Nationalization in France and Italy Mario Einaudi,1955 Nationalization in France and Italy Mario Einaudi,1955

Legal Aspects of Foreign Investment in the European Economic Community , *Capitalism and the State in Modern France* Richard F. Kuisel,1983-04-29 **The Theory of Nationalisation** Konstantin Katzarov,2012-12-06 In this book Professor Katzarov has made the first comprehensive study of nationalisation from the legal point of view The author's knowledge of European languages in addition to his mother tongue of Bulgarian has enabled him to draw on material from England France the U S S R and the other communist countries of Eastern Europe and many countries of Asia and Latin America The book ranges widely in another sense Professor Katzarov is a jurist in the best Continental tradition in that his work does not spring from a narrow technical outlook but is a synthesis of historical philosophical political economic and legal elements Thus he shows the way in which the constitutional and legal framework of nationalisation has been influenced by extra legal elements It is difficult to imagine a legal scholar trained in one of the Common Law countries producing a work as broadly conceived and this is one of several reasons why the publication of an English edition is welcome **Nationalized**

Industry and Public Ownership William Robson,2022-01-26 First Published in 1960 Nationalized Industry and Public Ownership is concerned with the state of nationalized industries in Britain in the context of the wider sphere of public enterprise in the world It critically examines themes like the motives and background of nationalization the state of public corporation in Britain public utilities as monopoly parliamentary debates and questions regarding government control the idea of public accountability the status of consumers councils and the link between labour relations and public ownership This book is an important historical document for scholars and researchers of public administration political economy British economy labour economics and British labour history **France's Long Reconstruction** Herrick Chapman,2018-01-08

Postwar recovery required a transformation of France but what form it should take remained a question Herrick Chapman charts the course of France's reconstruction from 1944 to 1962 offering insights into the ways the expansion of state power produced fierce controversies at home and unintended consequences abroad in France's crumbling empire Organized Business in France Henry Walter Ehrmann,2015-12-08 It is widely admitted that organized economic interests determine political decision making at many levels of the French political process This first comprehensive description of the French employers and trade association movement shows how these pressure groups operate and indicates the extent of their influence Originally published in 1957 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Comparative Theory and Political Experience*

Peter J. Katzenstein, Theodore J. Lowi, Sidney Tarrow, 2019-06-30 Through his influential writings integrating the heritage of classical political theory with the perspective of modern comparative politics Mario Einaudi has demonstrated how the twentieth century political scientist can advance the eighteenth century philosopher's pursuit of institutions that ensure freedom and civic virtue Editors Katzenstein Lowi and Tarrow have brought together essays illuminating the creative tension in Einaudi's work between the theorist's belief in constitutions as the site for democracy and the realist's understanding of the frailty and contrariness of ordinary people Eight distinguished scholars here explore the themes that constitute the core of Einaudi's contribution the interdependence between Europe and America the role of the comparative method and the centrality of eighteenth century theory Taking individual writings by Einaudi as their starting point the chapters address a rich diversity of topics **Nationalization in France and Italy** Mario Einaudi, Maurice Byé, Ernesto Rossi, 1955

Translations on International Communist Developments, 1964 *Mutual Security Act of 1959* United States. Congress. Senate. Committee on Foreign Relations, 1959 The Rise and Fall of State-Owned Enterprise in the Western World

Aguiluz-Ibargüen, Josetxo Beriain, 2023-12-12 This book analyzes the culture wars as those struggles for the monopoly of the legitimate representation of the world in the normative elucidation of controversial issues linked to values Public culture in this context would consist of a set of complex classificatory systems of symbols and meanings that constitute a semantic field in permanent dynamic tension In this work we analyze a whole series of lines of cultural conflict such as the social and semantic genesis of the different forms of culture war from the thesis of modern polytheism pointed out by Max Weber at the beginning of the 20th century to the national culture wars and the current global culture wars the social production of truth and the clash with the epistemological tribalisms the struggles between the new warrior gods daimons and demons that emerge in modern societies the struggles of fusion and fission on the symbolic battlefield of Europe the struggles between pioneers and gatekeepers to define the limits of human nature the struggles between utopias and dystopias that colonize the present future This book will be of great help to anybody looking for key interpretations on the nature and structure of modern conflicts in contemporary societies **Mutual Security Act of 1959** United States. Congress. House. Committee on Foreign Affairs, 1959 Considers draft bill to authorize FY60 appropriations for foreign assistance programs under the Mutual Security Act and revise certain administrative provisions regarding loan assistance and sales under the Act *The ABC-CLIO World History Companion to Capitalism* Larry Allen, 1998-10 An introduction illustrations chronology
