Forensic Psychological Assessment in Immigration Court Barton Evans, III, Giselle A. Hass, 2018-04-09 Forensic Psychological Assessment in Immigration Court is an essential specialized guide for psychologists and clinicians who work with immigrants Immigration evaluations differ in many ways from other types of forensic assessments because of the psycholegal issues that extend beyond the individual including family dynamics social context and cross cultural concerns Immigrants are often victims of trauma and require specialized expertise to elicit the information needed for assessment Having spent much of their professional careers as practicing forensic psychologists authors Evans and Hass have compiled a comprehensive text that draws on forensic psychology psychological assessment traumatology family processes and national and international political forces to present an approach for the effective and ethical practice of forensic psychological assessment in

Immigration Court **Personality Disorders in Older Adults** Erlene Rosowsky, Robert C. Abrams, Richard A. Zweig, 2013-03-07 As the average age of the population rises mental health professionals have become increasingly aware of the critical importance of personality in mediating successful adaptation in later life Personality disorders were once thought to age out and accordingly to have an inconsequential impact on the lives of the elderly But recent clinical experience and studies underscore not only the prevalence of personality disorders in older people but the pivotal roles they play in the onset course and treatment outcomes of other emotional and cognitive problems and physical problems as well Clearly mental health professionals must further develop research methods assessment techniques and intervention strategies targeting these disorders and they must more effectively integrate what is being learned from advances in research and theory into clinical practice Inspired by these needs the editors have brought together a distinguished group of behavioral scientists and clinicians dedicated to understanding the interaction of personality and aging Offering a rich array of theoretical perspectives intrapsychic interpersonal neuropsychological and systems they summarize the empirical literature present phenomenological case reports and review psychodynamic cognitive behavioral and pharmacological treatment approaches This comprehensive state of the art guide will be welcomed by all those who must confront the complexity and the challenge of working with this population **The New Rules of Measurement** Susan E. Embretson, Scott L. Hershberger, 1999-02-01 In this volume prominent scholars from both psychology and education describe how these new rules of measurement work and how they differ from the old rules Several contributors have been involved in the recent construction or revision of a major test while others are well known for their theoretical contributions to measurement The goal is to provide an integrated yet comprehensive reference source concerned with contemporary issues and approaches in testing and measurement *Contemporary Rorschach Interpretation* J. Reid Meloy, Marvin W. Acklin, Carl B. Gacono, James F. Murray, 2013-10-31 Appreciation of the beauty and complexity of the human mind when perceiving an ambiguous stimulus led Dr Hermann Rorschach to develop his scientific method eighty years ago Full of gratitude for his brief life and work the editors hope this volume will stand as an idiographic testament to his brilliance for the Rorschach students of the future The contributors are clearly the most notable Rorschach clinicians in practice and their work integrates the Comprehensive System and psychoanalytic methods This book is organized into four sections Within each of the first three sections devoted to psychotic borderline and neurotic disorders respectively the editors and invited authors have contributed Rorschach case studies which vertically cut a character pathology personality disorder or clinical diagnosis through a particular level of personality organization The last section charts the enormously varied course that Rorschach work can navigate from the understanding of a Nobel laureate the pain of trauma and transexuality and the Nazi perversion of youth to the consensus Rorschach in couple s therapy and cutting edge work in neuropsychology Handbook of Forensic Psychology William O'Donohue, Eric R. Levensky, 2004-01-19 Forensic psychology has mushroomed into a diverse and increasingly complex field

that is equal parts law and psychology Psychologists act as expert witnesses in legal cases sometimes without knowing much about the laws involved and legal professionals rely on the assessment of psychologists sometimes without knowing much about how such assessments are made The purpose of this handbook is to provide professionals with current practical and empirically based information to guide their work in forensic settings or to better their understanding of the issues and debates in forensic psychology Divided into four sections the Handbook of Forensic Psychology covers basic issues assessment mental disorders and forensic psychology and special topics The basic issue chapters present a primer on law for the psychologist a primer on psychology for attorneys an overview of ethical issues relevant to forensic psychology and a chapter on forensic report writing The assessment section discusses factors and measures relevant for assessing a variety of behaviors propensities and capabilities including dangerousness violence suicide competency substance abuse PTSD and neuropsychological evaluations as well as discussing interviewing children and child custody evaluations Additional chapters discuss eyewitness testimony recovered memory polygraphs sexual harassment juror selection and issues of ethnicity in forensic psychology

Women Who Kill Lenore Walker, David Shapiro, Amanda Tamares, Brandi Diaz, 2024-10-11 Women rarely kill How and why a woman can be driven to lethal action is often highly complex and misunderstood Many of these women who act lethally are driven to such a point as a last resort following prolonged experiences of child abuse and or domestic violence This book offers insights into these women detailing their motivations their patterns of violence and how they can be aided through psychological evaluation and proper expert testimony The chapters in this volume also include discussions of women who did not kill but were punished as if they had This collection of writings seeks to fill the gaps in research on women who kill This book is beneficial to students and researchers of Psychology including Forensic Psychology It will further aid the field of criminal justice as well as policymakers such that clinicians can provide an enhanced understanding on various psychological and demographic factors which contribute to situations where battered women reach a point where the only option to ensure survival is lethal self defense Finally this book offers clarity as it points out the areas in which the legal system has failed these women The chapters in this book were originally published as a special issue of Journal of Aggression Maltreatment Trauma
