L'ontologie De Nietzsche:

L'ontologie manquée de Michel Foucault Béatrice Han, 1998 Que se passe-t-il si l'on traite Foucault en philosophe Si plutôt que de reprendre la perspective des sciences sociales l'on soumet son œuvre à une lecture purement philosophique Peut-on découvrir sous les prises de position contrastées et parfois provocantes de l'auteur la continuité si protéiforme soit-elle d'un même projet philosophique Ce projet il existe C'est celui d'une histoire d'elle que l'articulation de l'archéologie la généalogie permet de retracer l'histoire transcendante des conditions de possibilité du vrai et de ses effets subjectivants sur les individus Mais si Foucault entend effectivement nouer un dialogue avec la tradition philosophique occidentale en quoi consiste son apport personnel et quelle est sa fonction philosophique **Lectures de l'ontologie fondamentale** Jacques Taminiaux, 1989

Nietzsche's Philosophy of Science Babette E. Babich, 1994-01-01 **Nietzsche, Epistemology, and Philosophy of Science** B.E. Babich, 2013-03-09 Nietzsche Epistemology and Philosophy of Science is the second volume of a collection on Nietzsche and the Sciences featuring essays addressing truth epistemology and the philosophy of science with a substantial representation of analytically schooled Nietzsche scholars This collection offers a dynamic articulation of the differing strengths of Anglo American analytic and contemporary European approaches to philosophy with translations from European specialists notably Carl Friedrich von Weizsäcker Paul Valadier and Walther Ch Zimmerli This broad collection also features a preface by Alasdair MacIntyre Contributions explore Nietzsche's contributions to the philosophy of language and epistemology and include essays on the social history of truth and the historical and cultural analyses of Serres and Baudrillard as well as new contributions to the philosophy of science including theological and hermeneutical approaches history of science the philosophy of medicine cognitive science and technology Historical Dictionary of Nietzscheanism Carol Diethe, 2013-12-19 Few philosophers have been as popular prolific and controversial as Friedrich Nietzsche who has left his imprint not only on philosophy but on all the arts Whether it is his concept of the Übermensch or his nihilistic view of the world Nietzsche's writings have aroused enormous interest as well as anathema in scholars for centuries This third edition of Historical Dictionary of Nietzscheanism covers the history of this philosophy through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 hundred cross referenced entries on his major writings his contemporaries and his successors This book is an excellent access point for students researchers and anyone wanting to know more about Friedrich Nietzsche **Financial Crimes and Existential Philosophy** Michel Dion, 2013-10-21 The aim of this book is to deepen our understanding of financial crimes as phenomena It uses concepts of existential philosophies that are relevant to dissecting the phenomenon of financial crimes With the help of these concepts the book makes clear what the impact of financial crimes is on the way a human being defines himself or the way he focuses on a given notion of humankind The book unveils how the growth of financial crimes has contributed to the increase of the anthropological gap and how the phenomenon of financial crimes now distorts the way we understand humankind Using the

existential philosophies of Kierkegaard Nietzsche Jaspers Buber Heidegger and Marcel the book sheds light on how these philosophies can help to better perceive and describe financial crimes Next it looks at prevention strategies from an organizational perspective using concepts of Sartre Gadamer and Tillich The book provides readers with existential principles that will help them be more efficient when they have to design and implement prevention strategies against corporate crime **Poststructuralism and Critical Theory's Second Generation** Alan D. Schrift, 2014-09-11

Poststructuralism and Critical Theory's Second Generation analyses the major themes and developments in a period that brought continental philosophy to the forefront of scholarship in a variety of humanities and social science disciplines and that set the agenda for philosophical thought on the continent and elsewhere from the 1960s to the present Focusing on the years 1960-1984 the volume examines the major figures associated with poststructuralism and the second generation of critical theory the two dominant movements that emerged in the 1960s Althusser Foucault Deleuze Derrida Lyotard Irigaray and Habermas Influential thinkers such as Serres Bourdieu and Rorty who are not easily placed in standard histories of the period are also covered Beyond this thematic essays engage with issues as diverse as the Nietzschean legacy the linguistic turn in continental thinking the phenomenological inheritance of Gadamer and Ricoeur the influence of psychoanalysis the emergence of feminist thought and a philosophy of sexual difference the renewal of the critical theory tradition and the importation of continental philosophy into literary theory **The Wild Pig** Timothy J. Williams, 2014-09-01

We are in Algeria in a small nameless village a battered village The war stretching from the mountains to the sea cannot alter the beauty of land and sky the light falling on the graveyard the silence of a proud and impoverished people Ceaselessly on foot and on horseback the narrator travels about a land to which he is rapidly becoming attached During his excursions through a landscape that stimulates and fascinates him he gives way to an anguished meditation on fate questioning himself about good and evil the degradation and corruption of men the absurdity of war Day by day his sense of observation grows more acute and to keep from giving in to the interior panic that threatens him he studies attentively his fellow soldiers the inhabitants especially the women and among them the beautiful and affecting Kheira As he feels within him the upwelling of a primordial wildness he chooses to bury himself in solitude But will he be able to avoid confronting the wild beast in its lair adapted from the cover of the original Gallimard edition *Heidegger and French Philosophy* Tom Rockmore, 2002-09-11

Martin Heidegger's impact on contemporary thought is important and controversial However in France the influence of this German philosopher is such that contemporary French thought cannot be properly understood without reference to Heidegger and his extraordinary influence Tom Rockmore examines the reception of Heidegger's thought in France He argues that in the period after the Second World War due to the peculiar nature of the humanist French Philosophical tradition Heidegger became the master thinker of French philosophy Perhaps most importantly he contends that this reception first as philosophical anthropology and later as postmetaphysical humanism is systematically mistaken , Heidegger in the

Twenty-First Century Tziovanis Georgakis, Paul J. Ennis, 2015-03-02 The current volume is comparative and interdisciplinary and it provides a reflection on what thinking might become after Heidegger's philosophy. Its aim is to critically expand the current field of research by presenting unfamiliar and uncharted avenues that will guide and carry the Heidegger scholarship into the twenty-first century. By doing so it addresses fundamental questions in the Heideggerian scholarship including its problems, restraints, and future direction. It also engages and broadens the increasingly disparate approaches to Heidegger's work whether those approaches are traditional in their employment of phenomenology and hermeneutics or whether they apply to Heidegger's thinking in new and surprising ways. The first section of the volume emphasizes the importance of methodology for the future of Heidegger studies while the second section examines the historical, ethical, and vocal-poetical in Heidegger's thought and draws conclusions relevant to the Heidegger scholar of today. The final section demonstrates Heidegger's appeal to a variety of other discourses besides philosophy and the way his thinking could be creatively approached, utilized, and implemented in our century. Contributions come from cutting-edge scholars such as Babette E. Babich, Dermot Moran, François Raffoul, and Trish Glazebrook. **Gilles Deleuze and Metaphysics** Alain Beaulieu, Edward Kazarian, Julia Sushytska, 2014-12-24 Deleuze remains indifferent to the ambient pathos related to the end of metaphysics and compares the undertakings of destruction, overcoming, and deconstruction of metaphysics with the gestures of murderers. He considers himself a pure metaphysician which is rather unique in the contemporary philosophical landscape. What are we to make of this and similar claims? What do they mean in light of the effort made during the last several centuries to overcome, overturn, destroy, or deconstruct metaphysics? If we consider Deleuze's work more closely, might we find him engaging in the kind of thinking that is commonly referred to as metaphysical? And if Deleuze is indeed a metaphysician, does this undercut the many insightful contributions of the twentieth-century philosophers who dedicate their thought to bringing down Western metaphysical tradition? Or does it suggest that there is a sense of metaphysics that should nevertheless be preserved? These and similar questions are addressed in this volume by a series of international scholars. The goal of the book is to critically engage an aspect of Deleuze's thought that for the most part has been neglected and to understand better his immanent metaphysics. It also seeks to explore the consequences of such an engagement. **Boston Studies in the Philosophy of Science**, 1999 *L'ontologie de Miguel de Unamuno* François Meyer, 1955-01-01 T00:00:00+01:00 Cet ouvrage est une réédition numérotée d'un livre paru au XXe siècle d'origine. indisponible dans son format d'origine. Hegel, Marx and the Contemporary World Kaveh Boivieiri, Emmanuel Chaput, 2016-06-22 This book is the result of a three-day conference held in April 2014 at the University of Montreal, Canada, discussing the relevance of the work of Hegel and Marx in today's world, particularly with regard to the ecological, economic, political, and anthropological crisis facing humanity. Accordingly, the book is an exploration of the specific nature of the crisis we face both in our everyday lives and in the realm of theory. However, if indeed the necessity of a proper critique, Kritikos, is

intimately linked to a state of crisis. Crisis is the conceptual frame necessary to produce such a critique; may itself be in crisis. Among the vast number of critical oppositions to contemporary capitalism, what are the keys available to understand the present forms of human conditions, alienation and exploitation? Controversies and divisions among the different tendencies within the critical tradition tend to highlight the point that there is also a theoretical crisis which prevents a proper diagnosis of the actual crisis and prevents in turn a proper plan of action from being established. Looking back to Marx and Hegel allowed a return, if not to the sources, at least to two unavoidable influences among the various critical approaches to capitalism. Be it with or against Hegel and/or Marx, the criticisms of modernity, post-modernity and capitalism cannot neglect the shadows of these thinkers. Both Marx's and Hegel's philosophical, sociological and political enterprises must be linked historically to the will to diagnose and solve what they saw as the most important crises of their own time. From Hegel's case, the spiritual crisis which followed the advent of modernity and its accompanying turmoil to the social and political crisis caused by capitalism and the advent of a new industrial society in Marx's case. Both intellectual ventures are at every turn haunted by the notion of crisis. This book will appeal to anyone interested in Hegel's and Marx's philosophical and political theories. Not only does it provide the historical context necessary to understand properly the relation between Marx and Hegel, but it also places the relevance of their teachings for the contemporary reader in perspective.

The British Library General Catalogue of Printed Books to 1975 British Library, 1984

L'ontologie modale Ahmed Alami, 2001. Retraces le parcours philosophique d'Abu Hasim qui a vécu au Xe siècle et présente sa théorie des modes, notion fondatrice de la théologie musulmane et du bahsanisme.

L'ontologie de l'œuvre d'art Roger Pouivet, 2010. Une interrogation sur l'art se basant sur deux concepts de la métaphysique : l'existence et l'identité. L'ouvrage s'interroge sur le mode d'existence des œuvres d'art sur le rapport qu'elles entretiennent avec les pratiques sans lesquelles elles n'existent pas, etc.

National Union Catalog, 1968

Claude Tresmontant et l'ontologie de la métamorphose Yves Tourenne, 2016. Claude Tresmontant (1925-1997) est un philosophe helléniste et hébraïsant ainsi qu'un ex-géographe français. Il enseigna pendant de nombreuses années la philosophie médiévale et la philosophie des sciences à la Sorbonne. Le philosophe Yves Tourenne a travaillé toute sa vie l'œuvre de Claude Tresmontant auquel dit-il, il doit tout. Dans ce livre majeur, il cherche à livrer le cœur de la pensée du philosophe. Le cœur, le centre et le sommet de l'œuvre de Claude Tresmontant : l'ontologie de la métamorphose de l'Homme créateur ou la science de la vie mystique selon l'orthodoxie chrétienne. C'est une philosophie qui part du réel de l'univers créateur pour montrer que l'homme est en création en perpétuelle transformation métamorphose.
