**A Climatologist's Round-the-world Voyage ...** Robert DeCourcy Ward,1929 **Voyages and Beaches** Alex Calder,Jonathan Lamb,Bridget Orr,1999-04-01 What actually happened as Europeans and peoples of the Pacific discovered each other How have their respective senses of the past influenced their understanding of the present And what are the consequences of their meeting In this collection of essays scholars from European Polynesian and Settler backgrounds provide answers to these questions Writing from and between a variety of disciplines history anthropology Maori Studies literary criticism law cultural studies art history Pacific Studies they show how the Pacific reveals a more various and contradictory history than that supposed by such homogenizing metropolitan myths as the introduction of civilization to savage peoples the general ruin of indigenous cultures by an imperial juggernaut or the mimicry of European models by an abject population They examine contact from both sides of beaches throughout Polynesia exposing the many inconsistencies from which Pacific history is made Some of the essays consider the extent to which traditional European ideas about organizing and legitimizing claims to territory and power were invoked and problematized in the South Pacific some consider the violence endemic in such scenes others examine the aesthetic discourses with which early travelers and settlers attempted to make sense of the Pacific in the aftermath of discovery But rather than reiterate the myths and anti myths of conquest these essays show how local differences have made and do make a difference They emphasize the Pacific s capacity to absorb and transform the impact of Europe an impact that has been as notable for its ambivalence and confusion as for its single minded pursuit of hegemony The editors develop these themes in a wide ranging introduction that relates Pacific concerns to a more global set of theoretical and methodological problems including current work in post colonial and subaltern studies **The Steam Engine** Thomas Tredgold,1838 *Square Rigger Days* Charles W Domvillefife,2007-10-18

There are few books that describe accurately life on board sailing ships in the last days of sail from the 1860s to the First World War the romantic image conjured up by many who wrote from a safe distance belies the harsh realities which were a sailorman s lot Domville Fife in collecting together the personal stories of seamen while they were still alive was able to present a truer picture of the tough last days of sail Long voyages on board nineteenth century sailing ships were marked by

isolation boredom and miserable living conditions that taxed the endurance of men already hard pressed by the gruelling and dangerous nature of shipboard work While some were attracted to a life of adventure most simply went to sea for a living and a meagre one at that They experienced neither the excitement of life on the crack clippers of the earlier decades nor the safety of the steamships they were caught in the limbo of a dying profession where poor pay discontinuous employment prolonged isolation from family and physical hardship were the norm No wonder that murder mutiny starvation and shipwreck appear in the memoirs gathered here Domville Fife surely did future generations a great service by piecing together this reality First published in 1938 these memoirs are now available again in this superbly presented new edition with a new selection of stunning photographs and a fascinating introduction on life at sea in the dying world of sail A wonderful read for all enthusiasts and historians of the merchant service in the days of sail     **Ventures and Voyages**
