Hawley,2001-08-30 These thirteen essays address possible ramifications arising from the globalization of western notions of gay and lesbian identities Examining postcolonial literature economics and psychology from a queer perspective leads to self reflexive consideration of the canonization of postcolonial studies and queer theory in western academe      **Sociolegal Control of Homosexuality** Donald J. West,Richard Green,2006-04-11 Despite the gains made by gay rights movements throughout the world there are still areas in which homosexuals and their relationships are targeted as immoral and criminal *Sociolegal Control of Homosexuality* a comprehensive up to date examination of governmental and religious reaction to issues of sexual orientation in regions such as Asia and the Middle East not often covered in English language publications includes a sampling of international legislation both proscriptive and liberal the effects of fundamentalist religious movements new scientific information concerning the origin of sexual orientation and much more LIST      Gay Conservatives Kenneth Cimini W,2012-11-12 Discover why LGBT voters support conservative political platforms that don t benefit the LGBT community Recent studies show that the vast majority of the LGBT community considers itself politically liberally Yet nearly 25% of all LGBT voters helped re elect George W Bush in 2004who are these people and why did they make that choice *Gay Conservatives* examines why conservative LGBTs join political groups and support political candidates that not only don t favor policies that benefit

the LGBT community but in some cases advocate prejudicial policies This thought provoking book looks at the impact of group consciousness on conservative LGBTs and how it affects political power and social construction Gay Conservatives uses both quantitative and qualitative studies that center on conservative LGBTs within in the LGBT community while using data collected on liberal LGBTs for comparison purposes Log Cabin Republicans and StoneWall Democrats in several cities were interviewed and an online survey of more than 1 000 LGBTs was conducted by the Gill Foundation in an effort to understand the political identity of conservative LGBTs and how it fits into the bigger picture in the LGBT community The book examines howand whyconservative LGBT activity conflicts with the general interests of the community including the constitutional rights of LGBT individuals to marry whether LGBTs should be allowed to serve openly in the United States military and whether state and local governments should play a more significant role in dealing with hate crimes directed at the LGBT community Topics discussed in Gay Conservatives include group consciousness and minority identity pluralism David Truman the homosexual identity stages the history of the gay liberation movement creating a group identity the Mattachine Society Stonewall the impact of AIDS the rise of Queer Nation the difficulties of coming out and much more Gay Conservatives is an enlightening and educational read for anyone interested in politics and the political behavior of voters in the United States

**Animal Rights/Human Rights** David Nibert,2002-05-28 This accessible and cutting edge work offers a new look at the history of western civilization one that brings into focus the interrelated suffering of oppressed humans and other animals Nibert argues persuasively that throughout history the exploitation of other animals has gone hand in hand with the oppression of women people of color and other oppressed groups He maintains that the oppression both of humans and of other species of animals is inextricably tangled within the structure of social arrangements Nibert asserts that human use and mistreatment of other animals are not natural and do little to further the human condition Nibert s analysis emphasizes the economic and elite driven character of prejudice discrimination and institutionalized repression of humans and other animals His examination of the economic entanglements of the oppression of human and other animals is supplemented with an analysis of ideological forces and the use of state power in this sociological expose of the grotesque uses of the oppressed past and present Nibert suggests that the liberation of devalued groups of humans is unlikely in a world that uses other animals as fodder for the continual growth and expansion of transnational corporations and conversely that animal liberation cannot take place when humans continue to be exploited and oppressed
