Roquefort Adventure:

The Roquefort Adventure Henri Pourrat, 1956 **Cheese and Culture** Paul Kindstedt, 2012-04-01 Behind every traditional type of cheese there is a fascinating story By examining the role of the cheesemaker throughout world history and by understanding a few basic principles of cheese science and technology we can see how different cheeses have been shaped by and tailored to their surrounding environment as well as defined by their social and cultural context Cheese and Culture endeavors to advance our appreciation of cheese origins by viewing human history through the eyes of a cheese scientist There is also a larger story to be told a grand narrative that binds all cheeses together into a single history that started with the discovery of cheese making and that is still unfolding to this day This book reconstructs that 9000 year story based on the often fragmentary information that we have available Cheese and Culture embarks on a journey that begins in the Neolithic Age and winds its way through the ensuing centuries to the present This tour through cheese history intersects with some of the pivotal periods in human prehistory and ancient classical medieval renaissance and modern history that have shaped western civilization for these periods also shaped the lives of cheesemakers and the diverse cheeses that they developed The book offers a useful lens through which to view our twenty first century attitudes toward cheese that we have inherited from our past and our attitudes about the food system more broadly This refreshingly original book will appeal to anyone who loves history food and especially good cheese

Proceedings from the ... Biennial Marschall International Cheese Conference , 1979 *Shaping Modern Times in Rural France* Susan Carol Rogers, 2021-03-09 Challenging the notion that modernization is a homogenizing process Susan Rogers contends that in the course of large scale transformations communities often reproduce and strengthen distinctive cultural and social features To make this argument she focuses on the French farming community of Ste Foy during a period of rapid change 1945 75 Using ethnographic field data and archival material that she collected as a participant observer she finds an intriguing puzzle an allegedly archaic social form the ostal has become increasingly common in the community The ostal a type of family farm organized around an extended stem family household is a variant of the stem family systems associated with preindustrial southern Europe How have Ste Foyans continued to remake this archaic mode as their community grew more prosperous and more involved in national and international markets In showing how the specific identity of a community is reproduced rather than obliterated by modernization the author reveals dialectical relationships between structure and change history and culture and the centralized nation state and regional diversity This analysis addresses anthropologists historians and scholars interested in local politics and economic development

The Oxford Companion to Food Alan Davidson, 2014 Twenty years in the making the first edition of this bestselling reference work appeared in 1999 to worldwide acclaim Combining serious and meticulously researched facts with entertaining and witty commentary it has been deemed unique by chefs and reviewers around the globe It contains both a comprehensive catalog of foodstuffs crackers and cookies named for battles and divas
