Yvonne M. Agazarian, 2018-04-17 Understanding the psychodynamics of groups has derived from the two separate strands of theory and practice resulting in two separate disciplines group psychotherapy and group dynamics Present day group psychotherapy derives mainly from psychoanalytic theory and Bion's early experiences with wartime groups and has been developed from the work of clinicians who practice group psychotherapy as a form of treatment Group dynamics theory and practice on the other hand have arisen largely from the work of social scientists like Kurt Lewin have been researched in the field and in the laboratory and have been applied to groups as arenas for leadership training and behavioral change The Visible and Invisible Group synthesizes these psychoanalytic and group approaches to group life and offers practical guidelines to the group psychotherapist The authors advocate the simultaneous use of two perspectives the psychoanalytic perspective for observing the visible group of people and their interactions and a General Systems Field Theory perspective for observing the invisible group as a whole American Lit Remixed Melissa J. Strong, 2021-04-30 American Lit Remixed identifies a new sound in literature emerging after the digital revolution It reads works by Jennifer Egan Sherman Alexie and others through the lenses of remix theory the term Eduardo Navas coined to describe the remix as a form of artistic and cultural discourse and the music industry's preoccupations with nostalgia and authenticity arguing that digital age fiction poetry and drama remix the music and technology of the past to offer new modes of connecting to self others and place Musical features such as references to popular songs structural similarities to music recordings and thematic treatment of the rifting and borrowing endemic within popular music lend a retro sound feel and structure to contemporary American texts even when they refer to life in the digital era Through engaging with the musical past literature resists nostalgia and remixes the twenty first century's dystopian disconnected ethos to find possibility and hope for the future Critics often focus on technology's negative impact on the music industry but American Lit Remixed emphasizes music as a source of creative potential in twenty first century literature including new ways of storytelling and relating Gilgamesh to Gierach James W. Dethroned Branka Ćubilo, When Gregor Truba the God of eighties Rock exchanged his guitar in the nineties for a machine gun he couldn't know he was going to be dethroned not only from the centre stage which he dominated for a decade but from his own soul as he set off on a bloody rampage with his elite troupe of Brothers in Arms He loved a young gifted poetess Pia the great grandniece of Nikola Tesla who wasn't able to return Gregor's love for she was dethroned from love after witnessing the most shattering scene possibly staged by her father Would she ever be able to find love on her mysterious journey from Amsterdam to London Sydney to Japan How many dark secrets did the Catholic Priest Friar Marag keep under his tightly lipped smile whilst purposely manipulating the faithful shaping and sculpting their minds and realities as if he were a co creator working in alliance with the Devil himself to generate chaos and leave his personal stamp on the existence and history of his country Was he dethroned from humanity for his numerous and well planned misdeeds Was Veronika Truba dethroned from her original self when she changed her name to Nikki Barlow upon her arrival to London where she formed an unusual friendship with a flamboyant man and the commitment phobe Dean Bloxham And where do I go to be myself again The question no one could answer at that time a time when everyone lost everyone was dethroned and everything was meant to be broken Dorrie William Edwards Tirebuck,1891

The Graph Music of Morton Feldman David Cline,2016-05-26 Morton Feldman is widely regarded as one of America's greatest composers His music is famously idiosyncratic but in many cases the way he presented it is also unusual because in the 1950s and 1960s he often composed in non standard musical notations including a groundbreaking variety on graph paper that facilitated deliberately imprecise specifications of pitch and at times other musical parameters Feldman used this notation intermittently over seventeen years producing numerous graph works that invite analysis as an evolving series Taking this approach David Cline marshals a wide range of source materials many previously unpublished in clarifying the ideology organisation and generative history of these graphs and their formative role in the chronicle of post war music This assists in pinpointing connections with Feldman's compositions in other formats works by other composers notably John Cage and contemporary currents in painting Performance practice is examined through analysis of Feldman's non notated preferences and David Tudor's celebrated interpretations

Sit on Our Hands, or Stand on Our Feet? Roger Philip Abbott, 2013-01-07 The aim of Sit on Our Hands or Stand on Our Feet is not to present a theology that explains disasters In fact there is no such theology Nor is this work primarily for those who are responded to it is not part of the theological grab bag that Christian responders carry with them to use for the benefit of casualties It is more a part of the Christian's engaged practical theological apprenticeship prior to and during a response This book represents the role of the practical theologian who empowers the church community's legitimization and contribution in disaster response and who encourages individual Christians whose calling into particularly relevant professions whose natural skills and or professional training could find them placed in a major incident responding status paid or voluntary doing their work as unto the Lord It is a serious must read for any Christians who have hearts heavy with compassion but who are not sure what to do or why when disaster strikes
