Theatre Censorship David Thomas, David Carlton, Anne Etienne, 2007-11 Using previously unpublished material from the National Archives this book provides a thoroughgoing account of the introduction and abolition of theatre censorship in England from Sir Robert Walpole's Licensing Act of 1737 to the successful campaign to abolish theatre censorship in 1968. It concludes with an exploration of possible new forms of covert censorship.

Narrating Media History Michael Bailey, 2012-11-12 Based on the work of media historian James Curran, *Narrating Media History* explores British media history as a series of competing narratives. This unique and timely collection brings together leading international media history scholars not only to identify and contrast the various interrelationships between media histories but also to encourage dialogue between different historical, political and theoretical perspectives including liberalism, feminism, populism, nationalism, libertarianism, radicalism and technological determinism. Essays by distinguished academics cover television, radio, newspaper, press and advertising among others and illustrate the particularities, affinities, strengths and weaknesses within media history. Each section includes a brief introduction by the editor with discussion topics and suggestions for further reading, making this an invaluable guide for students of media history.

London Opera Observed 1711-1844, Volume I Michael Burden, 2024-08-23 The thrust of these five volumes is contained in their title: *London Opera Observed*. It takes its cue from the numerous texts and volumes which during the seventeenth, eighteenth and nineteenth centuries used the concept of spying or observing by a narrator or rambler as a means of establishing a discourse on aspects of London life. The material in this five-volume reset edition examines opera not simply as a genre of performance but as a wider topic of comment and debate. The stories that surrounded the Italian opera singers illuminate contemporary British attitudes towards performance, sexuality and national identity. The collection includes only complete published material, organised chronologically so as to accurately retain the contexts in which the original readers encountered them, placing an emphasis on rare texts that have not been reproduced in modern editions. The aim of this collection is not to provide a history of opera in England but to facilitate the writing of them or to assist those wishing to study topics within the field. Headnotes and footnotes establish the publication information and provide an introduction to the piece, its author and the events surrounding it or which caused its publication. The notes concentrate on attempting to identify those figures mentioned within the texts. The approach is one of presentation, not interpretation, ensuring that the collection occupies a position that is neutral rather than polemical.
