Long March To Nowhere:

The Gospel & Abortion Russell D. Moore, Andrew T. Walker, 2017-01-01 The pro life movement didn't begin in the 1960s but in the Garden of Eden. Abortion has been a divisive issue in American culture since the sexual revolution. Yet the Bible is an unapologetic defender of human dignity. Moreover, Christians have always cared for the unborn, the orphan, and the least among us. The time is now for this generation to reaffirm what believers have always believed: everybody is created in the image of God. So what now? Editors Russell Moore and Andrew T. Walker of the Ethics and Religious Liberty Commission (ERLC) assemble leading voices to frame the issues with a gospel-centered perspective. The Gospel for Life series gives every believer a biblically saturated understanding of the most urgent issues facing our culture today because the gospel is for all of life.

Geopolitics and the Indo-Pacific Region Ashok Kapur, 2024-08-27 Exploring geopolitics of the Indo-Pacific Region, a major hub of global economic, commercial, military, diplomatic, and cultural activities in the 21st century, this textbook provides students with an introduction to the existing debates, frameworks, and issues surrounding the Indo-Pacific. The second edition has been revised, updated, and expanded to explain the major build-up of deterrence hubs during 2022-2023 in the Indo-Pacific Region. The hubs have a clear focus on North Asia (Japan and South Korea), the Taiwan Strait and Taiwan, and the South China Sea, the Philippines, Vietnam, and Australia and India, and the Indian Ocean littoral areas, the Persian Gulf, and the Bay of Bengal. This edition takes into account the effects of the Ukraine-Russia and Israel-Hamas Iran proxy conflicts, the build-up of Russia-China-North Korea-Iran ties, and the naval projections by China and Russia in the North Pacific off the Alaska coast and in relation to Myanmar and Bangladesh, and the Gulf, Red Sea, and areas within the purview of maritime security and NATO. The present century is critical with the introduction of missiles and nuclear submarine technology into IPR and by the fragmentation of arms control and nuclear and missile non-proliferation arrangements of the 1960s-2000 period. This volume predicts that China's oft-proclaimed rise to global hegemonic status is not inevitable because of its many economic, social problems, and foreign policy dilemmas. Nor is World War III inevitable because no one seeks unlimited warfare, but the regions in conflict will likely remain on a low boil. However, problem-solving and crisis resolution will remain problematic, keeping the 21st century at its toes due to the inability of regional powers to unite for the common good. Complete with a list of further reading, *Geopolitics and the Indo-Pacific Region* fills a gap in the market and will be of great interest to upper-year level undergraduates, postgraduate students, and researchers studying international relations, IPR, geopolitics, Asian politics, and Asian security studies.

Pension Politics Patrik Marier, 2008-03-25 Population ageing and slower economic growth have raised serious questions about the willingness and ability of governments to maintain current social policies. Within this new reality, discussions on the future of public pensions have been predominant in political debates across Europe. This book explains why certain countries have been able to radically transform their pension system while others have simply altered parameters. To answer this question, an extensive comparative analysis including more than 60

interviews was conducted in Belgium France Sweden and the UK This empirical data provides an interesting contrast between reforms Parametric reforms have stemmed from the creation of pension administrations outside the traditional state apparatus in France and Belgium and the resulting inclusion of social partners while the state administrations of Sweden and the UK where debates have been internalised have led to programmatic reforms Two controversial findings of this book include an explanation for the lack of influence on the part of the labour movement in the 1994 98 Swedish reform and a rejection of arguments claiming that policy change will be minimal with coalition governments Finally the conclusion seeks to extend the applicability of the model to other industrialized countries This book will be of interest to students and scholars of public policy specifically social policy political economy the welfare state and comparative politics **A History of the 20th**

Century Jeremy Black,2022-08-01 From one of the world s leading historians comes an ambitious and sweeping history of the world in the 20th century Ranging from the world wars to the traumas of decolonization and the technological triumphs of the space race A History of the 20th Century documents the events the characters the ideologies the cultural transformations and the dramatic politics of these turbulent times Jeremy Black examines subjects as diverse as the Russian Revolution the Great Depression the Cold War the Iranian Revolution and the birth of the internet in a compelling narrative Keen to highlight the role of demographics the environment culture and technology as well as the better known tales of political rivalries he brings a new perspective to this most important subject *On Unemployment* Mark R. Reiff,2015-10-07

With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers On Unemployment explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book s various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology Professor of
