Looking Ahead Independent School Issues And Answers:

Love's Return Gail M. Boldt, Paula M. Salvio, 2012-11-12 The idea that teachers love children is often taken for granted in education Rarely is the idea of love itself examined Bringing together the work of educators curriculum theorists and clinical psychoanalysts and drawing upon autobiographical and narrative case studies this groundbreaking collection examines the collision of love and learning including the ways in which such intersections are provoked repressed and denied Contributors turn to psychoanalysis to explore questions of love in all of its varying permutations ambivalence sexuality hatred desire projection and loss in order to demonstrate how the social ramifications of such work is critical to the ways teachers are currently being prepared for life in the classroom *Tracing the threads* Kelly J.D. Waldron, 2009-01-01 This text is a postmodern historical analysis that seeks to trouble the distinction between the private and the public that is traditionally drawn in educational history and theory by examining the histories of public schools and independent schools around the topics of identity politics accountability and globalization This work is unique in its focus on the histories of independent schoolings as being in dialogue with those of public schooling Through a historical and theoretical examination of the dialogical space in between the private public divide in education around these three interrelated topics this work seeks to troubles the private public distinction exploring the possibilities and futurities for curriculum work and education in the postmodern space in between public schools and independent schools It raises questions regarding what defines the structures of schooling in the United States as well as how contrasts between public and private spaces question traditional notions of democratic education Handbook of Research on Advancing Critical Thinking in Higher Education Wisdom, Sherrie, Leavitt, Lynda, 2015-07-17 The importance of critical thinking has surged as academics in higher education realize that many students upon entering college lack the critical thinking skills necessary to succeed While much has been written regarding the lack of critical thinking less has been written on the success of methods implemented to develop this fundamental skill The Handbook of Research on Advancing Critical Thinking in Higher Education explores the effective methods and tools being used to integrate the development of critical thinking skills in both undergraduate and graduate studies Due to the difficulties associated with teaching critical thinking skills to learners of any age this publication is a crucial addition to the scholarly reference works available to pre service and early career teachers seasoned educational professionals professors across disciplines curriculum specialists and educational administrators **On Privilege, Fraudulence, and Teaching As Learning** Peggy McIntosh, 2019-07-04 From one of the world's leading voices on white privilege and anti racism work comes this collection of essays on complexities of privilege and power Each of the four parts illustrates Peggy McIntosh's practice of combining personal and systemic understandings to focus on power in unusual ways Part I includes McIntosh's classic and influential essays on privilege or systems of unearned advantage that correspond to systems of oppression Part II helps readers to understand that feelings of fraudulence may be imposed by our hierarchical

cultures rather than by any actual weakness or personal shortcomings Part III presents McIntosh's Interactive Phase Theory highlighting five different world views or attitudes about power that affect school curriculum cultural values and decisions on taking action The book concludes with powerful insights from SEED a peer led teacher development project that enables individuals and institutions to work collectively toward equity and social justice This book is the culmination of forty years of McIntosh's intellectual and organizational work

Advanced Methodologies and Technologies in Modern Education Delivery Khosrow-Pour, D.B.A., Mehdi, 2018-09-21 Recent innovations and new technologies in education have altered the way teachers approach instruction and learning and can provide countless advantages The pedagogical value of specific technology tools and the cumulative effects of technology exposure on student learning over time are two areas that need to be explored to better determine the improvements needed in the modern classroom Advanced Methodologies and Technologies in Modern Education Delivery provides emerging research on educational models in the continually improving classroom While highlighting the challenges facing modern in service and pre service teachers when educating students readers will learn information on new methods in curriculum development instructional design and learning assessments to implement within their classrooms This book is a vital resource for pre service and in service teachers teacher education professionals higher education administrative professionals and researchers interested in new curriculum development

Inquiry as Stance Marilyn Cochran-Smith, Susan L. Lytle, 2015-04-25 In this long awaited sequel to Inside Outside Teacher Research and Knowledge two leaders in the field of practitioner research offer a radically different view of the relationship of knowledge and practice and of the role of practitioners in educational change In their new book the authors put forward the notion of inquiry as stance as a challenge to the current arrangements and outcomes of schools and other educational contexts They call for practitioner researchers in local settings across the United States and around the world to ally their work with others as part of larger social and intellectual movements for social change and social justice Part I is a set of five essays that conceptualize inquiry as a stance and as a transformative theory of action that repositions the collective intellectual capacity of practitioners Part II is a set of eight chapters written by eight differently positioned practitioners who are or were engaged in practitioner research in K 12 schools or teacher education Part III offers a unique format for exploring inquiry as stance in the next generation a readers theatre script that juxtaposes and co mingles 20 practitioners voices in a performance oriented format Together the three parts of the book point to rich possibilities for practitioner inquiry in the next generation Contributors Rebecca Akin Gerald Campano Delvin Dinkins Kelly A Harper Gillian Maimon Gary McPhail Swati Mehta Rob Simon and Diane Waff Cochran Smith and Lytle once again prove themselves to be among the best at melding theory and practice Instead of merely making the case for practitioner inquiry they go the next step to show us exactly what this genre brings to our field rigor relevance and passion The interplay of conceptual clarity and powerful exemplars make this a text we will read well into the next decade Gloria Ladson Billings University of Wisconsin

Madison Once again Marilyn Cochran Smith and Susan Lytle point the way to new and hopeful understandings of practitioner research Rather than blame teachers for all that is wrong with education they and their fellow authors remind us that if school reform is to have any chance of fulfilling its stated goal of equal opportunity for all students teachers must have a significant voice in research policy and practice With its focus on social justice and its view of practitioner research as transformative this is a powerful and welcome sequel to their classic *Inside Outside* Sonia Nieto Professor Emerita University of Massachusetts Amherst *Inquiry as Stance* should be a blockbuster This brilliant sequel re calibrates relationships between practitioner inquiry and social justice Carole Edelsky Professor Emerita Arizona State University This optimistic and generous book is sure to become a central reference for teacher researchers in K 16 schools and their colleagues and supporters throughout the system Elyse Eidman Aadahl Director National Programs and Site Development National Writing Project University of California Berkeley This view of the intellectual and personal work of teaching is a major counter to the contemporary emphasis on testing and packaged curricula Cynthia Ballenger reading specialist Cambridge Public Schools Once again Cochran Smith Lytle and their colleagues bring us an invaluable book on the enormous possibilities of practitioner research Luis C Moll College of Education University of Arizona [Breaking the Silence](#) Bob Riddle,1994
