and where it ought to go Theirs is first the only comprehensive national survey that looks at the total Extension organization rather than at just one program area

Second it expresses the viewpoint of Extension clients and the public rather than that of the organization's staff and third it combines outside survey information with data recorded in the Extension Management Information System EMIS and other routine agency reports The authors evaluate among other things the extent of public awareness of the agency and its four major program areas agriculture home economics 4 H and community development determine the users and nonusers of the programs and the accessibility of programs to the general population identify the level of satisfaction with existing programs and outline priorities and policy issues for the future

Street-Level Bureaucracy Michael Lipsky, 1983-06-29 Street Level Bureaucracy is an insightful study of how public service workers in effect function as policy decision makers as they wield their considerable discretion in the day to day implementation of public programs

Street-Level Bureaucracy, 30th Anniversary Edition Michael Lipsky, 2010-04-08 First published in 1980 Street Level Bureaucracy received critical acclaim for its insightful study of how public service workers in effect function as policy decision makers as they wield their considerable discretion in the day to day implementation of public programs Three decades later the need to bolster the availability and effectiveness of healthcare social services education and law enforcement is as urgent as ever In this thirtieth anniversary expanded edition Michael Lipsky revisits the territory he mapped out in the first edition to reflect on significant policy developments over the last several decades Despite the difficulties of managing these front line workers he shows how street level bureaucracies can be and regularly are brought into line with public purposes Street level bureaucrats from teachers and police officers to social workers and legal aid lawyers interact directly with the public and so represent the frontlines of government policy In Street Level Bureaucracy Lipsky argues that these relatively low level public service employees labor under huge caseloads ambiguous agency goals and inadequate resources When combined with substantial discretionary authority and the requirement to interpret policy on a case by case basis the difference between government policy in theory and policy in practice can be substantial and troubling The core dilemma of street level bureaucrats is that they are supposed to help people or make decisions about them on the basis of individual cases yet the structure of their jobs makes this impossible Instead they are forced to adopt practices such as rationing resources screening applicants for qualities their organizations favor rubberstamping applications and routinizing client interactions by imposing the uniformities of mass processing on situations requiring human responsiveness Occasionally such strategies work out in favor of the client But the cumulative effect of street level decisions made on the basis of routines and simplifications about clients can reroute the intended direction of policy undermining citizens expectations of evenhanded treatment This seminal award winning study tells a cautionary tale of how decisions made by overburdened workers translate into ad hoc policy adaptations that impact peoples lives and life opportunities Lipsky maintains however that these problems are not insurmountable Over the years public managers have developed ways to bring street level performance more in line with agency goals This expanded edition of Street Level Bureaucracy underscores that despite its challenging nature street level work can be made

to conform to higher expectations of public service **Current Publications in Legal and Related Fields** ,1975 The Encyclopedia of Police Science Jack R. Greene,2007 First published in 1996 this work covers all the major sectors of policing in the United States Political events such as the terrorist attacks of September 11 2001 have created new policing needs while affecting public opinion about law enforcement This third edition of the Encyclopedia examines the theoretical and practical aspects of law enforcement discussing past and present practices **Encyclopedia of Police Science** Jack Raymond Greene,2006-10-23 In 1996 Garland published the second edition of the Encyclopedia of Police Science edited by the late William G Bailey The work covered all the major sectors of policing in the US Since then much research has been done on policing issues and there have been significant changes in techniques and in the American police system Technological advances have refined and generated methods of investigation Political events such as the terrorist attacks of September 11 2001 in the United States have created new policing needs while affecting public opinion about law enforcement These developments appear in the third expanded edition of the Encyclopedia of Police Science 380 entries examine the theoretical and practical aspects of law enforcement discussing past and present practices The added coverage makes the Encyclopedia more comprehensive with a greater focus on today s policing issues Also added are themes such as accountability the culture of police and the legal framework that affects police decision New topics discuss recent issues such as Internet and crime international terrorism airport safety or racial profiling Entries are contributed by scholars as well as experts working in police departments crime labs and various fields of policing **“The” Roots of Urban Discontent** Peter Henry Rossi,1974 *Catalog of Copyright Entries.
