A New Deal for Native Art Jennifer McLerran, 2022-08-16 As the Great Depression touched every corner of America the New Deal promoted indigenous arts and crafts as a means of bootstrapping Native American peoples But New Deal administrators romanticization of indigenous artists predisposed them to favor pre industrial forms rather than art that responded to contemporary markets In *A New Deal for Native Art* Jennifer McLerran reveals how positioning the native artist as a pre modern Other served the goals of New Deal programs and how this sometimes worked at cross purposes with promoting native self sufficiency She describes federal policies of the 1930s and early 1940s that sought to generate an upscale market for Native American arts and crafts And by unraveling the complex ways in which commodification was negotiated and the roles that producers consumers and New Deal administrators played in that process she sheds new light on native art s commodity status and the artist s position as colonial subject In this first book to address the ways in which New Deal Indian policy specifically advanced commodification and colonization McLerran reviews its multi pronged effort to improve the market for Indian art through the Indian Arts and Crafts Board arts and crafts cooperatives murals museum exhibits and Civilian Conservation Corps projects Presenting nationwide case studies that demonstrate transcultural dynamics of production and reception she argues for viewing Indian art as a commodity as part of the national economy and as part of national political trends and reform efforts McLerran marks the contributions of key individuals from John Collier and Rene d Harnoncourt to Navajo artist Gerald Nailor whose mural in the Navajo Nation Council House conveyed distinctly different messages to outsiders and tribal members Featuring dozens of illustrations *A New Deal for Native Art* offers a new look at the complexities of folk art revivals as it opens a new window on the Indian New Deal

The Archaeology of Art in the American Southwest Marit K. The Ancestress Hypothesis Kathryn Coe, 2003 In our society it has long been believed that art serves very little social purpose Evolutionary anthropologists however are examining a potential role for art in human evolution Kathryn Coe looks to the visual arts of traditional societies for clues Because they are passed down from previous generations traditional art forms such as body decoration funeral ornaments and ancestral paintings offer ways to promote social relationships among kin and codescendants of a common ancestor Mothers used art forms to anchor themselves and their kin to the father and his kin and to promote the survival and reproductive success of kin and descendants Individuals who abided by this strategy accompanied by its strict codes of cooperation left more descendants than did individuals who did not Over time given this reproductive success large numbers of individuals would be identified as codescendants of a common ancestor and would cooperate as if they were close kin These cooperative codescendants were more likely to survive and leave descendants With each new generation these clans propagated not only their genes but also their behavioral strategy the replication or presence of art The book concludes by examining the changing characteristics of visual art including a higher value on creativity competition and cost when traditional constraints on social behavior disappear

Collisions at the Crossroads Genevieve Carpio, 2019-04-16 There are few places where mobility has shaped identity as widely as the American West but some locations and populations sit at its major crossroads maintaining control over place and mobility labor and race In *Collisions at the Crossroads* Genevieve Carpio argues that mobility both permission to move freely and prohibitions on movement helped shape racial formation in the eastern suburbs of Los Angeles and the Inland Empire throughout the nineteenth and twentieth centuries By examining policies and forces as different as historical societies Indian boarding schools bicycle ordinances immigration policy incarceration traffic checkpoints and Route 66 heritage she shows how local authorities constructed a racial hierarchy by allowing some people to move freely while placing limits on the mobility of others Highlighting the ways people of color have negotiated their place within these systems Carpio reveals a compelling

and perceptive analysis of spatial mobility through physical movement and residence **Walls of Empowerment** Guisela Latorre, 2009-09-17 Exploring three major hubs of muralist activity in California where indigenist imagery is prevalent *Walls of Empowerment* celebrates an aesthetic that seeks to firmly establish Chicana o sociopolitical identity in U S territory Providing readers with a history and genealogy of key muralists productions Guisela Latorre also showcases new material and original research on works and artists never before examined in print An art form often associated with male creative endeavors muralism in fact reflects significant contributions by Chicana artists Encompassing these and other aspects of contemporary dialogues including the often tense relationship between graffiti and muralism *Walls of Empowerment* is a comprehensive study that unlike many previous endeavors does not privilege non public Latina o art In addition Latorre introduces readers to the role of new media including performance sculpture and digital technology in shaping the muralist s canvas Drawing on nearly a decade of fieldwork this timely endeavor highlights the ways in which California s Mexican American communities have used images of indigenous peoples to raise awareness of the region s original citizens Latorre also casts murals as a radical force for decolonization and liberation and she provides a stirring description of the decades particularly the late 1960s through 1980s that saw California s rise as the epicenter of mural production Blending the perspectives of art history and sociology with firsthand accounts drawn from artists interviews *Walls of Empowerment* represents a crucial turning point in the study of these iconographic artifacts *Routledge Handbook of Street Culture* Jeffrey Ross, 2020-10-05 Discussions of street culture exist in a variety of academic disciplines yet a handbook that brings together the diversity of scholarship on this subject has yet to be produced *The Routledge Handbook of Street Culture* integrates and reviews current scholarship regarding the history types and contexts of the concept of street culture It is comprehensive and international in its treatment of the subject of street culture Street culture includes many subtypes situations locations and participants and these are explored in the various chapters included in this book Street culture varies based on numerous factors including capitalism market societies policing ethnicity and race but also advances in technology The book is divided into four major sections Actors and street culture Activities connected to street culture The centrality of crime to street culture and Representations of street culture Contributors are well respected and recognized international scholars in their fields They draw upon contemporary scholarship produced in the social sciences arts and humanities in order to communicate their understanding of street culture The book provides a comprehensive and accessible approach to the subject of street culture through the lens of an inter and or multidisciplinary perspective It is also intersectional in its approach and consideration of the subject and phenomenon of street culture *Performing Indigeneity* Laura R. Graham, H. Glenn Penny, 2014-12-01 This engaging collection of essays discusses the complexities of being indigenous in public spaces Laura R Graham and H Glenn Penny bring together a set of highly recognized junior and senior scholars including indigenous scholars from a variety of fields to provoke critical thinking about the many ways in which

individuals and social groups construct and display unique identities around the world. The case studies in *Performing Indigeneity* underscore the social historical and immediate contextual factors at play when indigenous people make decisions about when, how, why, and who can be indigenous in public spaces. *Performing Indigeneity* invites readers to consider how groups and individuals think about performance and display and focuses attention on the ways that public spheres both indigenous and nonindigenous ones have received these performances. The essays demonstrate that performance and display are essential to the creation and persistence of indigeneity while also presenting the conundrum that in many cases indigeneity excludes some of the voices or identities that the category purports to represent.

Mediating Chicana/o Culture Scott L. Baugh, 2008-12-18 *Mediating Chicana/o Culture* Multicultural American Vernacular covers an unconventional array of topics from handkerchiefs, votives, and graffiti to food, football, and the Internet, as well as cutting edge literature, cinema, photography, and more. In its cross disciplinary approach, this collection makes an invaluable contribution to the scholarship on Chicana and Chicano culture and provides engaging readings for courses in race, ethnic studies, media studies, and American studies. Collected chapters critically interrogate the underlying tensions between personal expressions and public demonstrations in their ongoing negotiation of Chicana and Chicano identity. Drawing on the revolutionary work of Gloria Anzaldúa, Tomás Ybarra Frausto, Emma Pérez, Alfred Arteaga, Chela Sandoval, Julia Watson, and Sidonie Smith, the *Latina Feminist Group*, among others, chapters in this collection closely read the processes that seem built into the actions and behaviors, the products, the art, the literature, and the discourse surrounding the search for identity in the rush of our diverse 21st century existence. *Mediating Chicana/o Culture* lays bare the methods by which we define ourselves as individuals and as members of communities, examining not only the message but also the medium and the methods of mediating identity and culture.

Drawing Back Culture Tweedie, 2015-08-17 The Makah Indians of Washington State, briefly in the national spotlight when they resumed their ancient whaling traditions in 1999, have begun a process that will eventually lead to the repatriation of objects held by museums and federal agencies nationwide. *Drawing Back Culture* describes the early stages of the tribe's implementation of what some consider to be the most important piece of cultural policy legislation in the history of the United States: the Native American Graves Protection and Repatriation Act (NAGPRA). NAGPRA was passed by Congress in 1990 to give Native people a mechanism through which they could reclaim specific objects of importance to the tribe. Because NAGPRA definitions were intended for widespread applicability, each tribe must negotiate a fit between these definitions and their own material culture. The broad range of viewpoints within any given tribal community creates internal negotiations over NAGPRA surrounding the identification and eventual return of such objects. Negotiations also arise concerning the nature of ownership. At the heart of this ongoing struggle are themes relevant to indigenous studies worldwide: the central role of material culture in cultural revitalization movements; concerns with intellectual property rights and self-representation; and the trend towards professional cultural resource management among indigenous peoples. The

conception of ownership lies at the heart of the Makahs struggle to implement NAGPRA Tweedie explores their historical patterns of ownership and demonstrates the challenges of implementing legislation which presumes a concept of communal ownership foreign to the Makahs highly developed and historically documented patterns of personal ownership of both material culture and intellectual property Drawing Back Culture explores how NAGPRA implementation has been working at the tribal level from the perspective of a tribe struggling to fit the provisions of the law with its own sense of history ownership and the drive for cultural renewal

Cosmopolitanism and Tourism Robert Shepherd, 2017-12-12 Within tourism studies the cosmopolitan potentials of tourism have often been situated within a broader conversation about globalization an approach that implies that cosmopolitanism is a predictable by product of globalization and becoming more cosmopolitan should be the goal of travel And yet a fundamental value of a cosmopolitan outlook namely to not only to be at home in the world but also to experience the world in an authentic sense depends on the culturally embedded parochial and particular world views which it rejects In Cosmopolitanism and Tourism Rethinking Theory and Practice contributors take this as a starting point What does a worldly consciousness mean to people situated in different cultural landscapes and to what extent might these intersect with cosmopolitan values How is cosmopolitanism marketed in tourism and tourist related industries such as service learning and study abroad And finally what roles do social and economic class educational background gender and other factors have in cosmopolitan claims The contributors to this edited collection address these questions in a series of case studies that range from Guatemala Bolivia and Ireland to China India and Dubai For more information check out A Conversation with Robert Shepherd author of Cosmopolitanism and Tourism Rethinking Theory and Practice

Watching the Traffic Go By Paul Mason Fotsch, 2007-03-01 As twentieth century city planners invested in new transportation systems to deal with urban growth they ensured that the automobile rather than mass transit would dominate transportation Combining an exploration of planning documents sociological studies and popular culture Paul Fotsch shows how our urban infrastructure developed and how it has shaped American culture ever since Watching the Traffic Go By emphasizes the narratives underlying our perceptions of innovations in transportation by looking at the stories we have built around these innovations Fotsch finds such stories in the General Motors Futurama exhibit at the 1939 World s Fair debates in Munsey s magazine films such as Double Indemnity and even in footage of the O J Simpson chase along Los Angeles freeways Juxtaposed with contemporaneous critiques by Lewis Mumford Theodor Adorno and Max Horkheimer Fotsch argues that these narratives celebrated new technologies that fostered stability for business and the white middle class At the same time transportation became another system of excluding women and the poor especially African Americans by isolating them in homes and urban ghettos A timely interdisciplinary analysis Watching the Traffic Go By exposes the ugly side of transportation politics through the seldom used lens of popular culture
