Lord Acton Selected Vols1 3

Bruce Caldwell

Lord Acton Selected Vols1 3:

A Cultural History of Ideas in the Age of Empire James H. Johnson, 2025-05-15 PRAISE FOR A CULTURAL HISTORY OF IDEAS VOLUMES 1 6 A 2024 CHOICE OUTSTANDING ACADEMIC TITLE 2023 AAP PROSE AWARDS WINNER BEST HUMANITIES REFERENCE WORK Few major European writers of the nineteenth century addressed the topic of empire explicitly but its components are present throughout their work in science and religion literature and the arts and philosophy politics and economics This volume in the award winning 6 volume set A Cultural History of Ideas encompassing the period between the French Revolution and the First World War offers a comprehensive account of nine central domains of thought in the long nineteenth century or age of empire Employing recent approaches in cultural history scholars from a variety of fields revisit well known works and present less familiar figures to assess the origins and impact of ideas in their national and global contexts Taken together these chapters share large themes that define this most consequential period in European history including the status and reach of speculative reason the changing roles of science and religion in public life the emergence of modern selfhood and the cultural and political effects of mass democracy The 6 volume set A Cultural History of Ideas is part of The Cultural Histories Series Titles are available in print for individuals or for libraries needing just one subject or preferring a tangible reference for their shelves or as part of a fully searchable digital library The digital product is available to institutions by annual subscription or on perpetual access via www.bloomsburyculturalhistory.com Individual volumes for academics and researchers interested in specific historical periods are also available in print or digitally via www.bloomsburycollections.com

On Ordered Liberty Samuel Gregg, 2003-07-28 Perhaps no issue is more divisive among philosophers jurists and theologians than the nature of human liberty Liberty is central to the claims of the Christian Gospel the Glorious Revolution of 1688 and the American Revolution But discussions about the nature of freedom have been characterized by profound disagreement and unsettling questions What does it mean to be free Is freedom worth more than men's lives Why should man be free What if any legitimate responsibilities accompany freedom These subjects are at the heart of Samuel Gregg's new book *On Ordered Liberty* Beginning with the insights of Alexis de Tocqueville and some natural law theorists Gregg suggests that something which he terms integral law must be distinguished from most contemporary visions of freedom He argues that this new arrangement requires a complete repudiation of utilitarian ideas on the grounds that they are incompatible with human nature He also recommends a new and more rigorous focus on the basic but often neglected question what is man *On Ordered Liberty* goes beyond the liberal and conservative divide asking its readers to think about the proper ends of human choice and actions in a free society

Liberalism Domenico Losurdo, 2014-03-11 One of Europe's leading intellectual historians deconstructs the dark side of liberalism sifting through 3 centuries of liberal writings by John Locke Alexis de Tocqueville and others In this definitive historical investigation Italian author and philosopher Domenico Losurdo argues that from the outset liberalism as a philosophical position and ideology has been

bound up with the most illiberal of policies slavery colonialism genocide racism and snobbery Narrating an intellectual history running from the 18th through to the 20th centuries Losurdo examines the thought of preeminent liberal writers such as Locke Burke Tocqueville Constant Bentham and Siey s revealing the inner contradictions of an intellectual position that has exercised a formative influence on today s politics Among the dominant strains of liberalism he discerns the counter currents of more radical positions lost in the constitution of the modern world order *The Pope and the Professor* Thomas Albert Howard,2017 A history of the Catholic Church after the French Revolution through the story of the D llinger affair Ignaz von D llinger 1799 1890 was a leading critic of Pope Pius IX and in particular the doctrine of Papal Infallibility defined during the First Vatican Council [How the Idea of Religious Toleration Came to the West](#) Perez Zagorin,2013-12-03 Religious intolerance so terrible and deadly in its recent manifestations is nothing new In fact until after the eighteenth century Christianity was perhaps the most intolerant of all the great world religions How Christian Europe and the West went from this extreme to their present universal belief in religious toleration is the momentous story fully told for the first time in this timely and important book by a leading historian of early modern Europe Perez Zagorin takes readers to a time when both the Catholic Church and the main new Protestant denominations embraced a policy of endorsing religious persecution coercing unity and with the state s help mercilessly crushing dissent and heresy This position had its roots in certain intellectual and religious traditions which Zagorin traces before showing how out of the same traditions came the beginnings of pluralism in the West Here we see how sixteenth and seventeenth century thinkers writing from religious theological and philosophical perspectives contributed far more than did political expediency or the growth of religious skepticism to advance the cause of toleration Reading these thinkers from Erasmus and Sir Thomas More to John Milton and John Locke among others Zagorin brings to light a common if unexpected thread concern for the spiritual welfare of religion itself weighed more in the defense of toleration than did any secular or pragmatic arguments His book which ranges from England through the Netherlands the post 1685 Huguenot Diaspora and the American Colonies also exposes a close connection between toleration and religious freedom A far reaching and incisive discussion of the major writers thinkers and controversies responsible for the emergence of religious tolerance in Western society from the Enlightenment through the United Nations Universal Declaration of Human Rights this original and richly nuanced work constitutes an essential chapter in the intellectual history of the modern world **Defending the Free Market** Robert Sirico,2012-05-22 The Left has seized on our economic troubles as an excuse to blame the rich guy and paint a picture of capitalism and the free market as selfish greedy and cruel Democrats in Congress and Occupy protesters across the country assert that the free market is not only unforgiving it s morally corrupt According to President Obama and his allies only by allowing the government to heavily control and regulate business and by redistributing the wealth can we ensure fairness and compassion Exactly the opposite is true says Father Robert A Sirico in his thought provoking new book *Defending the Free Market The Moral Case for a Free*

Economy Father Sirico argues that a free economy actually promotes charity selflessness and kindness And in Defending the Free Market he shows why free market capitalism is not only the best way to ensure individual success and national prosperity but is also the surest route to a moral and socially just society In Defending the Free Market Father Sirico shows Why we can t have freedom without a free economy Why the best way to help the poor is to start a business Why charity works but welfare doesn t How Father Sirico himself converted from being a leftist colleague of Jane Fonda and Tom Hayden to recognizing the merits of a free economy In this heated presidential election year the Left will argue that capitalism may produce winners but it is cruel and unfair Yet as Sirico proves in Defending the Free Market capitalism does not simply provide opportunity for material success but it ensures a more ethical and moral society as well **The Cambridge**

bibliography of English literature. 3. 1800 - 1900 Frederick Wilse Bateson,1940 **The Constitution of Liberty** F.A. A. Hayek,2011-06-15 One of the great political works of our time The twentieth century successor to John Stuart Mill s essay On Liberty Newsweek Conservatives and concerned citizens alike have grown increasingly fearful of big government Enter Nobel Prize winning economist and political theorist F A Hayek whose passionate warning against empowering states with greater economic control The Road to Serfdom became an overnight sensation The latest entry in the University of Chicago Press s series of newly edited editions of Hayek s works The Constitution of Liberty is like Serfdom just as relevant to our present moment The book is considered Hayek s classic statement on the ideals of freedom and liberty ideals that he believes have guided and must continue to guide the growth of Western civilization Here Hayek defends the principles of a free society casting a skeptical eye on the growth of the welfare state and examining the challenges to freedom posed by an ever expanding government as well as its corrosive effect on the creation preservation and utilization of knowledge In opposition to those who call for the state to play a greater role in society Hayek puts forward a nuanced argument for prudence Guided by this quality he elegantly demonstrates that a free market system in a democratic polity under the rule of law and with strong constitutional protections of individual rights represents the best chance for the continuing existence of liberty Striking a balance between skepticism and hope Hayek s profound insights are timelier and more welcome than ever before This definitive edition of The Constitution of Liberty will give a new generation the opportunity to learn from his enduring wisdom **Philosophical Melancholy and Delirium** Donald W. Livingston,2018-06-29 The Scottish philosopher David

Hume is commonly understood as the original proponent of the end of philosophy In this powerful new study Donald Livingston completely revises our understanding of Hume s thought through his investigation of Hume s distinction between true and false philosophy For Hume false philosophy leads either to melancholy over the groundlessness of common opinion or delirium over transcending it while true philosophy leads to wisdom Livingston traces this distinction through all of Hume s writings providing a systematic pathology of the corrupt philosophical consciousness in history politics philosophy and literature that characterized Hume s own time as well as ours By demonstrating how a philosophical method can be used to

expose the political motivations behind intellectual positions historical events and their subsequent interpretations Livingston revitalizes Hume's thought and reveals its relevance for contemporary discussions of politics nationalism and ideology for the first time **Bookseller and the Stationery Trades' Journal** ,1904 Justice before Reconciliation Dipankar

Gupta,2013-04-03 The book explores how Muslims in Mumbai and Ahmedabad coped with the aftermath of the violence directed against them in 1993 and 2002 respectively and how they responded to the ethnic carnages of which they were the victims highlighting the importance of the context and the history of the place where such violence occurred Unlike other studies on ethnic violence which have a short term focus in dealing with its immediate aftermath this book examines what happens to the victims over time and how they negotiate a new normal and get on with their lives Using empirical material based on field work in Mumbai and Ahmedabad the book shows that while poverty education and employment remain important elements in the recovery process the most crucial issue is that of justice and the need to reclaim citizenship A significant section of the book is devoted to the relationship between Muslim faith based organisations and the victims of ethnic violence *Democratic Dilemmas of Multilevel Governance* J. DeBardeleben,A. Hurrelmann,2007-09-27 Focusing on

the EU this volume with a combination of theoretical perspectives and empirical research examines the problems multilevel governance causes for democratic legitimacy by placing it in a comparative and theoretical context and explore how challenges faced by the EU compare with those faced by traditional federal systems worldwide **Mont Pèlerin 1947**

Bruce Caldwell,2022-03-01 Marking the 75th anniversary of the first meeting of the Mont Pèlerin Society in 1947 this volume presents for the first time the original transcripts from this landmark event The society was created by Friedrich Hayek as a forum for leading economists and intellectuals to discuss and debate classical liberal values in the face of a rapidly changing world and political trends toward socialism Bruce Caldwell a major scholar of Hayek provides an informative introduction and explanatory notes to the source documents drawn from the Hoover Institution Library Archives where they have been available to scholars Now accessible to all the transcripts reveal what was said on a wide range of topics including free markets monetary reform wage policy taxation agricultural policy the future of Germany Christianity and liberalism and more They provide insights into the thinking of men such as Hayek Milton Friedman Aaron Director Frank Knight Walter Eucken Karl Popper and other leading figures in the classical liberalism movement illuminating not only their ideas but also their distinctive personalities A photo section shows rarely seen images from the meeting **Faith in Freedom** Thomas

Szasz,2017-07-12 The libertarian philosophy of freedom is characterized by two fundamental beliefs the right to be left alone and the duty to leave others alone Psychiatric practice routinely violates both of these beliefs It is based on the notion that self ownership exemplified by suicide is a not an inherent right but a privilege subject to the review of psychiatrists as representatives of society In Faith in Freedom Thomas Szasz raises fundamental questions about psychiatric practices that inhibit an individual's right to freedom His questions are fundamental Is suicide an exercise of rightful self ownership or a

manifestation of mental disorder Does involuntary confinement under psychiatric auspices constitute unjust imprisonment or is it therapeutically justified hospitalization Should forced psychiatric drugging be interpreted as assault and battery on the person or is it medical treatment The ethical standards of psychiatric practice mandate that psychiatrists employ coercion Forgoing such intervention is considered a dereliction of the psychiatrists duty to protect How should friends of freedom especially libertarians deal with the conflict between elementary libertarian principles and prevailing psychiatric practices In Faith in Freedom Thomas Szasz addresses this question more directly and more profoundly than in any of his previous works

Contemporary Nationalism in East Central Europe Paul Latawski, 2016-07-27 This book provides an introductory survey to contemporary nationalism in East Central Europe It examines the problem of nationalism in the region in the wake of the collapse of communism and attempts to place recent events within a historical context The book contains selected essays devoted to specific countries as well as those covering nationalism on a regional basis A further reading list is included to encourage a deeper probing into the problem of nationalism in East Central Europe *The Science of History in Victorian Britain* Ian Hesketh, 2016-09-12 New attitudes towards history in nineteenth century Britain saw a rejection of romantic literary techniques in favour of a professionalized scientific methodology The development of history as a scientific discipline was undertaken by several key historians of the Victorian period influenced by German scientific history and British natural philosophy This study examines parallels between the professionalization of both history and science at the time which have previously been overlooked Hesketh challenges accepted notions of a single scientific approach to history Instead he draws on a variety of sources monographs lectures correspondence from eminent Victorian historians to uncover numerous competing discourses **The Defenders of Liberty** Neema Parvini, 2020-05-01 The Defenders of Liberty presents a history of economic liberalism from the Renaissance to the present It chronicles the tradition of thought that sees human nature as social yet self interested methodological individualism as its key analytical tool and property rights as foundational to a civilised society In the development of this way of thinking it considers the contributions of many key thinkers including

Niccol Machiavelli Thomas Hobbes John Locke Richard Cantillon A J R Turgot David Hume Adam Smith Nassau William Senior Richard Cobden Herbert Spencer Jean Baptiste Say Carl Menger William Stanley Jevons Gaetano Mosca Eugen B hm Bawerk Vilfredo Pareto Phillip Wicksteed Edwin Cannan Ludwig von Mises Lionel Robbins F A Hayek W H Hutt Milton Friedman George Stigler Murray N Rothbard James M Buchanan and Thomas Sowell The book contends that liberalism needs to be grounded in realism and that it has been derailed whenever economists have deviated from an explicitly realist understanding of human nature individualism and property rights It argues that the cause of liberalism was compromised by errors in economic reasoning by such major figures as David Ricardo John Stuart Mill Alfred Marshall A C Pigou and John Maynard Keynes In diagnosing what has gone wrong for liberalism in the twenty first century The Defenders of Liberty argues against substituting mathematical abstraction for causal realism it opposes interventionist central banking it seeks to

recover economic liberalism from social and political liberalism which are somewhat unrelated schools of thought it resists a view of human nature rooted in selfishness or atomised individualism and finally alerts defenders of freedom to the ruthless but effective language games played by their opponents This book will be of interest to the educated general reader as well as undergraduates and postgraduates in disciplines such as economics political theory and philosophy **Herbert Butterfield** C.T. McIntire,2008-10-01 Herbert Butterfield 1900 1979 was an important British historian and religious thinker whose ideas in particular his concept of a Whig interpretation of history remain deeply influential In this intellectual biography the first comprehensive study of Butterfield C T McIntire focuses on the creative processes that lay behind Butterfield s intellectual accomplishments Drawing on his investigations into Butterfield s vast and diverse output of published and unpublished work McIntire explores Butterfield s ideas and methods He describes Butterfield s lifelong devotion to his Methodist faith and shows how his Christian spirituality animated his historical work He also traces the theme of dissent that ran through Butterfield s life and work presenting a man who found himself at odds with prevailing convictions about history morality politics religion and teaching a man who elevated the notion of dissent into an ethic of living in tension with any established system [The End of Socialism](#) James Otteson,2014-10-06 The End of Socialism explores the difficulties socialism faces and examines the extent to which its moral ideals can guide policy [The Ashgate Research Companion to Federalism](#) Ann Ward,2016-04-01 This comprehensive research companion examines the theory practice and historical development of the principle of federalism from the ancient period to the contemporary world It provides a range of interpretations and integrates theoretical and practical aspects of federalism studies more fully than is usually the case The volume identifies and examines nascent conceptions of the federal idea in ancient and medieval history and political thought before considering the roots of modern federalism in the ideas of a number of important European political theorists of the sixteenth through eighteenth centuries The contributors focus on the development and institutionalization of the principle of federalism in the American Republic and examine the historical development and central policy debates surrounding European federalism The final sections investigate contemporary debates about theories of federalism and regional experiences of federalism in a global context including Africa India Australia the Middle East and North and South America The scope and range of this volume is unparalleled it will provide the reader with a firm understanding of federalism as issues of federalism promise to play an ever more important role in shaping our world
