Gender and Tourism Sustainability Claudia Eger, Ana María Munar, Cathy H.C. Hsu, 2023-03-21 This book examines the relationship between gender and sustainability in tourism Whilst an extensive body of work exists in the areas of gender and sustainability these two fields of knowledge are seldom combined to examine tourism phenomena When we look at the evolution of tourism we see that sustainability has become an essential element in educational programmes policy making and strategic considerations for organisations and destinations Whilst the beginnings of tourism sustainability were challenging presently its relevance is seldom questioned However this situation is not the case with gender research Although gender theorising and research

have existed for over a century and a rich legacy of knowledge exists on this topic meaningful and respectful engagement with this line of scholarship is thus far peripheral in tourism studies The aim of this book is to reflect on and rethink the intersection of gender and tourism sustainability through the lens of gender theory and feminist epistemology to stay with the trouble and devise pathways for sustainability gender knowledge This book will be of great interest to students researchers and academics in tourism gender and sustainability as well as tourism management The chapters in this book were originally published as a special issue of the Journal of Sustainable Tourism Air Travel Organisers' Licensing (ATOL) reform Great Britain: Parliament: House of Commons: Transport Committee,2012-04-30 Changes to ATOL that come into effect today April 30 2012 do not go far enough say MPs on the Commons Transport Committee in this new report Fundamental reform of ATOL the consumer protection scheme for holidaymakers is needed The Committee calls on the Government to clarify its objectives for ATOL reform to ensure that all passengers and holidaymakers are properly informed of the potential consequences of airline insolvency and the options available to them to obtain financial protection MPs also recommend that i The Civil Aviation Authority should work with the airlines to develop a code of practice covering information for all consumers making overseas holiday or travel bookings This must be designed to ensure that passengers understand the risks of being stranded abroad as a result of airline insolvency and are aware of the insurance options available ii The Government undertake research into consumers views on whether and in what ways the ATOL scheme should be extended iii The Government must distinguish between issues related to consumer protection and repatriation cover iv Future reforms should be funded by the travel industry and must provide consumers with informed choices on protection options v ATOL Protection Contributions should be linked to the value of the holiday booking instead of the current flat rate of 2 50 per passenger A.W.
